Tackboard Resurfacing Material

## Natural Cork Panels & Rolls

Renew or replace any torn or worn board with natural cork panels and rolls. Natural cork is an environmentally responsible and naturally renewable resource. Cork is harvested from a cork tree, stripped with careful cuts that do not harm the inner core of the tree. The cork bark regrows, and this process allows a useful life of more than 150 years for each tree. TAA compliant. Manufactured in the US of foreign and domestic materials. Ten year limited warranty.

- A. Natural Add-Cork Panel** - A durable tackable layer of .13" natural cork bonded to .38" lightweight tackable core material.
- B. Natural Cork-Plate Panel** - The ultimate in tack surfaces, featuring a layer of .25" natural cork laminated to .25" moisture-resistant rigid core material.
- C. Natural Cork Roll** - Available either cut to size or in precut sizes. Adhesive for rolls sold separately. Please add fiberboard or other appropriate backer to allow for use as tack surface.
