## Product Specifications

**Table Top Construction Specification**

Top shapes are available in rectangular, soft rectangular, arc rectangular, boat, arc boat, racetrack, ellipse, view, square, soft square and round.
Sizes range from 36" – 60" depth and 72" – 240" width in 6" increments.

**Tops Are Balanced Construction Available In**:

- TFL (thermally fused laminate) 1 ⅛" thick particle board core with 3mm PVC Eased (R3) rim.
- HPL (high pressure laminate) 1 ⅜" thick particle board core with 3mm PVC Eased (R3) rim.
- HPL (high pressure laminate) 1 ⅜" thick MDF core with 1mm PVC Reverse Bevel (K9) rim. Underside of bevel is painted to coordinate with HPL.
- Veneer 1 ⅜" thick particle board core with 3mm veneer edge band in Eased (R3), Reeded (H3), or Transitional (C3) rims.
- Veneer 1 ⅜" thick MDF with 1mm edge band Reverse Bevel (K9). Underside of bevel is finished to match surface and edge band.
- Tops are rimmed on all sides.
- TFL and HPL tops are standard with PVC rim to match the top color
- Veneer tops are standard with edge band stained to match top.
- HPL tops are available with an extended laminate offering (Tier 2) from Formica and Wilsonart. Customer will select the PVC edge color
- Grain direction for TFL, HPL, and Veneer runs with the width of the top (left to right).
- Great care is taken to align multi-piece laminate woodgrain tops as closely as possible at the seams. However; due to the natural pattern variations and manufacturing tolerences, a perfect grain match cannot be guaranteed.
- Glass ¼" thick surface on top of 1" thick MDF undercut bevel profile edge subtop painted to match glass color for 1 ⅝" total thickness.

  Glass is low iron, tempered - ANSI Z97.1 / SGCC certified, flat polished with 1/16" arris edge, and back painted.

  Matte white, black and espresso colors have a velour finish and are not compatable with dry erase markers.

  Gloss white finish is polished and is compatable with dry erase markers.
- Solid Surface material 7/16" thick surface on top of 1" thick MDF undercut bevel profile edge subtop painted coordinate color to match solid surface for 1 7/16" total thickness.

  Solid Surface is an acrylic resin-based material known for its durability and surface finish repairability.
- Customer Choice top is 1" thick MDF undercut bevel profile edge subtop painted black to support materials not to exceed 12.5 lbs per square foot of customer supplied material.
- Multiple piece tops ship with joint connectors and biscuits to align and draw table sections together at the seams. Hardware to attach -tops to bases, ship with the base or base kits.

**Table Base Construction Specification**

Base styles are available in Aspect, Bevel, Bridge, Conical, Cylinder, Disc, Fluted Cylinder, Frame, Half Cylinder, Lok Y, X, X4, Oblique, Outline, Panel, Racetrack, Rectangle, Square, Square Disc, Truss.

**Bases Are Balanced Construction Available In**:

**Aspect, bases:**

- TFL (thermally fused laminate) ¾" thick particle board core with .5mm PVC band.
- Veneer ¾" thick particle board core with 1mm veneer edge band.
- Aluminum extruded end caps.

**Rectangle, Square bases:**

- TFL (thermally fused laminate) ¾" thick particle board core with .5mm PVC band.
- Veneer ¾" thick particle board core with 1mm veneer edge band.

**Conical, Cylinder, Half Cylinder, Panel, Racetrack bases:**

- HPL (high pressure laminate) particle board and ply wrap core.
- Veneer particle board and ply wrap core.

**Panel bases:**

- HPL (high pressure laminate) 1 ⅛" thick particle board core with .5mm PVC band.
- Veneer 1 ⅛" thick particle board core with 1mm veneer edge band.

**Bevel, Bridge, Fluted Cylinder, Truss bases:**

- Solid Wood in Maple, Walnut or Oak.

**Disc, Square Disc bases:**

- Metal welded tubular steel column with laser cut flat steel disc.

**Frame, Oblique bases:**

- Metal welded tubular steel frame.

**Lok Y, X, X4 bases:**

- Metal welded tubular steel column to top plate with cast aluminum feet.

**Outline bases:**

- TFL (thermally fused laminate) 1 ⅛" thick particle board core.
- Veneer 1 ⅛" thick particle board core.
- Metal welded channel steel frame.
- TFL and HPL tops are standard with PVC rim to match the top color
- Veneer bases are standard with edge band stained to match.
- Grain direction for TFL, HPL, and Veneer runs vertical.

Note: View shape tops of equal width will typically have one to two less seat positions.

