RE: DTX Series Cable Analyzer™

Dear Hugo,

Please use this letter as HellermannTyton's endorsement of Fluke Network's DTX-1800 CableAnalyzer™. HellermannTyton's approval is based on extensive laboratory and field evaluation of the DTX-1800 test unit with the DSP-PM06 against the current TIA/EIA-568-B.1 and TIA/EIA-568-B.2-1 standards. The results are repeatable, provide a very high degree of accuracy and correlate with our laboratory data using a Hewlett Packard Network Analyzer.

The DTX Series testers are approved for use by HellermannTyton's Certified Installers to submit test results for our 25 Year Warranty program.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gary J. Bernstein'.
