CASES FROM
PELICAN**

LET'S GET MOVING

Strong polyurethane wheels with stainless steel ball bearings and nylon hubs. They last longer and ride smoother.

PULL AND GO

Extension handles are molded out of strong ABS – guaranteed for life. They click into lock position when you're ready to go and tuck out of the way when not in use.

ERGONOMIC

Use the two-handed fold-down handles when lifting extra heavy loads. They distribute the weight evenly for easier lifting and less strain on the back.

THINK FORCE FIELDS

Runaway dollies? No problem. Graduated deflection ribs are molded in to protect the latches and hinges from impact force.