## Multi Segment Tops

See **TOP** pricing pages for top sections by model.
see **BASE** pricing pages for number of bases per top

**72" – 96" widths**
one piece top

**102" – 120" widths**
one- and two-piece tops

**126" – 192"**
two-piece tops

**198 – 240"**
3 equal piece tops

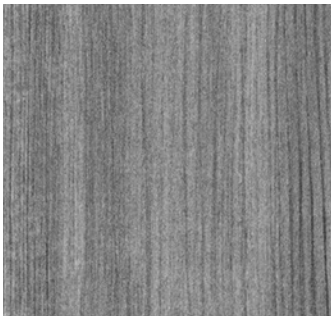

## Technical Specifications

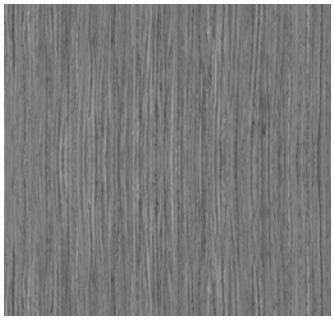

### Top and Base Grain Direction

Grain direction runs the width of the table top with veneer end grain and match and within .25 on multi segment TFL tops.

Grain direction runs vertically on table bases.

# Base Placement Dimensions

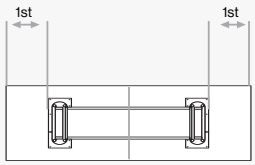

## Base Locations

**Base Type: Lok Y**
NOTE: due to Lok Y Base angled feet design, location of upright columns will vary by top width as well as top depth

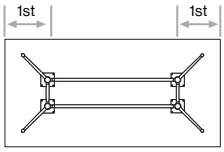

Applies to all top shapes and depths.
1—, Left and Right End base dimension are from the outside end of top to the outside end of base.
2—, 3—, and 4— base dimensions are to the center of the base.

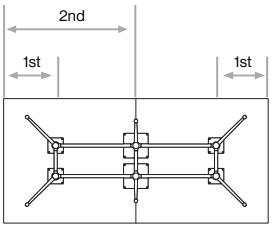

| Top Width | Base Quantity | 1 - Left and Right to Outside Edge of End Base Column | 2 - Center of Center Base | 3 - Center of Mid Base | 4 - Center of Mid Base |
|---|---|---|---|---|---|
| **54" depth top** | | | | | |

# Product & Finish Information

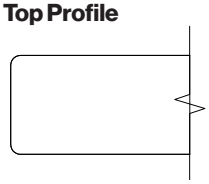

## Laminate

**Table Top Models**
The Anthology suffix T, H or KH is used to designate laminate material.

**Laminate Tops**
Anthology features 1⅛" thick TFL (thermally fused laminate) and 1³⁄₁₆" thick HPL (high pressure laminate) table top surfaces with banded rim; see table top specification page 5.

## Product & Finish Information - Veneer & Solid Woods:

**Exterior Wood Materials**
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Anthology Veneer product line.

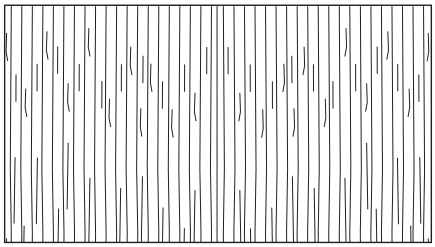

To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Anthology Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Anthology Veneer is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Book-Matched Veneer Example

Double Cut Veneer Example

Double Cut veneer is another choice on Anthology Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram above shows the tight pattern used on Anthology Veneer. Use the appropriate pricing column when specifying Double Cut veneer.

**Protective Top Coat**
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

**DuraTex™ Features**

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

**Finish Sheen**
All veneer finishes except Raven are standard 35-sheen, with 15-sheen available. Raven is only available 15-sheen for best visual and functional performance.

**Custom/Special Finishes**
JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first-time matches and must be included with the written request.

There is a one-time charge per order for any non-standard wood finish.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finished product.

## Product & Finish Information - Veneer & Solid Woods:

### JSI Core Materials

For projects requiring similar finishes across multiple series, JSI recommends using our Core Materials program. Finishes in this group are offered throughout the vast majority* of JSI products in the three main material categories. Essentials and Artisan Veneer, Laminate and Solid Maple, in a spectrum of light to dark.

*note: not applicable to all series, for example BeSpace only offers clear veneer finish.

When selecting a JSI finish / designator, the veneer and wood solid species are automatically sellected for the best finish color quality.

| Designator | Finish | Veneer Collection | Veneer Species | Solid Wood Species | Laminate | Core Program |
|---|---|---|---|---|---|---|

# Product & Finish Information - Table Tops:

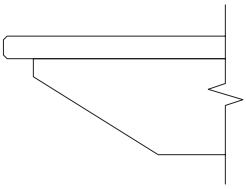

## Premier Tops

**Table Top Models**

The Anthology top models have suffix G,S or B used to designate Premier material tops.
example: 65T48120TTG, 65T48120TTS or 65T48120TTB

**Glass Tops**
Anthology glass tops are 1 5⁄16" thick constructed of ¼" thick back painted glass surface on top of a 1" thick MDF sub top.
Sub top has an undercut bevel profile and painted to match the back painted glass surface. See table top specification page 5.

