Flip it and ship it: the 0500 Case can be inverted and used as a pallet with an airtight cover.

> INTRODUCING THE 0500 TRANSPORT CASE

It's like taking a short-cut. Transporting two 0500 Cases on a pallet (up to four when stacked) allows you to move large loads in one trip, which cuts down on fuel, time, and energy. The 0500

is not afraid of heights, the dual integrated automatic pressure equalization valves keep moisture out and prevents vacuum lock. Opening the case at any altitude is not a problem. The double wide grip makes lifting easy. Everything else is standard Pelican tough: watertight, crushproof, and dust proof.

The 0500 Transport Case - it's easy on the pallet.

Exterior Dimensions (LxWxD): **39.95" x 23.45" x 28.65"** (101.4 x 59.5 x 72.7 cm)

Interior Dimensions (LxWxD): **34.95" x 18.45" x 25.25"** (88.7 x 46.8 x 64.1 cm)

OPTIONAL ACCESSORIES

No pallet, no problem: pallet risers allow easy forklift access and function as cleats that securely stack two high.

Stop and go: Roll to any destination, and apply brakes to keep the 0500 Case from moving.
