Product Description Sheet Loctite® Interface Cable for D-Series Robots

Part # 1329222
North American Engineering Center

PRODUCT DESCRIPTION

The Loctite® Interface Cable is designed for the line of 200D, 300D, and 400D Series Dispensing Robots (# 1328352, 1326775, or 1325964).

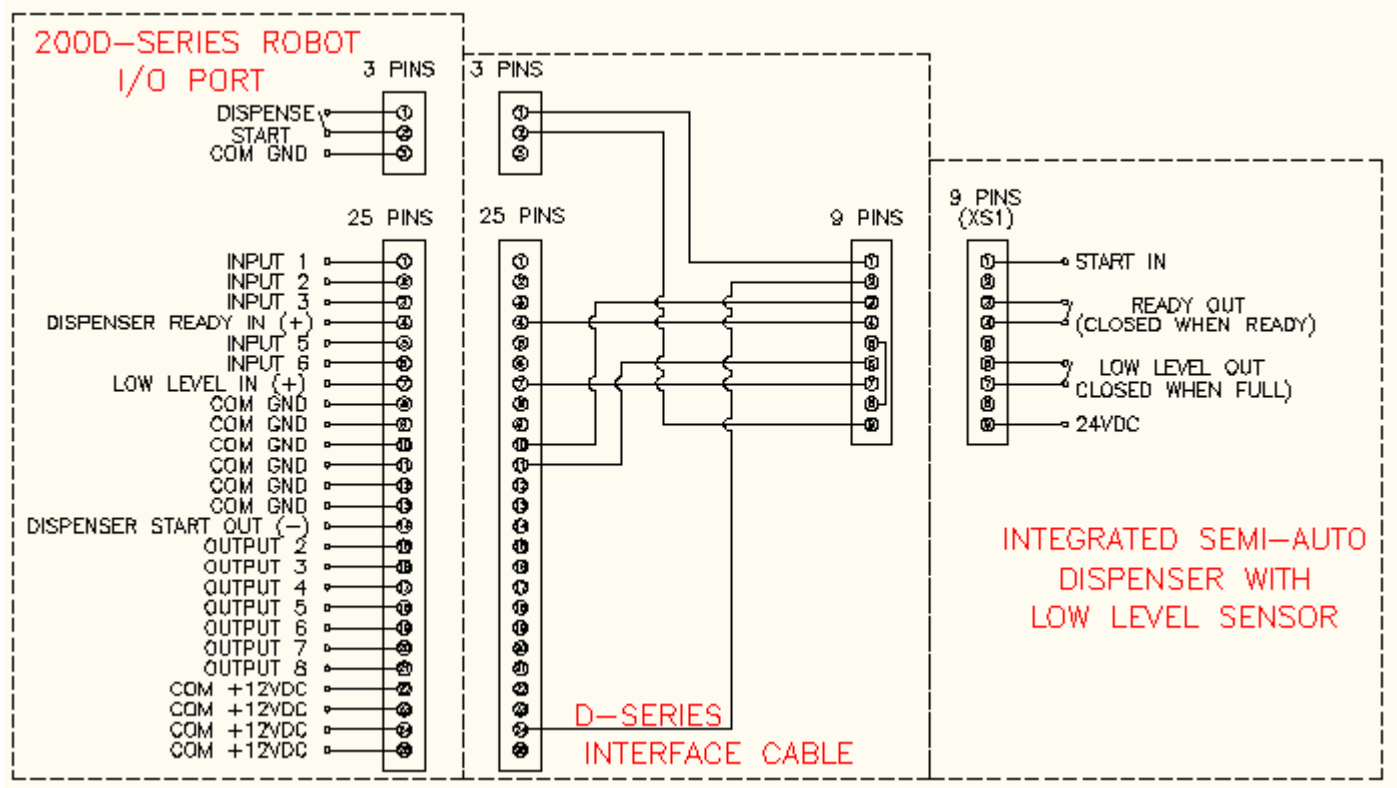

Consists of:

- 25-pin male "D shell" electrical connector that connects into rear of Robot.
- 3-pin female round connector that connects into Robot.
- 9-pin male "D shell" electrical connector that connects into Dispensing unit or Solenoid Valve Module.

Allows for On / Off and other functions. This cable allows for Robot to be connected to Solenoid Valve Module, Integrated Semi-automatic Dispenser, PosiLink Volumetric System, and DuraPump System, and access other output functions from those dispensers such as low level sensors.