Glass Top Profile

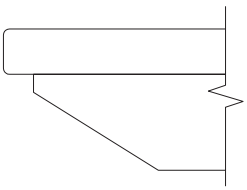

**Glass Tops**
suffix G

**Glass**

| | |
|---|---|
| WHM | White Matte |
| WHG | White Gloss |
| ESM | Espresso Matte |
| BLM | Black Matte |

**Solid Surface Tops**
Anthology solid surface tops are 1 7⁄16" thick constructed of 7⁄16" thick solid surface on top of a 1" thick MDF sub top.
Sub top has an undercut bevel profile and painted in a coordinated color to match the solid surface. See table top specification page 5.

Solid Surface Profile

**Solid Surface Tops**
sufifix S

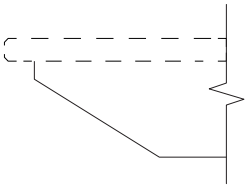

**Solid Surface**

| | |
|---|---|
| ONX | Black Onyx Mirage |
| DWH | Designer White |
| HST | Hot Stone |
| SOG | Soothing Grey |

**Customer Choice Tops**
Anthology customer choice tops are 1" thick and have an under cut bevel profile painted black.
Customer is responsible for determining the best attachment method for their custom top. See specification page 5.

Weight of customer choice top material not to exceed 12.5 lbs per square foot of customer supplied material.

Customer Choice Profile

**Customer Choice**
sufifix B
Sub top is always painted black.

## Anthology Specification Overview:

Table tops, bases, and power components are ordered separately

### 1 Select top shape, size and material

Select a top shape and size that best fits the application, room size and function desired.
Select Material choosing between TFL with eased rim, HPL with eased or reverse bevel rim, and Veneer with eased, reeded, transitional, or reverse bevel veneer edge band.
Premier Top materials can be chosen from Glass, Solid Surface or Customer Choice materials.
Glass surface is ¼" thick on top of MDF subtop painted to match glass color with a under cut bevel profile edge.
Solid Surface is 7/16" thick on top of MDF subtop painted in a coordinating color. Customer Choice is a MDF sub top for customer supplied material not to exceed 12.5 lbs per square foot of material.

### 2 Select base style, material and finish

Bevel, Bridge, Truss, and Fluted Cylinder - **Solid Wood bases.**
Conical , Cylinder, Half Cylinder, Panel and Racetrack, Racetrack BridgeLine - **HPL and Veneer bases.**
Outline, Aspect, Aspect BridgeLine - **TFL and Veneer with Metal Powdercoat bases.**
Rectangle, Rectangle BridgeLine, Square - **TFL and Veneer bases.**
Oblique, Disc and Square Disc - **Metal Powdercoat bases.**
Frame and Frame BridgeLine - **Metal Powdercoat and Chrome bases.**

***For ease of specification bases are sold in kits aligned to specific top sizes. The base kit is a complete set of bases, mounting brackets, screws, along with stretcher rails and undersurface metal support as required for applicable top size.***

### 3 Select power modules

**Options for power include:**
Electrolite, Ellora, Ellora Double, M2X, Mho, Node, Oasis, Undermount, Vault Z23, and Vault BTC. A broad selection of performance features support small to large power requirements including USB A+C and Data.

Selected models are available with corded plug, hardwire, or one-, two-, three-, and four-unit kits linked together with a single plug. Kits include power units, jumpers, power infeed, and all applicable parts to simplify specification. Kits are specific to table width.

***Anthology tops and bases are designed and engineered to be specified together as per the application guidelines listed in the pricing tools. They are not designed to be used with tops and bases from other series.***

### 4 Select accessories

**Options for accessories include:**
Wire management for under top or vertically to floor concealment of cords.

For product specification and pricing, visit: **jsifurniture.com/products/jsi-family/anthology/catalog** - Price & Configure section to build your complete JSI Anthology table.

