Environmental Mission

Our vision and goal is a sustaining supplier, manufacturer and customer for the long term protection and preservation of our environment for future generations.

MISSION
To achieve this vision, we are dedicated to ensuring the health and wellbeing of all of our partners, reducing negative impact on the environment, and maintaining price structure by increasing efficiencies and reducing consumption.

JSI, and it's parent company, is an internal manufacturer and has been an environmentally conscious organization for more than 80 years.

We are proud to use wood as our primary sustainable material resource and all corporate policies and procedures support the efforts to "recover, recycle, reuse, repurpose, reduce, refuse, and re-engineer". In doing this, we are committed to the conservation of the environment and its natural resources as well as encouraging our suppliers and customers to do the same. A goal of a "Sustainable Partnership", supplier, manufacturer and customer, is essential for the long term protection preservation and sustainability of our environment for future generations.

LOCATION
Our manufacturing facilities are located in the center of Southern Indiana. With our diverse product offering and manufacturing capabilities, we provide a single source for all of your project needs allowing you to conserve our fossil fuels and reduce greenhouse gases.

PACKAGING
We place emphasis on the minimal use of disposable packaging while still providing adequate protection to the finished product. Our corrugated packaging is recyclable, reusable, and up to 100% recycled content. We reuse or recycle more than 175 tons of corrugated material annually.

REGULATORY
All of our manufacturing facilities are in compliance with applicable OSHA regulations and meet or exceed all applicable DEM and EPA regulations for air emissions, storm water and hazardous waste disposal.

MANUFACTURING FACILITIES
Our manufacturing facilities are geared toward eco-efficiency and are encouraged to continually improve and conserve. Solid wood not used in the direct manufacturing process is recovered for the operation of our dry kilns, thus reducing greenhouse gases, the use of fossil fuels, and the burden of waste placed on landfills. Composite panels not used in the direct manufacturing process are ground and sold for use as animal bedding and boiler fuel. In addition to other energy savings techniques, our manufacturing facilities use high efficient lighting, make use of power factor capacitors, and encourage all to conserve and reduce energy consumption and water usage. Condensation pumps are used to aid in water conservation as well as extending boiler life.

MANUFACTURING PROCESSES
Our finish processes utilize efficient spray guns and proper spray techniques to reduce wasted material. Excess finish material, solvents, and waste are recycled. Many of the assembly processes use water based glues that contain no hazardous ingredients.

TEXTILES
Many of our fabric options utilize up to 100% recycled content. Our leather alternative program includes selections that contain no toxic materials, plasticizers, heavy metals, or formaldehyde and have a 100% biodegradable back cloth. Some of the available panel fabric used, if discarded is a biological nutrient for the soil. Most of the components (foam, batting, and polycord) used in upholstered products are recyclable. Excess fabrics and leathers not utilized in the upholstery process go to recyclers and local charities for additional use.

WOOD
Wood is the most diverse, most process friendly, and most widely utilized natural resource in mankind's history. No other natural resource can match the environmental advantages of wood, including being renewable, recyclable, natural, carbon negative, and biodegradable. Utilizing the sun's energy, trees grow and remove carbon dioxide from the air while giving off oxygen to benefit the entire planet. Approximately 49% of wood's dry weight is carbon and harvesting mature trees in a sustainable forest, which has slowed in the absorption of carbon dioxide, allows the photosynthetic cycle to continue at full optimization and allow for the carbon to remain sequestered. We are proud to use wood as our primary "sustainable" renewable resource.

WOOD OPTIONS
Many environmentally friendly solid wood and engineered wood options are available for quote, including: Lyptus®, Plyboo®, reclaimed woods, agricultural and post-consumer waste fiber products, etc.

INDOOR AIR QUALITY
Our goal is to reduce the impact our products will have on the indoor air quality. We practice the latest technologies and utilize a third party to assure we meet this goal. GreenGuard, one of the leaders in IAQ certification, continues to certify our product offering with UL2818 - GreenGuard Indoor Air Quality certification.

Lifetime Warranty

JSI warrants to the original purchaser that each piece of furniture will be free from defects in workmanship, given normal use and care for as long as the original customer owns and uses the product. Normal use is defined as the equivalent of a single shift, 40-hour work week.

JSI will, at its option, repair or replace with comparable product within the terms of the warranty.

Exceptions to Warranty:

12 Years (from date of purchase)

- Wood Seating
- Seating Controls
- Veneer Surfaces
- Laminate Surfaces
- Pneumatic Cylinders

5 Years (from date of purchase)

- Glides
- Casters
- Task Lights
- Mesh/Knit Material
- Foam
- Florette Plastic Frame Chairs
- Electrical Components
- Electric Height Adjustable Bases

This Warranty Does Not Cover:

- Natural variations in color, grain or texture of wood and other covering materials over which JSI has no control.
- Normal wear, color fastness, shrinkage, puddling, wrinkling and stretching of upholsteries including fabric, vinyl, leather and other textiles. This warranty does not cover any defects that may arise in the use of COM or COL upholstery materials. Textile manufacturer's warranty will apply.
- Damages resulting from transportation, improper assembly, installation, handling, accident, user modification attachments, misuse, or neglect of product care.
- Damage resulting from extreme climate conditions.
- Finish damages resulting from normal wear and tear, improper maintenance, water damage, exposure to sunlight, extreme high or low humidity or temperature, or other acts of nature.
- Damage created by loading file drawers with anything other than hanging folders.

JSI makes no expressed or implied warranties to any product and, in particular, makes no warranty of merchantability of fitness for any particular purpose. JSI will not be liable for any consequential or incidental damages under this warranty.

Unique Characteristic of Natural Woods and Veneers

JSI uses high quality wood and veneer harvested from sustainably managed forests. Every tree has unique and defining characteristics, like fingerprints. These characteristics can be defined by differences in color, grain configuration, and textures. These characteristics will be more noticeable if the product has a clear or lighter finish.

Maple and Cherry species have a higher degree of uneven distribution of grain, small color streaks, and pin knots.

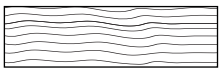

At JSI, we take care of selecting woods and veneers that are used in our products. With this in mind, we hope you appreciate the beauty of each tree's fingerprints. Products will not be replaced due to these natural characteristics.

Veneers can be sliced in a variety of ways to create unique patterns. JSI uses several different patterns, as shown below.

Flat (Plain) Cut as shown in diagram

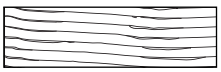

Quarter Sliced as shown in diagram

Double Cut as shown in diagram

Rift Cut as shown in diagram

Double Cut

The Double Cut veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

JSI uses select beech, cherry, maple, oak and walnut cut wood products to produce the desired look of our furniture products.

Laminates (Veneer Series)

An alternative HPL (Higher Pressure Laminate) laminate work surface can be specified on most of our casegood product lines. The specification pages will also list the available coordinating finishes.

Laminate Series

JSI laminate series offer a full laminated product with imprinted grain to hide finger prints and provide durability. The worksurface tops are HPL (High Pressure Laminate) or TFL (Thermal Fused Laminate). TFL is used on the product's chassis.

Please reference the featured highlights of each product line to identify the species, grain patterns, finishes for that product series

Finish - Top Coat

To reduce hazardous formaldehyde emissions, we use our proprietary specially designed top coat, DuraTex™. It significantly reduces hazardous formaldehyde emissions and helps improve indoor air quality.

Finish - Color/Stains

A wide range of stains are available to bring out the beautiful characteristics of each wood species. We coordinate finish color between our veneer stains and solid lumber stains; however, not all may be a perfect match. The stains are continually reviewed for accuracy of color, as well as a constant monitoring of the latest color trends in the furniture market.

Finish - Matching

Due to the natural characteristics of wood, environmental effects, and material upgrades, JSI cannot guarantee exact finish matches on existing furniture previously ordered.

If an exact match is required to accompany existing furniture, it must be specified at the time of order placement, so specific internal procedures can be followed to ensure a proper and acceptable finish match. We reserve the right to change our finish formula at any time to improve safety, quality, and appearance. Unless a finish match for existing furniture is requested at the time of ordering, we accept no liability for finish that may not match the existing furniture from prior orders.

Solid lumber may inherently have mineral streaks, pits, and various other natural occurrences. Care is taken in selecting the solid lumber to coordinate with the requested finish on our veneer products. This internal selection process is subject to availability of solid lumber parts.

Finish Sheen

All casegood veneer finishes are standard in 35-sheen, with the exception of Raven, which is only offered in 15 sheen. All other finishes are available in 15 sheen, with a 5% upcharge, per model

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first time matches and must be included with the written request.

There is a one time charge of **$372 list per order** for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Samples
Samples of standard wood finishes, paints colors, metal colors, and standard laminate are available upon request. The fastest way for requests to be filled is by using our website. See below for options to request samples.

JSI reserves the right to make changes in dimensions, styles, or specifications if we believe these changes will improve the safety, quality, or appearance of the product.

Acceptance of orders will be subject to credit approval, barring any acts of governments, or any other causes beyond our control (e.g. strikes, fire, embargo of materials, etc).

Product Modifications
While we offer a wide range of products to accommodate many possible solutions, we also recognize the needs for our products to be modified from our standard offering.

In the series introduction section of each product, we address modification options for that series.

To see if the desired modification is possible, please contact our Customer Service Department for a quote. Note that order quantities and material availability can affect the quote. Additional information may be requested to fully quote modifications.

Order Acknowledgments
All orders will be acknowledged promptly upon entry of a clean order. The acknowledgment will show how the order was entered, ship date and any other information pertinent to the order. It is the purchaser's responsibility to verify all the information on the acknowledgment carefully and notify us immediately, in writing, of any discrepancies.

Every reasonable effort is made to ship as acknowledged; however, the acknowledged ship date is approximate. Company will generally ship within five (5) working days of the acknowledged ship date. If a firm ship date is necessary, customer must inform company at time of order and company will make all reasonable efforts to meet each customer's request. Acknowledged shipping dates are contingent upon the force majeure conditions contained in these terms and conditions.

Quickship
JSI offers select Vision models, with select options, in our Quickship program. These items ship within 10 business days after receipt of a clean, credit approved purchase order. Items should be placed on order separate from standard lead time models.

Product for up to 10 offices or 10 tables can be included on a single Quickship order. Available capacity is filled by orders as they are received. If normal 10 day Quickship is not available because capacity has been filled, you will be immediately notified by JSI customer service. Changes and cancellations to Quickship orders are not allowed under any circumstances, nor are modifications to the predetermined Quickship offering. Limit one order per project.

Delivery
Our freight policy consists of prepaid freight to the 48 contiguous states; all other shipments are prepaid to port of exit ONLY. JSI reserves the right to select the appropriate carrier and shipment routes, most shipments are on freight carriers that are dedicated furniture specialists. Standard deliveries require a DOCK that can accommodate **75 foot trucks**. Ownership and inspection of product is the responsibility of the buyer upon pickup by the freight carrier. Pricing in this book is for standard delivery only. Standard delivery does **not** include non-dock delivery, inside delivery, residential delivery or installation of product. Fees and changes for non-standard deliveries are listed below.

Standard Delivery Time
Between 8AM and 3PM Monday through Friday. Special delivery requests can be subject to additional fees to accommodate requests.

Cancellations and Changes
All orders are considered firm and are not subject to cancellation or change without approval from JSI. All approved changes are subject to additional charges and revised lead times

No Touch Freight
Our freight is considered "no touch". Therefore, customers are to be prepared to unload freight from inside the truck prior to arrival. In the instance that a driver must unload the shipment, driver assists fees will apply (see fees below).

