# UV Tech Tub®

Designed with safety, sanitizing effectiveness and ease of use as top priorities.

The UV Tech Tub® is here to help with the necessary sanitizing of devices required to keep classrooms as germ-free as possible. In one minute, the UV Tech Tub sanitizes bacteria and viruses commonly found in schools. The large chamber can also sanitize Chromebook™ keyboards and screens (when open), VR headsets, headphones, robotics and other commonly used classroom items.

Top compartment holds package of 12 medical grade testing cards to check UVC level (monthly check is recommended)

Bulbs emit proper wavelength level required to sanitize and are easy to replace by educators. Bulbs are rated for 11,000 hours of use.\*

360 degrees of UVC irradiance to maximize sanitization with 4 bulbs and reflective interior

Large enough to hold open laptops to sanitize the most germ-y surfaces: the screen and keyboard

Enclosed sanitization chamber (no UVC exposure to user)

The UV bulbs turn on only when the door is closed securely and start button is pushed

UVC filtering window (to check the bulbs are working)
