**Fluke Networks
6920 Seaway Blvd
Everett, WA 98203**

**Attention: Mr. Adrian Young
Senior Product Specialist**

Dear Adrian,

Ortronics, Inc has completed it's evaluation of the Fluke Network's Personality Module PM06, and approves the use of this module with the Fluke Networks' Universal Permanent Link Adapter for the certification of installed Category 6 permanent links constructed with Clarity⁶ and Clarity^{5E}.

We have performed extensive testing against the ANSI/TIA/EIA-568-B.2.1 and ANSI/TIA/EIA-568-B.1 standards and we do acknowledge a high degree of correlation on key electrical parameters when testing permanent links using Clarity⁶ and Clarity^{5E} components.

We look forward to our ongoing partnership and cooperation on evaluation and testing projects in the future.

Sincerely,

**Anthony M Siderewicz
Vice President, Copper Product**