On-Site Deliveries
Shipments to the installation site, and time deliveries are available on full truckloads or slightly less, at no additional charge. Shipments or timed deliveries for smaller shipments may not be available, or if available may require an additional charge.

Detention Fees

· Carriers are given two-hour maximum time allotment to unload for one-stop truckloads.
· Carriers are given one hour maximum time allotment to unload for multi-stop truckloads

*Detention fees apply after allotted unloading time and will be at buyer's expense.

Fees

Orders of less than $1,000 net . . . . . $90 net per order
(If order is UPS shippable, the handling fee is waived and customer is invoiced for exact shipping charges.)

NO RESIDENTIAL DELIVERIES

Warehouse/Storage Fees

Additional storage time with a provided two-week approved notice is calculated at 3% per month of the product amount or per day.

Please be Advised

· Reconsignment fees are the responsibility of the buyer.
· Any charges arising from failure to meet shipment, re-routing while in transit or carrier storage charges are the responsibility of the buyer.
· Contact Customer Service to inquire about skidding of products, special . . crating of products and product installation. These requests must be approved by JSI and made at the time of order.
· Carriers have the right to refuse delivery to a specified location if it conflicts with their liability policy.

Freight Damage

JSI products are packed in cartons and meet or exceed existing codes for furniture and seating products. All shipments are delivered to the carrier in good condition and our liability ceases thereafter. If delivery arrives short or damaged, contact the carrier immediately to file a claim. In the event of concealed damage, notify the carrier and request immediate inspection. Failure to file a claim within 15 days after receipt of merchandise constitutes acceptance and a waiver of any such claims. Please inspect merchandise immediately upon receipt, otherwise there is no recourse. Keep all cartons and packing material, discarding these materials may negate your claim.

Storage of product in areas of uncontrolled humidity and temperature may cause damage to the product and void the JSI warranty.

Repairs

JSI will not issue credit allowance for any type of repairs without prior written consent.

Sales order, product model numbers, and reason for repair will be expected in order to process the repair request. A digital photo will help to expedite the request. JSI reserves the right to recommend solutions for repair.

Replacement Parts

Obtain information and pricing on replacement parts by contacting Customer Service. Please have the model number available when requesting replacement parts. Additional information may be required to ensure proper replacement parts.

Returns

JSI products are made to order and may not be returned for credit. No merchandise may be returned to JSI without a signed Return Good Authorization (RGA) form issued by our Customer Service Department. RGA's will be considered for the following reasons:

1. Manufacturing defect (validated by JSI representative).
2. JSI order processing error.
3. Shipping error.
4. Mis-marked cartons.
5. Duplicate shipments.

Liability for defective merchandise shall be limited to replacement or repair.

If you have questions as to whether your reason for return qualifies for consideration, please contact Customer Service. At the discretion of JSI, returns on stocked items may be considered with the following stipulations:

1. 60% restocking fee.
2. All return freight charges must be prepaid by dealer.
3. Product was never removed from the original carton.
4. Product must be returned withing 30 days of RGA issue date.
5. Credit will not be issued if producted returned is damaged.
6. Under no circumstances can we accept COD (Cash on Delivery) returns. Any such shipment will refused.

Please note most models on Quickship are produced on demand and cannot be returned. Modified, special or custom-built product is not eligible for return.

Fire Retardancy

All JSI upholstered components comply with California Bureau of Home Furnishings and Thermal Insulation-Technical Bulletin 117-2013 issued by State of California Department of Consumer Affairs. This standard requires upholstered furniture to be safer from the hazards associated with smolder ignition in all four (4) categories of materials, as applicable.

Compliance with more stringent codes may require special manufacturing considerations and upcharges.

California Technical Bulletin 133 (CAL 133)

JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with CAL 133. The standard upcharge on products specified to comply with CAL 133 is **$78 list per yard** of textile.

JSI has performed a series of full scale fire tests on samples - representing worst case scenarios of upholstered units - to comply with the requirements of the state of California Technical Bulletin 133 (CAL 133). Products in compliance are labeled in accordance of the standards.

Some product designs and fabric cannot be combined to comply with CAL 133. Because of this, we reserve the right to reject any request for an upholstery cover, including COM, textile may not contain olefin or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133.

Contact Customer Service for a quote if you require laboratory certification that a specific product and upholstery combination WILL PASS CAL 133. The quotation will include testing, video, and transportation charges plus the list cost of the sample.

Our standard lead time will apply to products that do not require certification. Allow an additional six weeks over the standard lead time for products that need actual laboratory certification.

The end user, specifier and/or dealer have the responsibility to make sure all products specified will meet the flammability and safety codes of the jurisdiction where the products will be located and used.

Flame Spread
All JSI may be required to comply with the requirements of Flame Spread based on ASTM standards/NFPA Life Safety Codes and general public knowledge are as follows:

Solid Wood - Class C
Topcoats - Class A
Carded Fabric - Class A
Composite Panels - Class C
Laminate - Class B

Plastics - According to the NFPA, the lack of stability of plastics under high temperature conditions and inherit combustibility have eliminated the use of plastics for applications requiring a flame spread rating.

Also be advised that improvements may be attained in certain instances with the addition of chemicals which may add additional costs, chemical exposure and/or compromise the integrity of the product.

Textile Carded Programs
JSI is proud to partner with Maharam, Momentum, Spradling, Stinson, Ultrafabrics, Camira and Cortina Leather. Please refer to our website for our standard patterns, along with the current grade.

Any textile not graded in or pre-approved for COM/COL will require application test approval prior to order entry and shipment of fabric or leather to JSI. For current JSI grades and application status by series visit jsifurniture.com Resources > Graded-In + COM; Graded-In + COM.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness or stiffness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact customer service with concerns on the fabric thickness for these items.

General COM Fabric/COL Hide Policy
Refer to the COM/COL Price Columns for list prices.

All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage may be required based on fabric repeat and matching.

All square footage requirements for COL are based on an average hide size of 50 square feet.

Contact Customer Service for any of the following conditions:
+ approval of COM/COL to be used
  (see policy on the next page)
+ fabric repeats greater that 3"
+ fabric less than 54" wide
+ leather hides smaller than 50 square feet
+ special application requirements request

When requesting information from Customer Service on COM/COL please supply the following information:
+ model number and quantity of the product the COM/COL will be applied
+ COM/COL textile supplier's name
+ name of pattern and color of the textile
+ any special application request

Visit jsifurniture.com Resources > Graded-In + COM to see if the textile has already been approved. If there is no record for this particular textile then a Memo Sample will be required.

Care and Maintenance

Care and Maintenance

Care of Upholstery Surfaces

Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and then wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts

Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions; however, lubricant can be used if needed.

Care of Wood Edges and Veneer Surfaces

Clean all surfaces frequently with water dampened soft cloth, moving the cloth with the grain direction. Immediately remove any liquids that come in contact with wood surfaces with a blotting action to absorb liquid. Buff dry. Lift objects to move them, never pull them across the finished surface. For an additional safeguard, use a protective surface pad. This will ensure a lasting finish by protecting your furniture from possible damage caused by pens, cups and sharp objects. Avoid exposure of furniture to extremes of heat and cold, or to wide humidity variances. Avoid exposure of furniture to strong sunlight. Avoid exposure of furniture to harsh solvents such as nail polish remover, acetates, etc., as it will cause finish deterioration. If using a protective glass top, place spacer pads under the glass top to allow the wood to breath.

Care of Metal Finishes

Wash you powder-coated item at least one every six months. Use soft rags only - No abrasives. For stubborn stains and grease marks, use soap and water mixture. Combine 1 gallon of water and 1 cup of the neutral detergent in the bucket. Mix it up by swirling one of the rags around in it. Wipe down the powder coat with a rag that has been dampened with the cleaning solution. Do not scrub, but use gentle, repetitive pressure to remove any built-up grime. Rinse the powder coat off with a rag dampened with clear, clean water. Do not spray it down, but rather wipe it off with the rag. You may need to do this several times to get all the soap off. Wipe the powder coat down with a clean dry rag. This will prevent streaking and spotting.

Care of Frosted Glass

Use a clean, dry lint free cloth to wipe the surface. Follow with warm water and a clean rag; no soap or chemicals. Wipe dry with a clean, dry lint free cloth. Cleaning the frosted side is not recommended, if desired to clean use the above method but do not spray the water on the frosted side, use a clean rag. Please allow 48 hours for the frosted side to dry and not to show cloudiness.

Tempered Glass Information

JSI is aware of occasional occurrences of spontaneous glass breakage in various furniture products. Tempered glass makes it stronger and if it breaks, will cause it to break into many small pieces of “cubes” rather than sharp and potentially dangerous shards.

Glass breakage in furniture may occur for a variety of reasons. Tempered glass is particularly prone to breakage from damage (scratches, nicks, etc.) that may occur during shipping, handling, installation, use or maintenance. Exposure to rapid changes in temperature or concentrated temperature zones may also cause breakage.

Tempered glass may also break due to a specific type of imperfection or “inclusion” that occurs within the glass when manufactured. When this condition exists glass breakage may occur without any obvious cause. This is often referred to as “spontaneous” breakage but is a very isolated occurrence in the glass industry.

Care of Dry Erase Boards

Erase after every use to eliminate ghosting. Clean weekly with a Dry Erase Cleaner. Avoid the use of orange and red Dry Erase Markers. Follow manufacturers cleaning instructions for the eraser. If ghosting or staining remains use a small amount of rubbing alcohol on a clean, soft towel to remove.

Care of Solid Surface

Although liquids cannot penetrate Solid Surface, it is best to wipe up spills as they occur. Generally, a damp microfiber cloth used with a standard household kitchen spray should remove most stains.

For most residues, all you need to clean your Solid Surface countertops is a warm soapy water, ammonia-based household cleaner or a dedicated countertop cleaner. Do avoid window cleaners; however, as they can leave a waxy build-up that dulls the surface. Always clean using a circular motion.

Film will build up on countertops if water is left to dry on the surface. This film will dull the countertop surface, making the finish appear blotchy and uneven. To prevent film build-up, it is very important to wipe the countertop completely dry immediately after spills and cleaning.

Some color of Solid Surface may require more frequent cleaning to maintain a uniform finish. Darker colors tend to require more attention than lighter colors. Over time, even with proper care, your countertop will acquire a sheen. Dark colors may show light scratches more readily.

Specification Tools

JSI products are manufactured to order and provide a multitude of options to address your individual customer needs. As you process your order do not forget to include all the necessary information to allow the order entry process to be completed. Please see the order checklist at the beginning of every series.

JSI Customer Service edits every order for complete information. If details are not included with the purchase order, Customer Service will contact you to answer these questions. If information is not completed in a timely manner it will delay the entry process and could affect your product delivery date. To avoid delay in order entry and potential delay in delivery of your order, please double check the line items to ensure all selections have been completed.

To ensure completion of details on your purchase order, electronic catalogs and specification tools have been developed to aid in the process. These electronic tools include:

20-20 GIZA Studio and 20-20 CAP Studio software offers state-of-the-art design, specification, photo-realistic rendering and three-dimensional visualization capabilities for configurable products in the commercial interior design markets. 20-20 GIZA Studio and 20-20 CAP Studio are available for all JSI Casegood and Seating products, in 2D and 3D graphics and the Specifier Catalog. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

CET Designer, by Configura is an all-in-one software solution for space planning and configuration of products. The intuitive workflow guides you through entire process from idea to reality - supporting every step of the sales process

ProjectMatrix, Inc. offers a full software solution for the contract furniture industry. Their software can help you create space plans to specifications for ease of specifying our JSI Casegood and Seating product lines. Updates are made monthly reflecting any changes that occurred. To be sure the most up to date information is provided on orders, users of this software program are responsible to update their catalogs.

