CHECK IT OUT!

Wohler Refrigeration

As cool as you are!

Made in Germany

Wohler Refrigeration

Everything under control with the professional measuring equipment

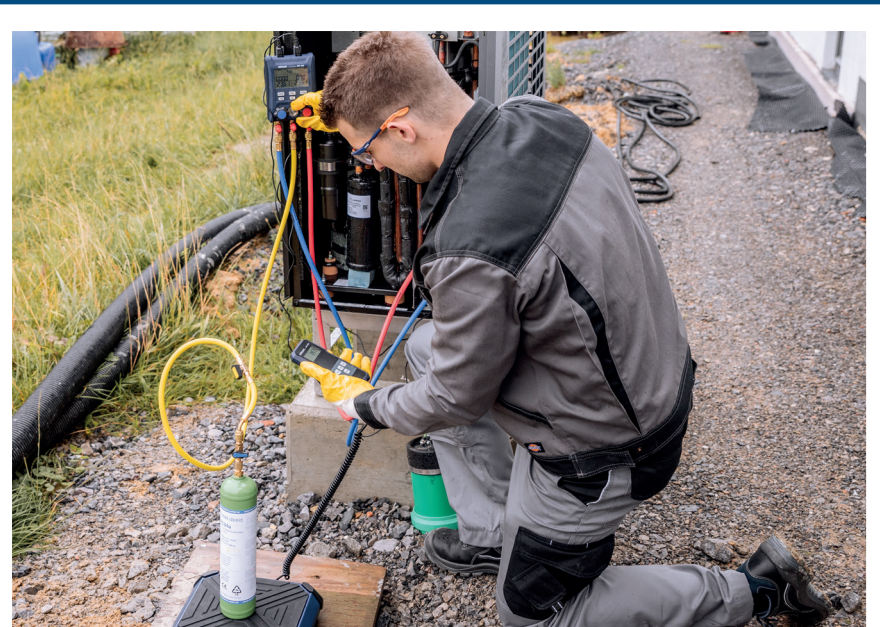

Heat pumps and cooling systems must be optimally set to operate economically. Only then can they heat or cool to the desired degree with low power consumption. Your efforts therefore make a very important contribution to energy efficiency. Another important point is the tightness of the system, because escaping refrigerants can pose a considerable risk to the environment. With the new refrigeration measuring devices from Wohler, you can make adjustments to the system and carry out leak tests very quickly and effectively, so that not only benefits the environment, but also yourself.

All the necessary measuring devices

Pressure, temperature, superheating, subcooling and refrigerant quantity - these are the system parameters that the refrigeration engineer must have in view. Wohler offers you a selection of measuring devices for this purpose: a refrigerant manifold for checking and adjusting heat pumps and cooling systems, as well as a scale for measuring the weight of refrigerant pressure vessels when filling or draining refrigeration circuits. In addition, there is a refrigerant leak detector for the rapid detection of even the smallest quantities of leaking refrigerant. All devices are robust and suitable for use by all tradesperson and of course comply with the relevant standards.

Helpful accessories

Sophisticated accessories make your work even easier. Refrigerant hoses that can be closed with ball valves and robust temperature tongs are included within the contents of the installation aid. In addition, there are practical accessories, e.g. the Wohler heat pump cleaning case, which contains the perfect tools for cleaning the housing, fins and condensate drain. So the job is done thoroughly and quickly.

Robust housing

Digital display

Ball valves at the connection hoses

Non slip rubber coating

For all common refrigerants

Wide range of applications due to the various measurement options.

Precise detection of all common refrigerants.

Advantages

- ▶ Can be used with all common refrigerants
- ▶ Easy handling due to practical accessories, for example lockable connection hoses (ball valves)
- ▶ Everything in view on digital displays of the units
- ▶ Easy storage and transport due to plastic case and high-quality carrying bag

Technical Data

Wohler MR 400 Refrigerant Manifold

Print

Measuring range:	-1...55 bar
Accuracy:	±0,5 % of the full scale value
Resolution:	0,03 bar

Temperature

Measuring range:	-40...150 °C
Accuracy:	±0,5 °C
Resolution:	0,1 °C

Power supply

3 AA alkaline batteries 1.5 V

Wohler RS 400 Refrigerant Scale

Weight

Measuring range:	0...100 kg
Accuracy:	±0,5% of the measured value+ 10 g
Resolution:	5 g

Power supply

5 AAA alkaline batteries

Application

Wohler MR 400 Refrigerant Manifold

- ▶ Maintenance work on refrigeration systems and heat pumps
- ▶ Diagnosis of operating states of refrigerants in refrigerant circuits
- ▶ Indication of high and low pressure
- ▶ Measurement of superheating and subcooling
- ▶ Vacuum measurements

Wohler RS 400 Refrigerant Scale

- ▶ Weight measurement to determine the contents of pressure vessels

Easy to carry out maintenance work on heat pumps.

Connection hoses with ball valves for quick closing and opening of refrigerant flow

Basic Sets

	Wohler MR 400 Refrigerant Manifold	Wohler RS 400 Refrigerant Scale
Maintenance work on refrigeration systems and heat pumps	●	
Diagnosis of the weight of the refrigerant during maintenance tasks		●
Delivery contents		
Wohler MR 400 Refrigerant Manifold	●	
Refrigerant hoses (3 pcs.), each with Schrader thread 1/4" SAE, closable with ball valve	●	
Temperature clamps (2 pcs.)	●	
AA batteries 1.5 V (3 pcs.)	●	
Case	●	
Wohler RS 400 Refrigerant Scale with operating unit		●
AAA batteries 1.5 V (5 pcs.)		●
Bag		●
Order no.	11367	11363

● = included

Accessories

	Order no.
 <p>Wohler RL 200 Refrigerant Leak Detector for leakage control and leak detection on refrigerant systems</p> <p>Delivery contents: Wohler RL 200 Refrigerant Leak Detector, Gooseneck 440 mm, Batteries, Plastic case</p>	11361
 <p>Wohler IR Temp 310 Infrared Thermometer</p> <p>Delivery contents: Wohler IR Temp 310 infrared thermometer, 2 AAA batteries</p>	1388
 <p>Wohler SP 22 Sound Level Meter</p> <p>Delivery contents: Wohler SP 22 Sound Level Meter in plastic case</p>	6670
 <p>Wohler WA 335 Water Analyzer</p> <p>Delivery contents: Wohler WA 335 Water Analyzer, pH probe, EC probe, pH Calibration solution 4 / 7 / 10, Refill cup (3 pcs.), Plastic case Wohler WA 335</p>	6758

Knowledge platform

Qualified · Practice-Oriented · Technophile

You have to work with the most diverse standards, rules and regulations daily – who is supposed to remember all this? On our knowledge platform you will find compact application knowledge for the professionals about:

- ▶ Measuring
- ▶ Inspection
- ▶ Cleaning

Measuring Knowledge platform

Leakage detection with our refrigerant leak detector

Refrigerants are indispensable components of many of our technical devices, but their improper handling can have significant environmental impacts. With refrigerant detectors, leaks can be identified and repaired at an early stage to minimise environmental damage.
