Attention: Mr. Hugo Draye
Marketing Manager, Copper Certification

Subject: Fluke Networks DTX Series CableAnalyzer™

Dear Hugo,

NORDX/CDT has completed the evaluation of Fluke Networks' DTX Series CableAnalyzer™. We are pleased to announce the approval of this test equipment for use in the performance verification of NORDX/CDT's IBDN GigaFlex 1200, 2400 and 4800LX cabling systems.

NORDX/CDT has extensively evaluated the measurement accuracy of the DTX-1800 CableAnalyzer™ unit in its laboratories. The test results obtained with this field tester correlate very closely with tests performed with laboratory equipment such as the HP Network Analyzer.

We look forward to a continued cooperation and future opportunities to evaluate Fluke Networks products that can be used to test and certify our cabling installations in the field.

Sincerely,

Julie Roy, RCDD/LAN
IBDN systems, applications and standards Manager