GSAdvantage is a Federal Government electronic catalog site offered to assist GSA customers in specifying and pricing JSI product. Listed at this site are all contract items and prices under GSA Contract # GS-28F-0030U.

Our JSI website **jsifurniture.com** provides many tools to assist in the design and order selection. Included in the site are downloadable images, typicals, product symbols, brochures, contact information, price lists, sales representative locations, warranty and environmental information.

Product Modifications
We willingly accept customers' modifications to standard products. See product modification information by series at the start of each series under the "Product Modification" sections. If there is a modification you desire that is not listed in this section, please call Customer Service for a modification quote/price

Acceptance, Modification, Assignment
By placing this order for furniture, material or other products (sometimes collectively referred to as "goods"), customer agrees to these terms and conditions which shall prevail over inconsistent provisions in any other form or document of customer. No change or modification shall be applicable unless set forth in writing and signed by company. Neither this order nor any interest therein shall be assigned by customer except with the prior written consent of company.

Payment
Customer agrees to pay to company the amount indicated on the invoice, 1% 15 days, net 30 days from date of invoice (U.S. funds only), for goods ordered. Interest will be charged after 30 days from the date of invoice at the rate of one and a half percent (1.5%) per month. International sales will require additional payment arrangements. No goods shall be sold on consignment or conditional sales basis. Payment for the goods delivered hereunder shall constitute acceptance thereof.

Attorneys' Fees
Customer shall be responsible for all expenses and cost in connection with the enforcement by company of these terms and conditions and the cost of collection (including the fees of any collection agencies to whom the customer's account may be referred), plus reasonable attorneys' fees (which attorneys' fees shall not be less than 25% of the amount due, unless a lower amount is specified by applicable law).

Remedies
The remedies herein reserved shall be cumulative, and additional to any other or further remedies provided in law or equity. No waiver of a breach of any provision of these terms and conditions shall constitute waiver of any other breach or of such provision.

Insolvency
Company may forthwith cancel this order in the event of the happening of any of the following or any other comparable event: insolvency of the customer, the filing of a voluntary petition in bankruptcy, the filing of any involuntary petition to have customer declared bankrupt provided it is not vacated within thirty (30) days from the date of filing, the appointment of a receiver or trustee for customer provided such appointment is not vacated within thirty (30) days from the date of such appointment, or the execution by customer of an assignment for the benefit of creditors.

GSA Terms and Conditions

Limitation of Liability
The Company shall not under any circumstances be liable to the customer, owner of the goods or any third party for special, indirect, incidental, or consequential damages, including, without limitation, loss of profits or revenues, loss or damage to other property or equipment, cost of capital or of purchased or replacement goods, or expense, delay, or inconvenience cause by or arising from the purchase, sale, use, repair or inability to use the goods or by any performance or non-performance under, or breach of, these terms and conditions. The Company's sole liability for any defective goods shall be its repair or its replacement pursuant to the express warranties set forth above, or if amended, as applicable at the time of manufacture or repair of the goods. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to all customers. Any action resulting from any breach on the part of company as to the goods or services delivered here under must be commenced within one year after the cause of action has occurred.

Returns and Allowances
Reasonable touch-up and deluxing is the dealer's responsibility. The Company will not make allowances for trip or delivery charges, but will only make allowance for actual work performed to correct manufacturing defects. Allowances maybe authorized only by a company officer. It is the responsibility of the field sales representative to inspect any defective merchandise and make suggestions and recommendations as to the proper disposition. Field personnel cannot obligate or bind the company by definite agreement, without final authorization by a company officer. Company will not accept automatic charge backs which do not have prior authorization. All defects must be called to the company's attention upon arrival at the customer's "ship to" destination. To initiate any type of claim or request for parts, it is imperative to have the model number or fabric number, which may be located on the tag attached to the frame of the unit. Authorization for return to the company via a return goods authorization. Company will not issue credit allowances for any repairs without company's prior consent. Under no circumstances shall the company accept COD (cash on delivery) returns, and any such shipment will be refused.

Security Agreement
The Company may require and customer shall grant a security interest in goods sold pursuant to any credit the company may extend to the customer.

Governing Law
All disputes between the parties, whether or not arising out of these terms and conditions, will be governed by the laws of the state of Indiana. Customer agrees to submit to the jurisdiction of and agrees all lawsuits relating to any disputes between the customer and the company will be brought only in a state court located in Dubois County, Indiana or the United States District Court for the Southern District of Indiana. The customer hereby waives the right to a trial by jury in any action, proceeding, claim, or counterclaim whether in contract or tort, at law or in equity, arising out of or relating in any way to these terms and conditions and all other disputes between the parties.

Mitigation
If the company repossesses the goods prior to payment by the customer of all amounts due hereunder, the company may sell the goods, as is, where is, free and clear of all rights of the customer at either public or private sales, and apply the net proceeds (after deducting expenses of repossession and sale) to the obligation of customer hereunder. The customer may dispose of the goods in any commercially reasonable place and manner and the customer waives any notice of time, place and manner of sale.

Integration
This order for goods, including these terms and conditions, along with any credit application, invoice, statement, dealer contract, acknowledgment, bill of lading (and any exhibits, addenda or amendments thereto) of which this order may be a part, constitutes the sole and complete agreement between the company and the customer with respect to the purchase of the goods.

Dimensions/Specifications/Finishes
All dimensions are approximate and may vary due to the upholstery technique of each craftsman. If exact dimensions are required, it is necessary for the customer to state such specifications with the order. Detailed specifications sheets are available for each series of goods, and customer should consult the company's customer service department for these specification sheets. Company reserves the right to make changes in dimensions, style, or specifications if company believes these changes will improve the goods' quality or appearance. Company reserves the right to substitute hardwoods due to availability at production. Due to the natural characteristics of wood, environmental effects, and material upgrades, the company cannot guarantee exact finish matches on existing goods previously ordered from company. If an exact march to customer's existing goods is required, it must be specified so that the proper procedures can be followed to ensure an acceptable finish. Company will accept no liability for the finish if this procedure isn't followed. Company reserves the right to make changes in a finish formula if company believes the change will improve the quality or appearance of company's goods.

Company's Performance of Its Obligation
The production and delivery of the goods to the extent delayed or hindered or prevented from the performance by reason of natural disasters, acts of god, strikes, lockouts, labor troubles, inability to procure materials, casualties, failure of power, restrictive governmental laws or regulations, riots, insurrections, acts of terrorism, war or other reason of a like nature not the fault of the company shall excuse for the period of the delay the company's performance and the period for the performance shall be extended for a period equivalent to the period of such delay.

Discreet Cleanout

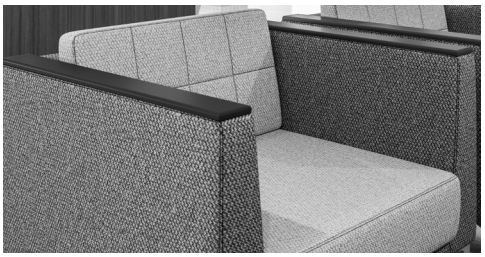

Single seat with cushion back models (AW6010-CO and AW6011-CO) offer a discreet cleanout for ease in cleaning. Cleanout is incorporated in such a way as to not be noticeable from the approach, as well as provide sufficient pass through to an opening in the bottom of the chair.

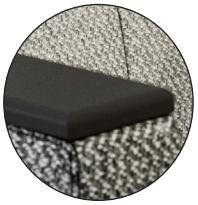

Arm Caps

Available in wood, solid surface and 3D Black Laminate. 3D Black laminate is fully sealed to prevent water, bacteria and dirt from penetrating through surface.

Fabric Application
Arwyn affords the ability to be specified with multiple upholsteries to create a unique look. Upholstery zones are defined by the style of the unit.

Please note that the same pattern must be specified for the Extreme and Interior Back/Arm. Different colorways from the same pattern may be selected to create contrast. The seat cushion may be different pattern.

Seating
Wood Materials
Exterior surfaces are laminated veneers either in plain sliced walnut or rift cut white oak.

Seating exterior components are made up of layers of hardwood veneer molded to shape and RF cured. Outer veneers are matched for a uniform grain pattern. Exterior plywood is 5/8 " thick.

Interior seating frame and support components are made from 3/4 " interior grade plywood.

Metal Materials
Exterior feet and leg frames are fabricated from 14 guage steel tubing and welded to pre-set standards.

Construction
Seating interior frames are constructed with upholstery grade plywood with precisely cut interlocking joints. All joints are glued and reinforced with staples. Critical joints are fastened with screws to reinforce the joint. Frame components are assembled using t-nuts for metal to metal connection.

Upholstery Details
Seating suspension for modular units has a 3-1/2" high-resilience seat foam placed onto sheet webbing for comfort and durability. Back and arm foam is a high density foam for comfort and durability.

Freestanding upholstered units have 6" thick high-resilience seat foam for durability. The bottom of the seat plywood is ventilated to allow the seat foam to breathe. Back and arm foam is a high density foam for comfort and durability.

Single needle top stitch is used on all BeSPACE models.

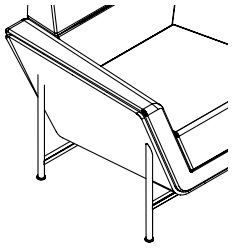

Exterior Metal Components
Leg frame is welded to pre-set standards and then the outer surfaces are prepared for powder coating. Leg frame and glide will be same color.

Legs with adjustable glides are mounted with internal connections which are embedded into the plywood exterior. The angular cut matches up with the plywood exterior for a floating appearance.

Special Features
Model BS-1 Lounge Chair with the swivel mechanism and four prong base with non-adjustable push-in glides features a 360° swivel. The standard 3.5° rearward tilt is welded in to the spindle of the mechanism plate, the spindle sits into a passive hub of the prong base.

Finish
To accentuate the beauty of the walnut or white oak veneers a clear finish coat is applied to the exposed plywood shells and platforms.

Exterior Seating Plywood Shell and Platforms are available in two finishes:

Clear Coat on Walnut	CLW
Clear Coat on Rift Cut White Oak	CLK

To reduce hazardous formaldehyde emission we use our proprietary specially design top coat, DuraTex™. We are proud that our finish is GreenGuard certified.

DuraTex™, offers exceptional hardness along with abrasion and impact resistance , but has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish provides a safe solution and still preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Care and Maintenance
Care of Upholstery Surfaces
Cleanability will vary based on the fabric type. For best results, a professional service is recommended. Dirt and crumbs may be gently brushed or vacuumed off. Spills should be wiped up immediately with a cloth. Vinyl textiles can be cleaned with warm soapy water and wiped down with a warm damp cloth. For more details on any JSI carded fabric and vinyl, please visit our website at www.jsifurniture.com or consult the back of the appropriate swatch card for cleaning codes and any specific instructions. For COM materials, consult with the individual textile manufacturer for cleaning codes and any specific instructions pertaining to your particular fabric.

Maintenance of Mechanical Parts
Clean any lint or debris from the moving parts of the base mechanisms. Mechanisms have been designed and tested to not require lubrication under normal conditions however lubricant can be used if needed.

