

# Hardie™ Secura™ Flooring

Inside or out, we've  
got you covered.

Hardie™  
Secura™ Flooring

# Trusted by builders, Hardie™ Secura™ Flooring is a versatile solution for both indoor and outdoor structural flooring.

Hardie™ Secura™ Flooring is an **Australian made**, durable yet lightweight structural flooring that can be installed over timber or steel floor joists and can contribute to a 7-star rating.

It provides double sided functionality – one side of the board is designed for tile application, while the other is designed for use under carpet or vinyl.

Dimensionally stable, Hardie™ Secura™ Flooring is resistant to expansion and contraction from moisture or thermal variations making it the ideal substrate for wet area tiling or most floor finishes.

Unlike plywood or particle board, you can tile directly onto it without the need for underlay, helping to avoid noticeable height differences from one floor finish to the next.

## Product specifications

Product Code	Corner Colour	Length (mm)	Width (mm)	Thickness (mm)	Weight per Unit <sup>o</sup> (kg)
405591	Green	1,800	900	19	41.0
405592	Green	2,700	600	19	41.0
405593	Grey	2,400	600	22	42.2

## Trusted by builders

More builders said they would use Hardie™ fibre cement products for wet area structural flooring in their own homes compared to other materials.\*

## Contributes to 7-star rating

Hardie™ Secura™ Flooring can contribute to 7 stars without the need to modify the flooring structure on upper storeys.

## Easy to install

Hardie™ Secura™ Flooring is lightweight structural flooring. With a tongue and groove joint and a unique low-density formulation, Hardie™ Secura™ Flooring can be gun nailed without the need for pre-drilling holes for a quick installation process.

## Moisture protection

Hardie™ Secura™ Flooring features a surface sealer to help reduce moisture penetration. This surface protection means water beads rather than penetrates. It can also be exposed to the elements for up to 3 months without warping or twisting.

## Peace of mind

Hardie™ Secura™ Flooring is Australian made with a 25-year warranty, providing peace of mind in a trusted, long-lasting product.

\* Based on a survey of 371 builders conducted on behalf of James Hardie in April 2024.

<sup>o</sup> Piece weight covers the physical product weight per board/sheet.

All Hardie™ fibre cement is proudly Australian Made
