New iRover²® Flat Panel Cart

Copernicus
educational products

Designed for tight spaces, group work and wayfinding at entrances

Supports 30-55" flat panels!
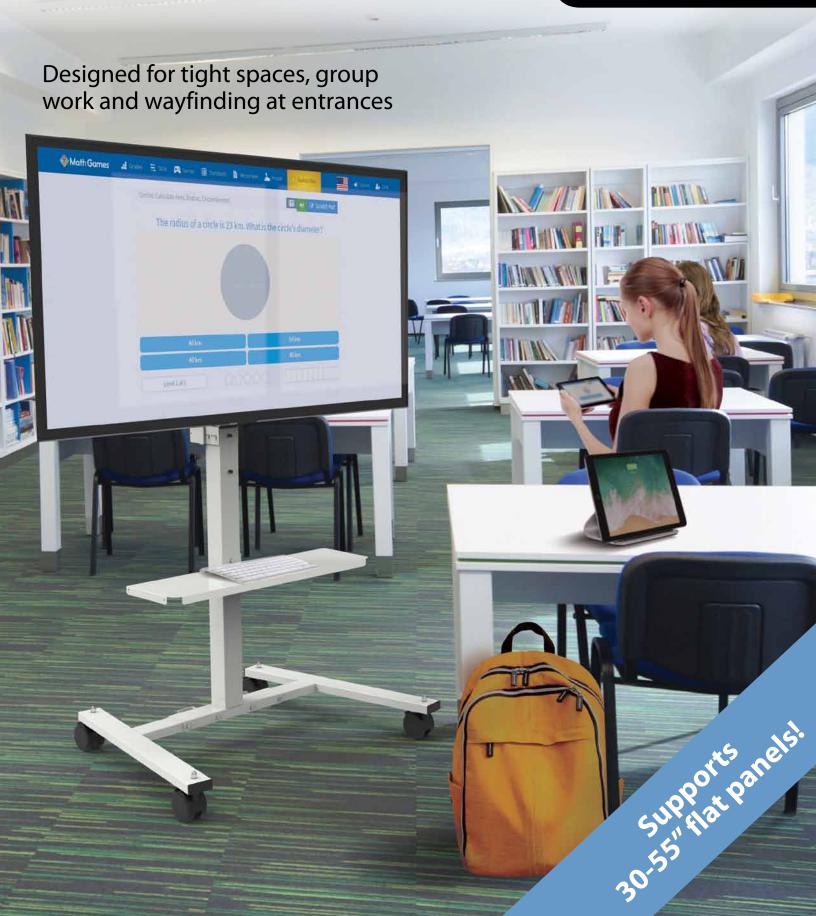

NEW! iRover² ® Cart for 30-55" Flat Panels

This compact and mobile stand allows 30"-55" flat panels to be used anywhere in a classroom or school. It can be used in place of projectors, for displaying morning announcements or lesson plans, for small group learning activities, student presentations and media projects, or in STEM labs for technology projects. It's also useful for wayfinding at entrances and traveling teachers. When it's paired with a webcam (optional mount is available), it helps make teaching online and in-class students easier.

Flat panel can be set to portrait (with tools)

24 ½" from floor to bottom of screen (55" panel)

Shown in lowest position

36 ½" from floor to bottom of screen (55" panel)

Back view with laptop tray in use

NEW iRover²® Cart for 30-55" Flat Panels with Laptop Tray (IFP600)

Features:
- Laptop tray with rounded corners and strap to hold up to a 17" laptop and can be stowed
- Sturdy frame that supports 30-55" flat panels with a maximum weight of 80lbs
- Panel can be adjusted to landscape or portrait orientation (requires tools)
- Shelf for placing accessories (remotes, keyboards, mouse, reference notes)
- Height adjustable upon assembly with a range of 11 3/4" (30 cm) and seven fixed height settings, spaced 2" (5 cm) apart
- Hook and loop ties for cable management
- 3" twin wheel locking casters

NEW iRover²® Cart for 30-55" Flat Panels with Mini PC Mount (IFP650)
Same features as the model above but with a Mini PC Mount instead of a laptop tray.

Additional accessories
- Sound bar mount (IFP6-SBM) (attaches to the flat panel)
- Webcam Mount (IFP6-WCM) Supports most common webcam models and PTZ cameras

VESA mounting pattern: 100 – 400 mm