Metal Components
Wipe smooth powder coat finishes and textured metals with a damp cloth. For stubborn stains and grease marks, use soap and water. Lightly brush textured metals with a soft , dry brush to remove dirt.

Casegoods

Wood Materials

Exterior surfaces are laminated veneers either in plain sliced walnut or rift cut white oak.

Casegood tops are made up of layers of hardwood veneers molded to shape and RF cured. Outer veneers are matched for uniform grain patterns. All casegood tops are 3/4 " thick plywood.

Casegood chassis, doors and drawer fronts consist of veneer over composite wood core; all wood core components are 3/4 " thick.

Metal Materials

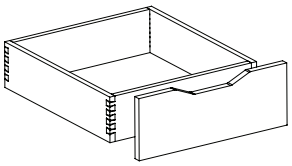

Exterior feet are fabricated using 14 guage steel tubing and 14 guage flat stock.

Construction

Casegoods are constructed with a series of glued wood dowels and metal-to -wood fastening hardware to reinforce critical joints.

Feet are field installed to prevent shipping damage, pre-bored holes make installation easy. Instructions, feet, and other hardware will be packed inside the carton.

Drawer boxes are constructed from plywood components with dovetail joinery, providing superior tensile strength to the box. Under-mount drawer suspensions are "full extension" which allows the drawers to open fully. The "soft-close" mechanism allows the drawers to close with a slight push. Drawer and door fronts feature a finger pull and are non-locking. Drawers in the BeSPACE product line are not intended for filing.

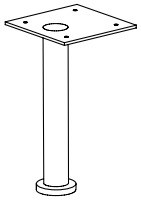

5-sided drawer box

Casegood Feet

Feet are fabricated with a flat plate which is screwed to the bottom of the casegoods. The feet have an adjustable glide for ease of leveling.

Glide matches powder coat finish selected on feet.

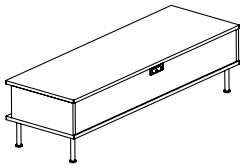

Credenza units have wire pass through incorporated into the interior dividers and bottom panels to allow for wiring to pass easily through the unit. A metal stress-bar runs the full length on the bottom side of the credenzas providing additional support.

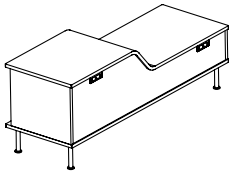

back view

Optional matte black grommets are available in the back panel but must be specified. Grommets are located as shown, center on single height units and two locations on transition height units.

Optional Data/Electrical Components

EC22 Power Center- Flush Mount

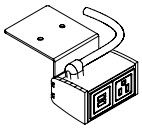

EC22 unit provides electric for two 110 devices and one USB 2-Port Simplex for charging. This factory installed unit is mounted in the front or back panel(s) of modular closed tables. When ordering specify color and location, see below. Power is connected to the building supply with 10' standard three prong cord. Access and storage of excess power cord is provided in the cavity of the tables.

Note: Power Center color, Black (B) or White (W) must be specified.

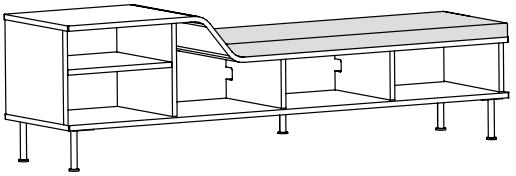

EC21 Power Center - Under Mount

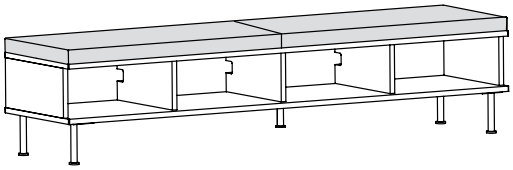

This accessory item features one 110 device and one USB 2-Port Simplex for charging. The EC21 unit is ordered separately and can be mounted on the bottom platform of casegoods and lounge seating, see "Power Center Under Mount".

Credenza with Optional Cushions

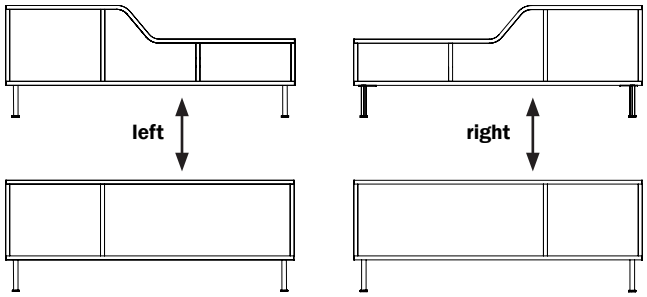

Bench Height and Transitional Height credenza units can be ordered with an optional factory installed cushion. (Select appropriate fabric grade when pricing the unit). Cushion should not be removed due to permanent attachment.

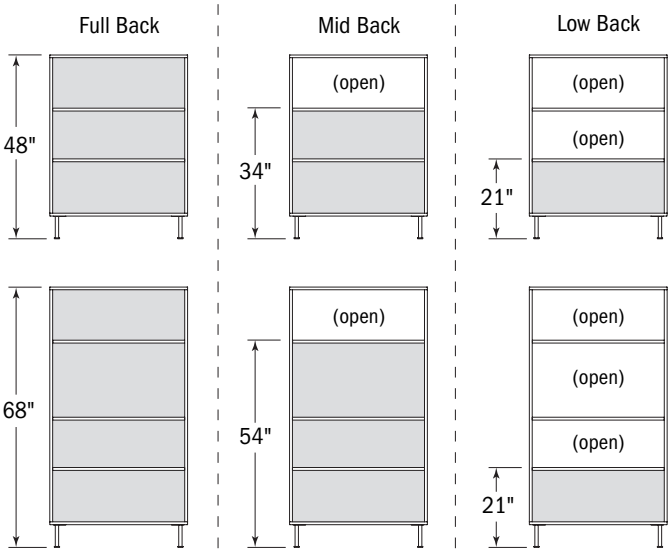

How to determine Left and Right

Left and right is determined by facing the unit; the transitional height unit determines the left or right orientation.

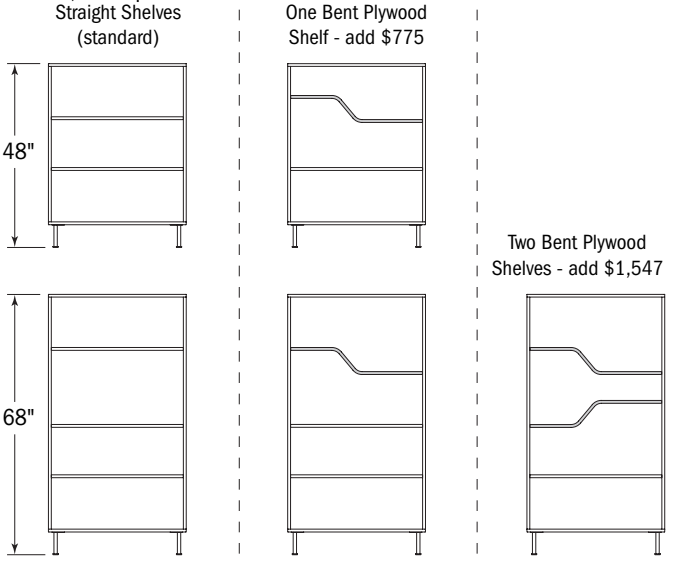

Bookcase Back Heights

Bookcases are available in two heights, 48 and 68 inches tall. When ordering, please specify one of the three back height options; Full Back, Mid Back or Low Back.

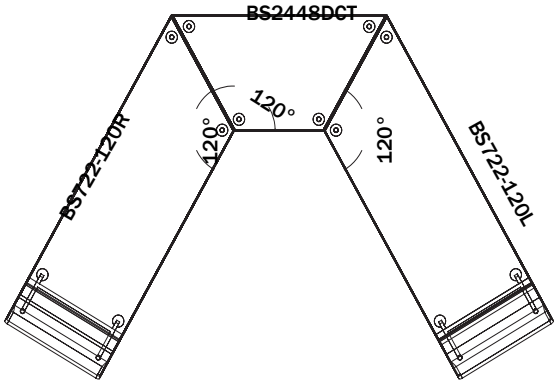

Bookcase Shelving

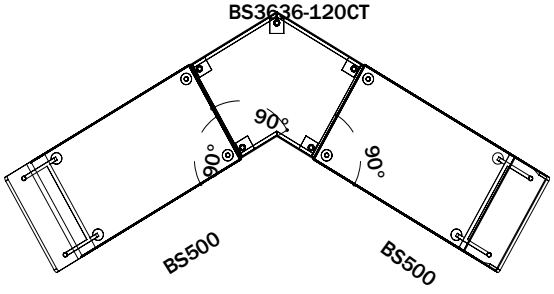

All bookcase shelves are offered straight as standard. The lowest shelf is always fixed and straight. Upper shelves are adjustable and available with optional bent plywood. The bent plywood shelves are reversible, they can slope in either direction. When ordering bookcases with bent plywood shelves, please specify and add $775 for one shelf, and $1,547 for two shelves, to list price.

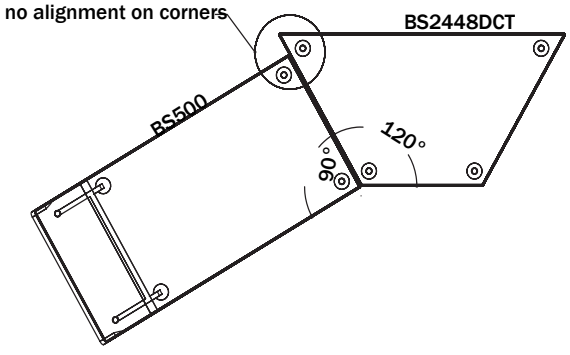

Modular Tables and Modular Lounge - Connecting

1. To create turns with in a product run, connect 120° units with other 120° units or 90° (square end) units with other 90° (square end) units to create turns.

