Fume Extraction **Filters**

PACE's Filtration Systems have been specifically designed for application in the electronics industry. A wide variety of filtration options are available for use with PACE fume Extractors ensuring that you always have the right filter for the job.

FUME EXTRACTION FILTERS				
FUME EXTRACTION FILTERS	P/N	FILTER EFFICIENCY	RECOMMENDED APPLICATION	COMPATIBILITY
	FX 50 Economy Filter 8883-0200-P5	N/A N/A	Ideal for applications where coarse dust is generated	FX 50
	General Purpose Filter 8883-0280-P1	85% EU 8	Recommended for soldering applications where normal volumes of fumes are being generated for 1 or 2 shifts. (.2-80 microns)	Arm-Evac 50
	Cleanroom Filter 8883-0290-P1	99.99% EU 13	Recommended for applications in Cleanroom environments or where the highest filtration efficiency is required. (.2-2 microns)	Arm-Evac 50
	Economy Filter 8883-0871-P1	N/A N/A	Ideal for application shere coarsed dust is generated	Arm-Evac 105 Arm-Evac 150 Arm-Evac 200 Arm-Evac 250
	Cleanroom Combo Filter 8883-0922-P1	99.99% EU 13	Recommended for applications in cleanroom environments or where high filtration efficiency is required. (.2-2 microns)	Arm-Evac 105 Arm-Evac 150 Arm-Evac 200 Arm-Evac 250
	General Purpose Combo Filter 8883-0932-P1	85% EU 8	Recommended for soldering applications where normal volumes of fumes are being generated for 1 or 2 shifts. (.2-80 microns)	Arm-Evac 105 Arm-Evac 150 Arm-Evac 200 Arm-Evac 250

Fume Extraction **Filters**

FILTERS (contd.)		FILTER EFFICIENCY	RECOMMENDED APPLICATION	COMPATIBILITY
	Adhesive Combo Filter 8883-0952-P1	N/A N/A	Recommended for any bench top application utilizing adhesives, solvents and cleaners used in small quantities.	Arm-Evac 105 Arm-Evac 150 Arm-Evac 200 Arm-Evac 250
	HEPA Filter Cartidge 8883-0955-P1	99.99% EU 13	Recommended for applications in Cleanroom environments or where the highest filtration efficiency is required. (.2-2 microns)	Arm-Evac 500
	Carbon Filter 8883-0956-P1	N/A N/A	Removes organic volatiles found in solder fume from the air stream	Arm-Evac 500
	Cleanroom Filter 8883-0965-P1	99.99% EU 13	Recommended for applications in cleanroom environments or where high filtration efficiency is required. (.2-2 microns)	Arm-Evac 500
	High Capacity Extended Life Filter 8883-0987-P1	95% EU 6	Recommended for soldering applications where heavy volumes of fumes are generated or where operations are running 3 shifts. (For use with 8883-0986-P1 High Capacity Pre-Filter)	Arm-Evac 105 Arm-Evac 150 Arm-Evac 200 Arm-Evac 250

The Pre-Filter is a lower efficiency (90% arrestance, EU 4) particle filter that is used to protect the primary filter from large particles, extending the life of the primary filter.