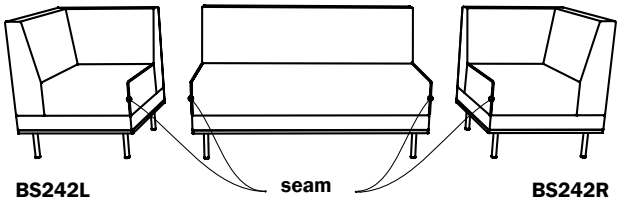

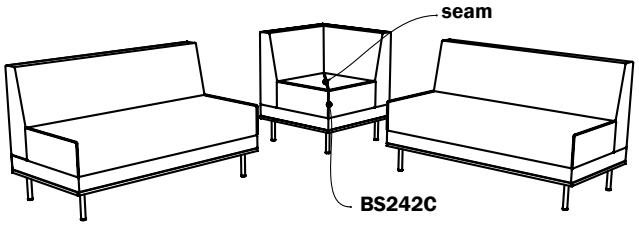

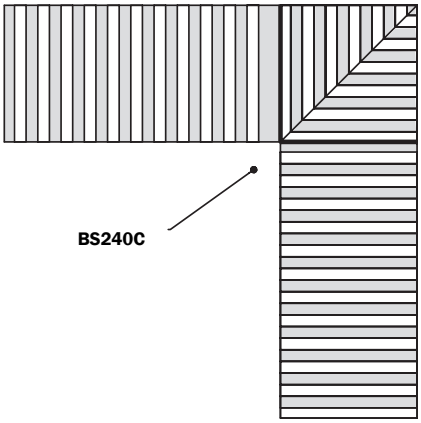

Note: 120° and 90° (square end) units cannot be connected to one another

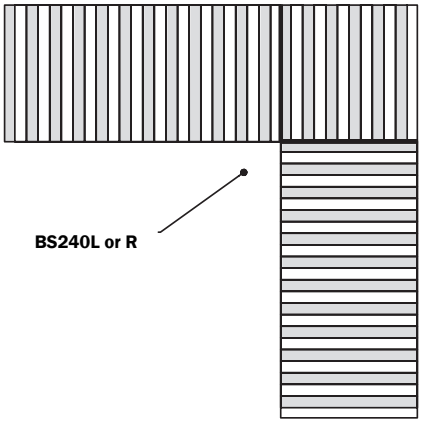

2. For a flat tailored surface corner units will have a seam on the linking side.

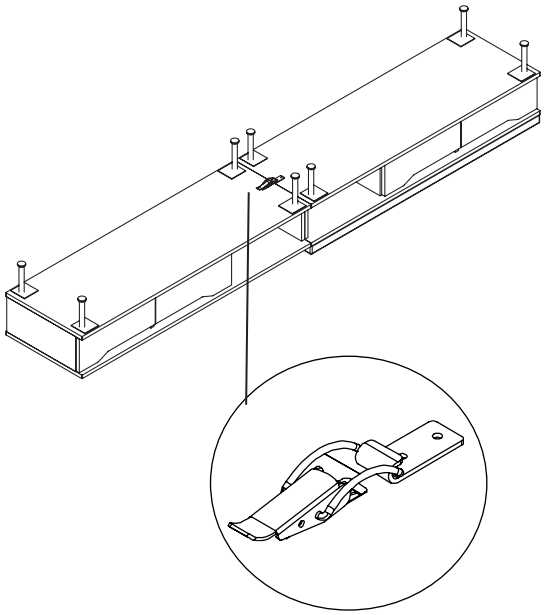

3. When using textiles with a pattern or large repeats we recommend specifying the corner units with “C” at the end of the model number. Note there will be a diagonal seam allowing for a textile match. If the upholstery cover is non-directional the diagonal seam will be eliminate

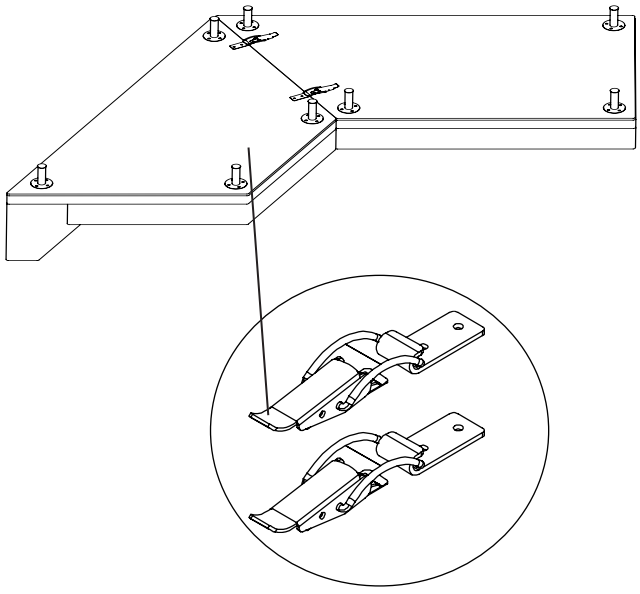

4. Modular tables are shipped with connecting hardware to secure units together. The draw catch style hardware makes connection easy. Pre-bore holes are standard.

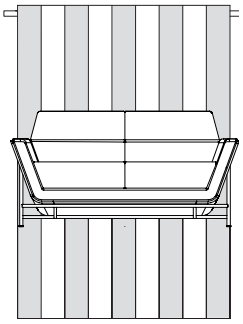

5. Modular lounge units are shipped with two sets of connecting hardware to secure them together. The draw catch style hardware makes connection easy. Pre-bore holes are standard.

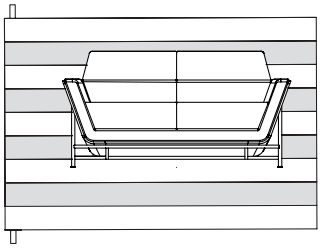

Upholstery Application
Unless the customer specifies the fabric to be "railroaded", the fabric will be "cut up the roll". Additional seaming may be needed pending fabric width and textile repeat match, contact Customer Service with questions.

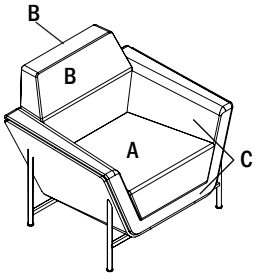

"Nap" or "Up the Roll" (standard)

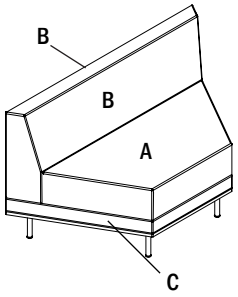

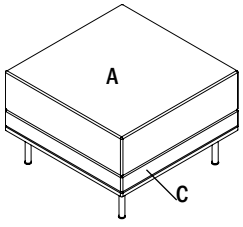

Railroaded (upon request)

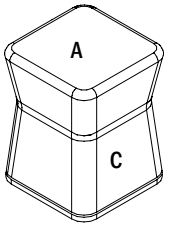

Contrasting Upholstery
Units can be specified with a contrasting upholstery feature. When this feature is desired the unit **will be priced based on the highest grade fabric**. At the time of ordering identify the location of each textile according to the following code.

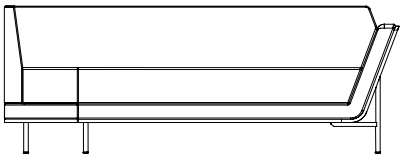

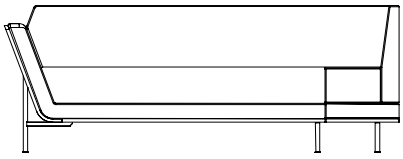

A = Seat
B = Front Back/Extreme Back
C = Deck or Deck and Arm (s)

How to Determine Left and Rights
Left and right is determined as you are seated in the chair.

right shown

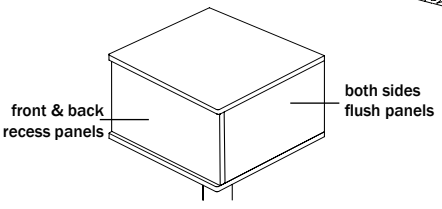

BS2424DCT Table
This corner table is designed to create a 90° (square end) turn with two modular components as shown in the example below. The "A" or "B" back panels are identified to help specify the location of the EC22 power data unit. When ordering an EC22 specify "A" and/or "B" location. The two back panels are slightly recessed. The grain runs diagonal on the table top.

BS2424SCT Table
This table is designed to create a straight run of modular components as shown in the example below. The EC22 can be installed in the front or back panel. The front and back panel are slight recessed. The grain on this top runs side to side.

Contrasting Upholstery

Units with privacy elements can be specified with contrasting upholstery. When specified, the unit will be priced based on the highest grade fabric selected. Specify the (A) chair fabric and (B) privacy fabric on your order.

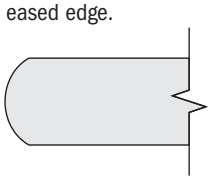

Upholstery Detail - False Welt

False Welt - Double fold upholstery seam detail is present on Caav privacy screens. An integral part of the upholstery application, the false welt creates a defined line while maintaining flexibility for ultimate casual comfort.

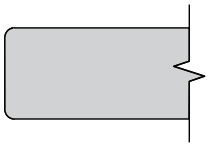

Note: Large scale and geometric patterns applied over Caav's soft contours and false welt details will impact the pattern visual. Solid colors are recommended, particularly on the seating.

Edge profile

All veneer desks, tables, stand-up surfaces and tablet arms have a bullnose edge detail. The edge is solid lumber and finished to match the top surface. Maple is standard, Walnut and White Oak are available for an upcharge. All laminate desks, tables, stand-up surfaces and tablet arms had a matching PVC eased edge.

Available in Maple, Cherry, Walnut or White Oak veneer or JSI standard laminate.

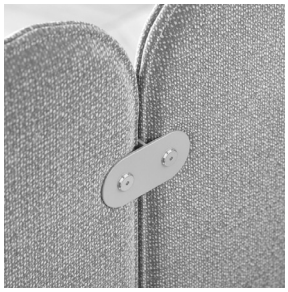

top view

H-brackets

Privacy Hoods and Privacy Wings attach in the field with H-Brackets. The metal color selected on each seating unit will apply to these brackets.

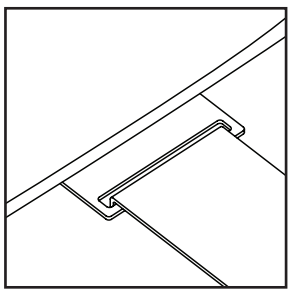

Aged Bronze, Matte Black & Pewter Brackets will have black bolts
Arctic Silver, Soft Bronze, Gold & Soft Nickel Brackets will have nickel bolts

---

Modular linking bracket

Linking brackets are installed on Modular and Sectional seating units. These brackets are gravity-engaged and are intended to help link and align adjacent units. Brackets can be removed on exposed ends.

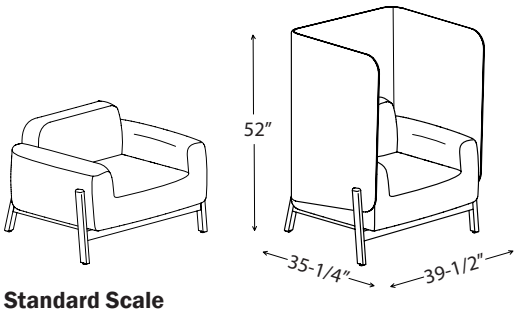

Leg-based Modular units connect with other Leg-based Modular units on ends without arms.

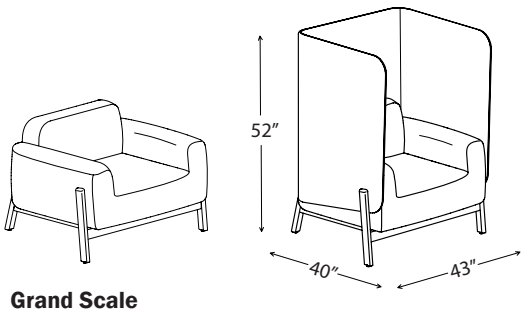

Sectional units connect with other Sectional units on ends without arms.

Lounge Scale

Freestanding, single seat lounge units are available in two sizes. Grand scale units offer generous comfort and accommodate a variety of lounge postures. Standard scale units offer the same comfort level in a smaller footprint and are more manageable to handle & install.

Standard Scale

Grand Scale

Note: Units with Privacy Surrounds may not fit through standard building doorways.

Connect Modular Lounge Order Check List (cont.):

6. Fabric Selection - Please supply the following:
Fabric vendor/Pattern name/Pattern color

For a complete list of JSI Standard and Graded-In Textiles click here

Contrasting Upholstery - Units can be specified with a contrasting upholstery feature. When this feature is desired the unit will be priced based on the higher grade fabric selected for the seat, back, arm(s) and headrest.

When specifying contrasting upholstery, indicate clearly which upholstery to be applied to the seat, back, arms and headrest.

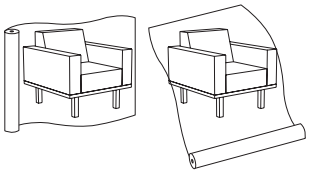

- Indicate direction of fabric - Railroaded or Up the Roll
- Please provide illustration, if available

All COM orders must include the following:
- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Department
201 East Martin Street
Receiving B, Dock 71
Orleans, IN 47452

Application of fabric:
Railroaded Up the Roll

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

---

6. Metal Leg Color:
Available in Black Sandtex **(BSX)**, Pewter (PEW), Soft Nickel **(SNK)** or Stardust Silver **(STS)** powdercoat.

---

7. Wood Back Rail

For added elegance Connect Low Back units with two arms may be specified with the Wood Back Rail option. The 6" tall wood back rail enhances the back detail as you approach the units from the rear making this a nice feature for "freestanding" applications. This option reduces the back depth by 1⅛". The back rail will be in the same finish color as the rest of the unit. Specify Wood Back Rail and add $192 list per unit.

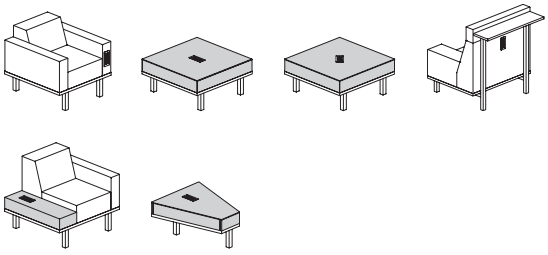

8. Power Center - Flush Mount:

Units with arms, end table, console, linking table or stand up surface can be specified with the Power Center Flush Mount option featuring two waterproof 110 outlets and one dual USB port. Power is connected to the building supply with a 10' long standard three prong cord. Access and storage of excess power cords is provided in the base of the arm or console. Power Center is not available on Corner Seats or Corner Tables.

Power Center (EC22):
- Left or right arm with one Power Center per arm mounted vertically in the front; add $583 list each, indicate left or right arm (as seated)
- End, console, straight or wedge linking table with one Power Center mounted front to back in top; add $583 list each
- Single seat unit with a stand up surface and one Power Center located 7¼" under the surface and centered in the back; add $583 list
- Two seat units with a stand up surface and two Power Centers located 7¼" under the surface and centered in each back; add $1,166 list
- Three seat units with a stand up surface and two Power Centers located 7¼" under the surface and centered in the back of the left and right backs; add add $1,749 list

NOTE: Power Center color, Black (B) or White (W) must be specified.

Power Center (EC21) - Under Mount:
This accessory item featuring one 110 volt power receptacle and one dual USB port mounts to the underside of units. See page CT66 for additional information.

Connect Modular Lounge Order Check List (cont.):

11. Drink Holder

Units with an arm, end table, console or linking table can be specified with the drink holder option. The drink holder features a plastic base with rubber coaster and a metal trim cap.

Drink Holder (DH):
- Left or right arm with **one** drink holder per arm; add $120 list each and indicate left or right arm as seated)
- End table, console or linking table with **two** drink holders; add $240 list

NOTE: Metal trim cap color will match the Metal Leg Color. Drink holder cannot be ordered on an arm with a tablet arm.

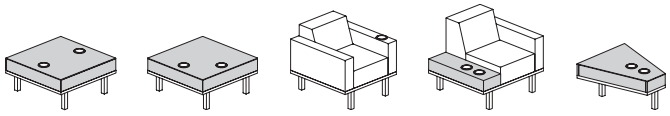

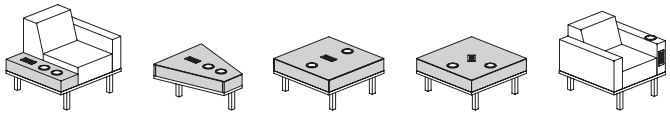

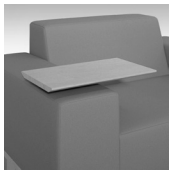

Table Power Center and Drink Holder Standard Locations:

12. Tablet Arm:

- rotating
- 10" x 18" veneer surface
- Specify Tablet Arm option left (TBL) or right (TBR) and add $663 list for flat cut, $691 for double cut, for each tablet arm specified

13. Optional Rubber Cushion Nylon Glides - no upcharge

14. Product Options:

Optional Coordinating Wood Grain Laminate Surfaces:
No additional upcharge. Finishes with an asterisk (*) have a coordinating laminate available.
(For wood cap arm, tables or tablet arm)
Special Finish: $372 list upcharge

Features:
- 20" and 30" seat widths
- four back heights available on units with a 30" seat width
- arm models with a 20" seat width have an arm width of 5"
- arm models with a 30" seat width have an arm width of 10"
- all units have a 1¼" wood base platform
- end table, console and linking tables are made of plywood construction with maple veneer surface
- metal legs are 1¾" x 1¾" x 8¼" 16 guage steel tube with metal leveling glides

Linking Brackets:

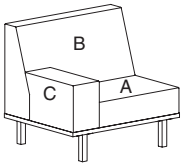

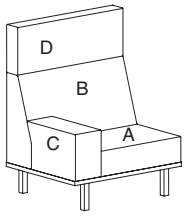

Each unit ships with two sets of link brackets; two latches and two hooks providing quick connection to form limitless configurations.

Contrasting Upholstery:

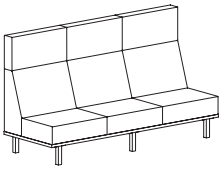

Units can be specified with a contrasting upholstery feature. When this feature is desired the unit **will be priced based on the highest grade fabric** selected for the seat, back, arm(s) or headrest. Specify the seat (A), back (B), arm (C) and headrest (D) fabric on your order.

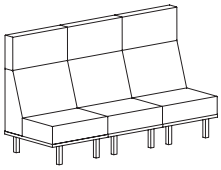

Planning Section:

Modularity:
Modularity and versatility allows you to fit Connect into any footprint using large and small scale components or a mix of both. The use of wider and fewer units will diminish the number of legs in a configuration. More units shorter in width will increase the number of legs in a configuration.

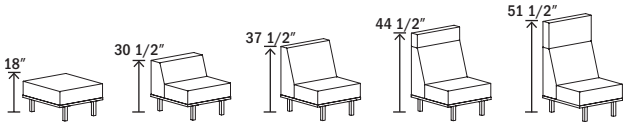

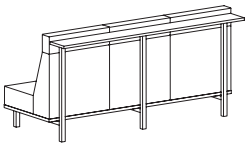

Curved Units:
Curved units in varying radius degrees are available to help aid in creating configurations with different twists and turns.

Back Heights:
Units with a 20" seat width are available with low back height or bench style.

Units with a 30" seat width are available in bench style or four different back heights; low, mid, high and privacy. 7" and 14" headrest are included on the High and Privacy back respectfully.

Complementary Components
Units with a 30" seat width and a high or privacy back are available with a 10"d stand up laminate surface with a coordinating 3mm PVC edge. These surfaces may be used as touch down spaces or to provide tiered type seating.

Upholstery Selection
When selecting the upholstery materials, consider the affect the upholstery structure has on the appearance of the comfort wrinkles.

High wool content upholstery, soft pliable vinyl, non-backed upholstery materials may limit the appearance of comfort wrinkles.

Highly structured, thick vinyl, backed non-stretch upholstery materials and leather can increase the appearance of comfort wrinkles.

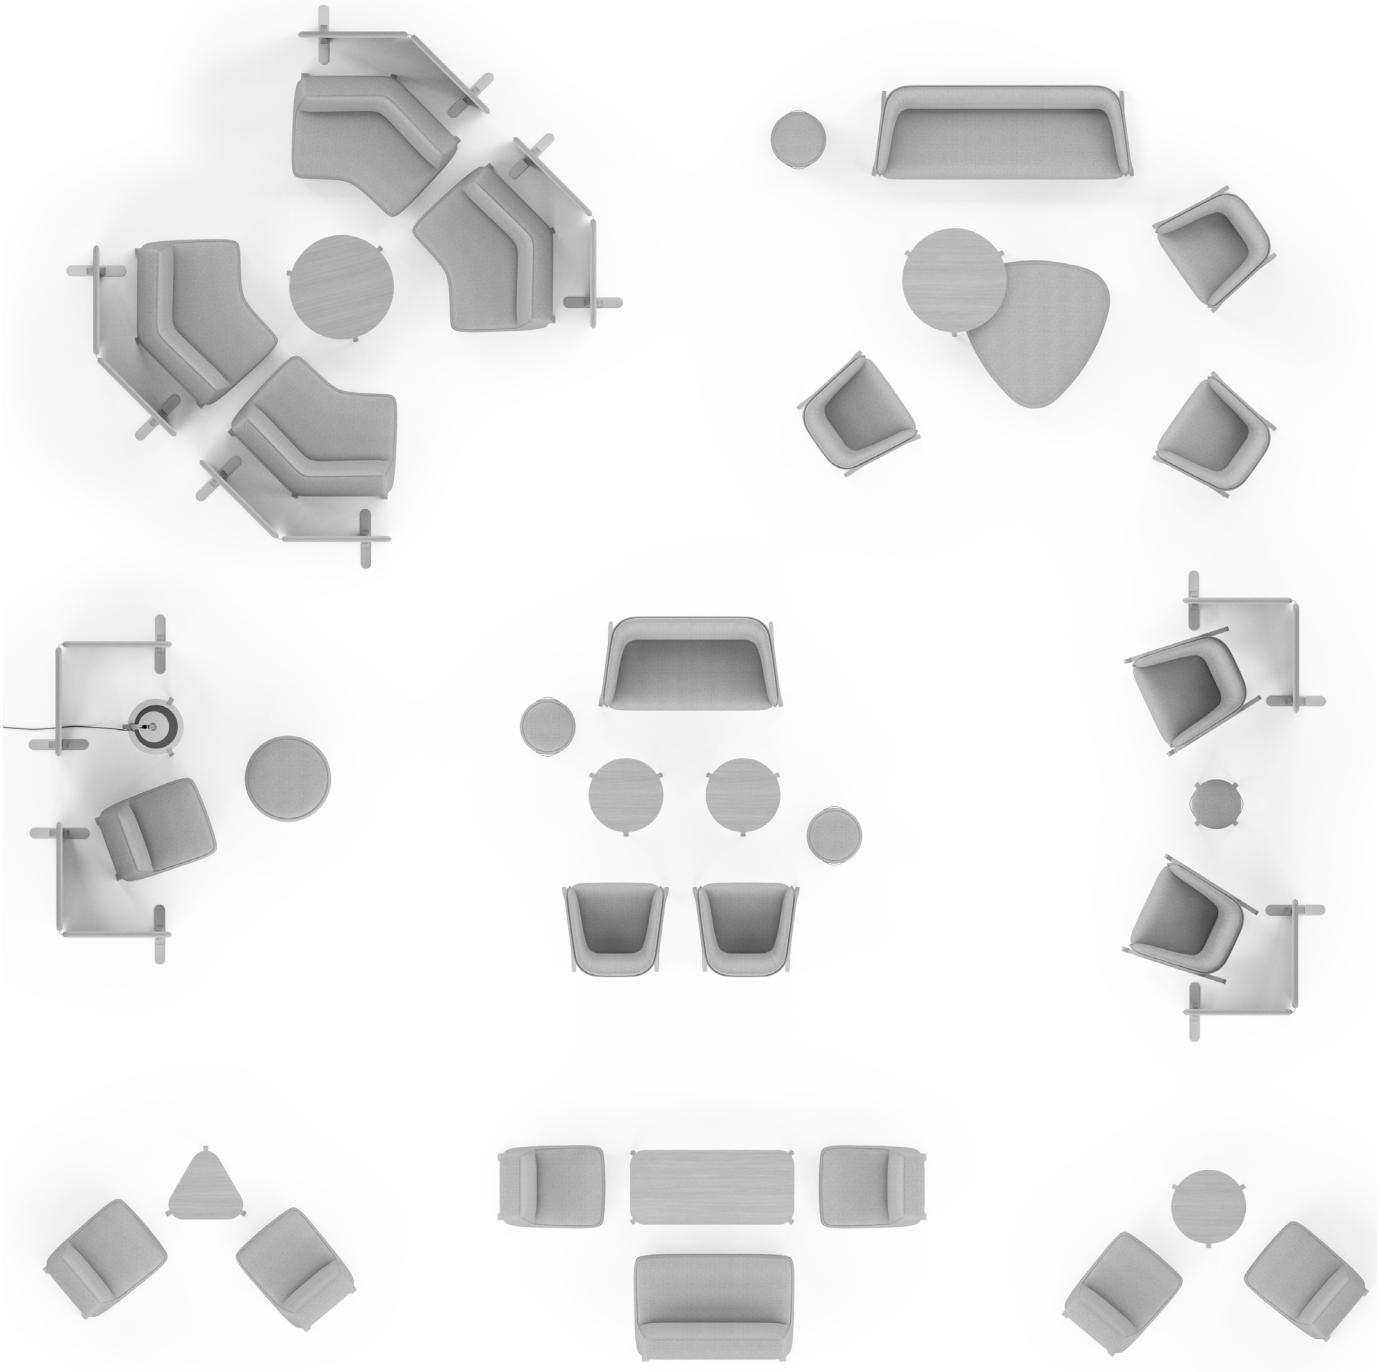

Note: Large scale and geometric patterns applied over Indie soft contours with false welt details will impact the pattern visual.

Upholstery Detail - False Welt
False Welt - Double fold upholstery seam detail is present on Indie Lounge, Low Lounge and Pouf units.

An integral part of the upholstery application, the false welt creates a defined line while maintaining flexibility for ultimate casual comfort.

STC (Sound Transmission Class) - represents a material or

product's ability to block sound from traveling through a wall, ceiling, floor or other building assembly.

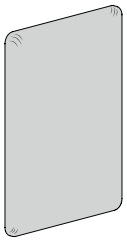

NRC (Noise Reduction Coefficient) - measure the amount of energy absorbed when it strikes a particular surface.

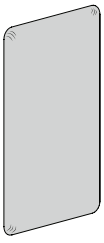

Note: In any application, determining the overall acoustic value of a space can only be determined by testing space with all surface elements present. STC test was preformed on a single 60"h x 48"w freestanding screen and NRC test was performed on a double 60"h x 78"w freestanding screen.

Creating Configurations with Chairs and Tables

Knox provides multiple seating, linking brackets and connecting brackets to build an array of solutions for public seating needs, see examples on the next page and learn the building blocks below.

Multiple Seating

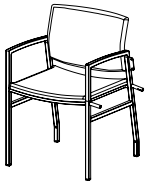

Unique model numbers have been created for two and three seat units.

Modular Multiple Seating

Multiple seating can also be ordered using modular components and assembled in the field. This allows for a row of chairs greater than three seats and only using one starter module. Adder and ender modules are shipped KD, instructions included.

Finishes with an asterisk (*) have a coordinating laminate available.

Foot Options

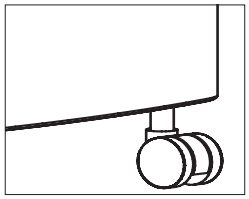

Moto offers two foot styles or casters. The metal foot is standard on seating, casegoods and linking drum tables. An optional wood foot is available at an additional upcharge on lounge, linking drum tables and casegoods. Casters are available on seating with an additional upcharge. Casters are non-locking.

Metal Foot - Standard

Casters - Optional
Black Dual Wheel
Four Caster Set
Non-locking

Adjustable Foot - Leveling

The standard foot has integrated leveling, which is beneficial when connecting units together in long runs on uneven floors. As the glide is turned to adjust leveling an attached shroud drops to hide the threads of the bolt.

The maximum recommended adjustment is no more than 1 ¾".

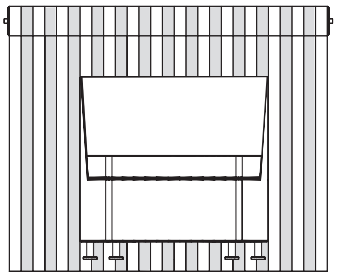

Upholstery Application

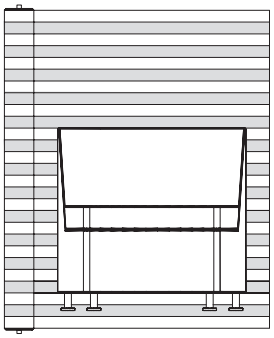

The fabric will be applied "up the roll" unless railroad is specified.

The Concave Corner unit will have a diagonal seam on all fabric applications. Shown below is an example of a directional textile on the Corner Club unit.

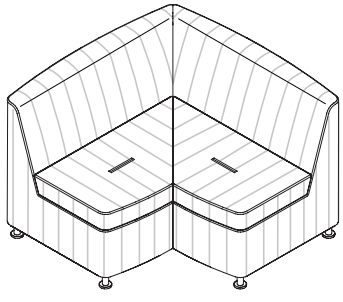

Additional seaming may be needed pending fabric width and fabric repeat match, contact Customer Service with questions. JSI will strive to match fabric patterns but cannot guarantee a match on repeats greater than 15" on the Moto product line.

Modular Lounge and Linking Drum Tables

An Alligator Clip assembly is installed to connect lounge and linking drum tables. The clip is installed on the left bottom side rail and the hook is installed on the right bottom side rail. The bottom chair rails are bored to accept either the clip or hook for field re-configurations.

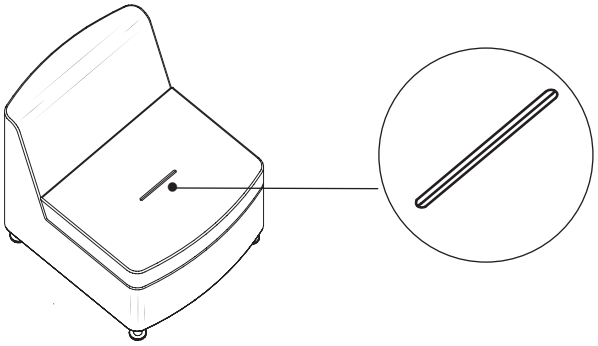

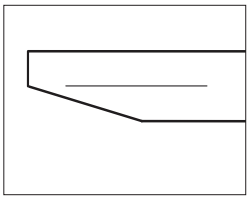

Note: Linking Table Tops are permanent bolt thru attachment and do not use the above clip.

Lounge Seating - Seam Detail

Seats have a seam detail in the center of the seat. This seam detail is standard and will help keep the tailored look of Moto. Please note that fabrics and leathers are all different (fiber content, yarn elasticity and yarn weight) which can affect the tailoring of the Moto Lounge. The aesthetic seam helps with variations in the upholstery cover. Contact Customer Service with fabric and leather information if a concern exists with a certain upholstery cover.

Linking Tables - Grain Direction

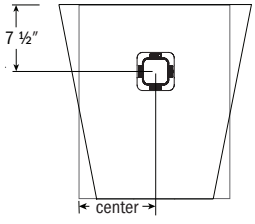

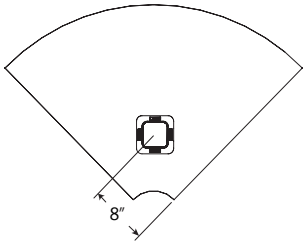

Linking Drum Tables - Power Location

The EC24 or EC23 are available on linking drum tables. Wire management moves through the bottom cavity. The location shown below is for all table shapes.

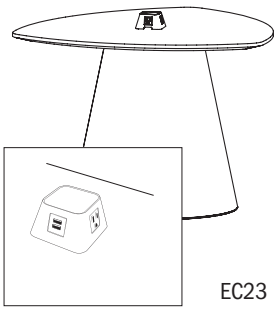

EC24

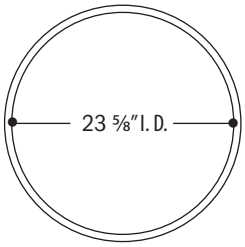

Work Tables - Power and Wire Management

The optional EC23 or EC24 is recommended for the work tables. When electrical units are used on the work tables with a conical base, the base allows wires to run through to a floor outlet. The unrestricted opening at the bottom of the base allows the base to be placed over the floor electrical monument.

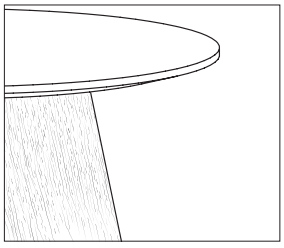

EC23

Both the EC23 and EC24 are centered on the top over the base.

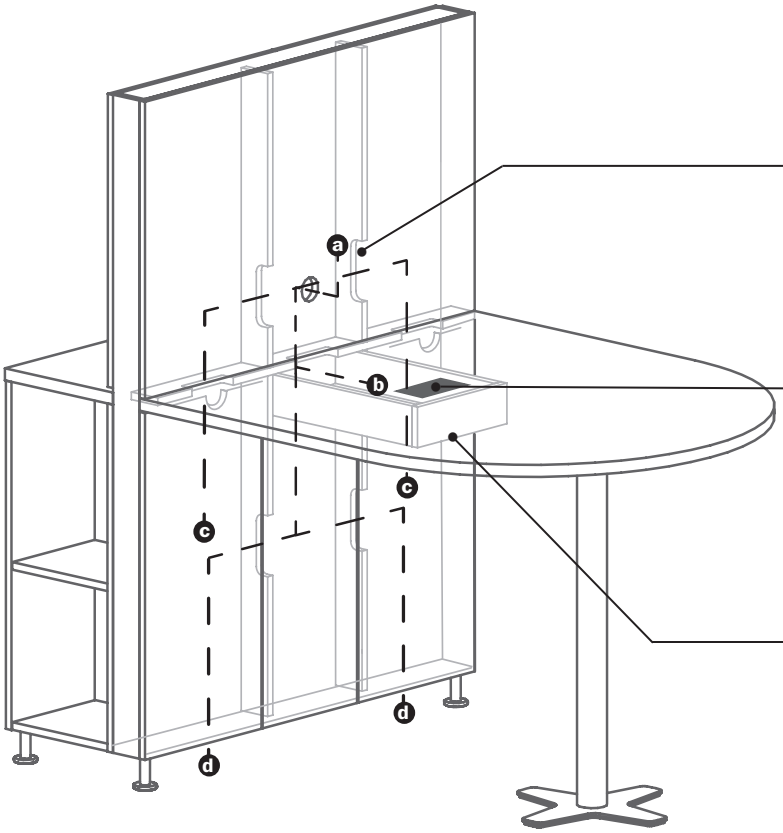

Conical Table Base - Material and Grain Direction

The conical base on the pull-up and work tables is polystyrene material with a wood grain texture. This base is available in wood finishes and paint colors. Color Coordinate Finishes are intended to coordinate with select laminates. Adjustable leveling glides are included.

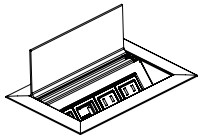

Media Tables and Media Credenzas - Wire Management and Power/Data

Easy access to wiring is provided in the Moto Media products. Well placed grommets, doors, and allowance inside the cabinets makes it easy to outfit these units quickly. The recommended EC25 brings power and data access to the top.

Upholstery Application

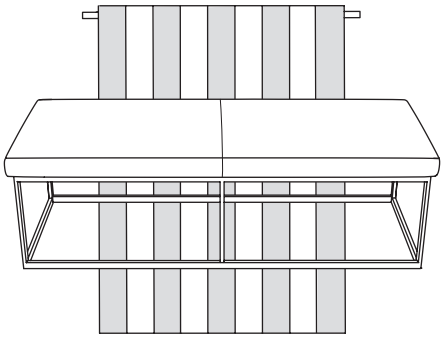

Fabric will be applied differently on the Oxley Benches dependent on style to best accommodate yardage use and aesthetics. Please see below graphics to help understand the different application methods. For **Plain (P)** models, the standard application will be "up the roll", whereas for **Quilted (Q)** or **Tufted (T)** models, the standard application will be "railroaded". Customers wanting fabric to be applied differently than stated above can be accommodated upon request. Additional seaming may be needed pending fabric width and textile repeat match, contact Customer Service with questions.

Leather not offered on Quilted (Q) models.

"Railroaded"

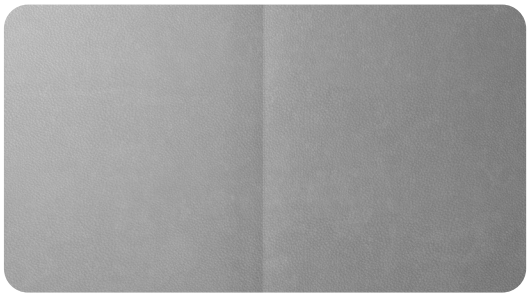

"Nap" or "Up the Roll"

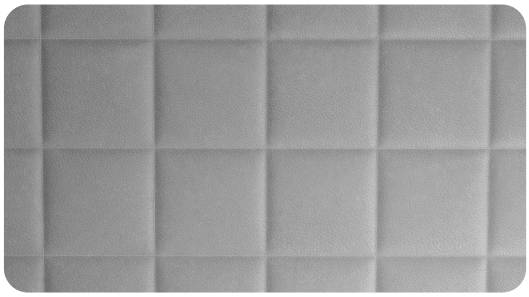

Upholstery Detail Selection

Oxley offers three types of upholstery detail: Plain, Quilted, and Tufted.

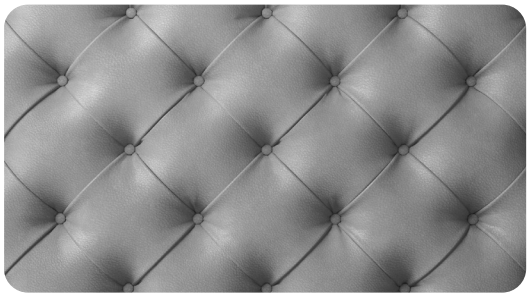

Plain

Quilted

Tufted

Metal Frame Construction

The frame is constructed of $^{1}/_{2}$" x 1" rectangular fabricated steel. It is powdercoated with your choice of the following colors: Arctic Silver, Matte Black, Pewter, and Soft Nickel.

9. Ganging:

Modular units have the option to be ganged. Ganging brackets (GP-LINK) can also be ordered separately if the decision is made to gang at a later date. An Alligator Clip assembly is installed to connect lounge and linking drum tables. The clip is installed on the left bottom side rail and the hook is installed on the right bottom side rail. The bottom chair rails are bored to accept either the clip or hook for field re-configurations.

Note: Linking Table Tops are permanent bolt thru attachment and do not use the above clip.

NGB - No Ganging Bracket
YGB - Yes Ganging Bracket, add $50 list upcharge

Fabric Application

Teekan affords the ability to be specified with multiple upholsteries to create a unique look. Upholstery zones are defined by the style of the unit.

Seating:
Zone 1 = Frame
Zone 2 = Back Cushion
Zone 3 = Seat Cushion

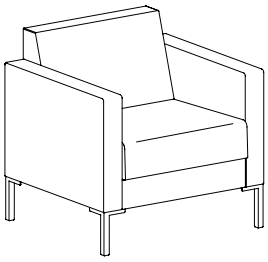

Ottoman:
Zone 1 = Apron
Zone 2 = Seat Cushion

Models ending with _M designate multiple upholstery zones are available (ex: TK1611_M). To calcuate pricing,
add base price + zone 1 + zone 2 upcharge + zone 3 upcharge

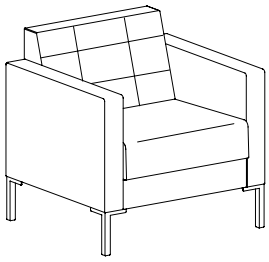

Models are presented as both single upholstery and multiple upholstery in both the price list and in eTools.

3 & 4. Back & Seat Cushion:

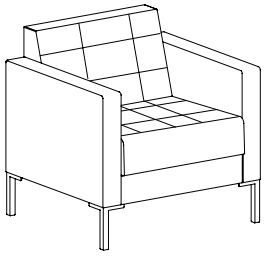

Back & Seat cushions are offered in two back styles for aesthetic appeal; Plain or Quilited. All cushions are fixed.

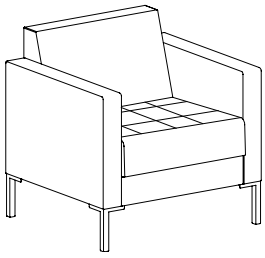

Plain Back (PBC)
Plain Seat (PSC)

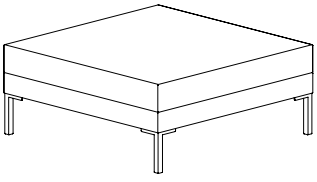

Quilted Back (QBC)

Recommended Combinations

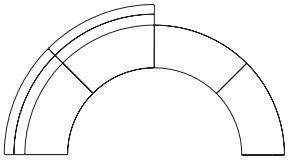

Ziva is designed to fit the user's preference. To uphold the design statement of Ziva, it is recommended that adjacent layouts have backs on the same side (example 1 & 2) or attached to a bench (example 3). Opposite facing configurations may be achieved by placing a bench or benches in between the two directions (example 4).

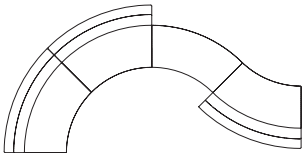

(example 1)

(example 2)

(example 4)

Ottomans and Tables
Ottomans and tables can complete a layout and provide functionality. The ottomans are available in four diameters. Both the ottoman or the half round coffee table fit perfectly inside round configurations.

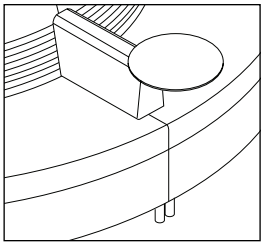

The light scale tables have an Arctic Silver powder coat frame with wood, laminate or solid surface top. The versatile work height tables serve as an end table and arm rest. They can be positioned over benches or the seated user to be used as a work surface. Tables are available in square, rectangle, or half round. They are designed to be used individually or paired up with a matching table.

Tablet Table Option
All arms on freestanding and modular units are available with an optional 14" diameter tablet. It is offered in ¾" thick wood, ¾" thick laminate or ½" thick solid surface. The wood tablet is available in Cherry, Maple and Walnut.

The tablet is on a swivel mechanism allowing it to be placed closer to the user. The recommended weight limit for the tablet is 75lbs. JSI does not warrant any damage as a result of excessive weight.

Important Upholstery Information

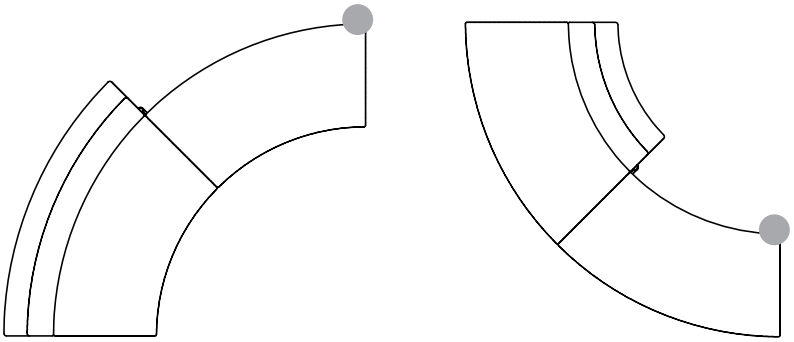

To reduce the number of seams and to achieve a clean look, **Railroaded** off the roll application is standard for Ziva. Line art and pricing for Ziva reflects railroaded fabric. **Due to the size of Ziva and minimal seams, patterned fabrics with the nap (side to side), and leather are not recommended.**

JSI strives to achieve customer satisfaction, therefore requests for patterned fabrics, with a nap application, and leather will be reviewed on a case by case basis. Fill out the sample form on the next page and contact Customer Service. Additional fabric yardage may be required and will be the customer's responsibility. The customer may also be asked to approve additional seaming. Other additional charges may apply. If a patterned fabric is specified, JSI does not guarantee matching at seams.

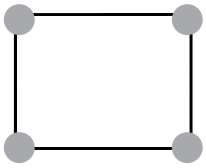

Standard Seaming

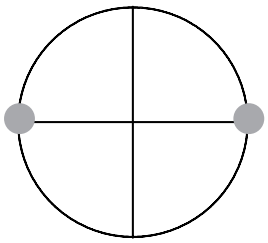

The back and seat are upholstered separately and therefore will have no joining seams, only tailoring seams as per the product design. Shown below are examples of seams required to join the fabric on the seat and surround. (marked with a ●)

The seat seam is hidden on freestanding and modular units with full backs. Partial back modular units have seaming on the bench section on the same side as the back.

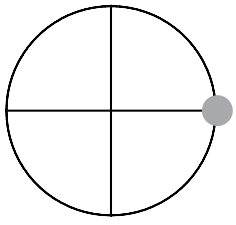

Benches (freestanding and modular) and ottomans have tailoring seams to align with the feet on the seat platform.

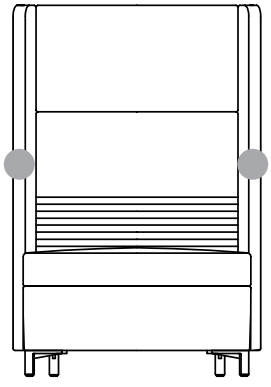

48″ and 42″

36″

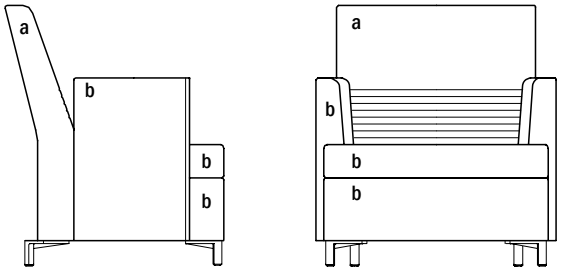

Privacy Surround will have a fabric joining seam on the front band of surround.

Seating Material Options

This form must accompany order when specifying contrasting or complementary upholstery.
Call for yardage and pricing.

Area (a), (b) and (c) are upholstery and can be specified in contrasting fabric. Legs and handle are a die-cast zinc with a matte chrome finish.