# Anthology Base Specification:

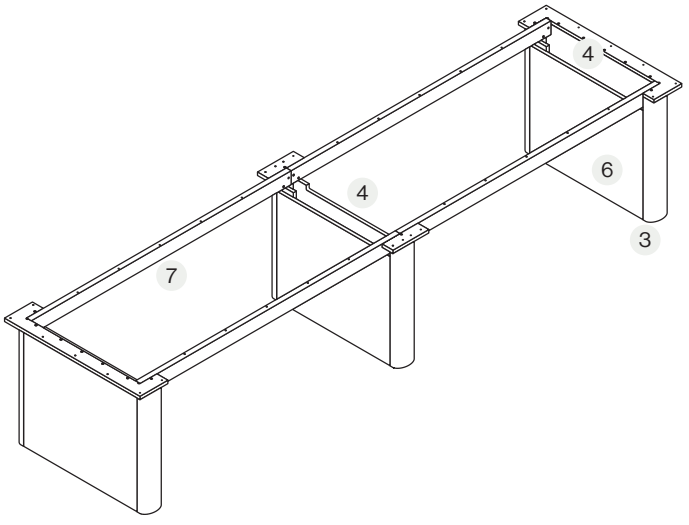

## Aspect Base Kit

• Available in TFL and Veneer surfaces with metal standard and additional powder coat finishes. Grain runs vertical.

• Seated height

## Details

1. Seated base is 27 ⅞" high, with 1 ⅛" top: 29".
2. Base kits are specific to top depth and width, and come in two- , three- , and four-base configurations.
   • Supports top sizes 36" - 60" depth and 72" – 240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Individual base depths are 21", 27", and 33". Base width is 5"
4. Integrated base interior cord management
   • Interior clearances for cable management are as follows:
   • Top and bottom opening is 2½"" wide.
   • Top opening is 14⅛" and bottom opening is 16 ½" for 21" base.
   • Top opening is 20⅛" and bottom opening is 22 ½" for 27" base.
   • Top opening is 26⅛" and bottom opening is 28 ½" for 33" base.
5. View table base widths 18" - 24" and 24" - 30"
   • 18" - 24" with two bases: narrow end base depth 18", and wide end base depth 24".
   • 24" - 30" with two bases: narrow end base depth 24", and wide end base depth 30".
   • 24" - 30" with three bases: narrow end base depth 24", center base depth 24" and wide end base depth 30".
   • 24" - 30" with four bases: narrow end base depth 24", center bases depth 24" and wide end base depth 30".
6. All bases in the kit feature a removable access panel on inside of each base.
   The center base can have removable access positioned in either direction.
7. Side stretcher rails, 3" high x 1 ⅛" deep and match base finish.
8. Attachment hardware for top ships with base.
9. Base includes levelers.
10. Order under top cord management separately.
    • See page 90 for options and details.

## Anthology Base Specification:

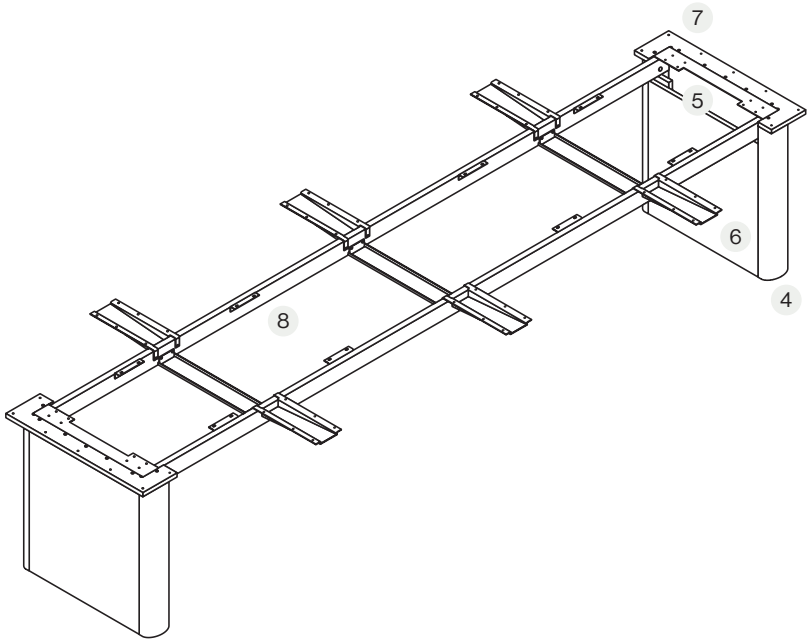

### Aspect BridgeLine Base Kit

• Available in TFL and Veneer surfaces. with metal standard and additional powder coat finishes. Grain runs vertical.

• Seated height

### Details

1. BridgeLine Base Kits feature a patent-pending 2 base support structure.
2. Seated base is 27⅞" high, with 1⅛" top: 29".
3. Base kits are specific to top depth and width, and come in 2-base configurations.
   • Supports top sizes 48", 54", 60" depth and 120" –192" width.
   • See page 9 for top to base matrix for application guidelines.
4. Individual base depths are 27" and 33". Base width is 5".
5. Integrated base interior cord management
   • Interior clearances for cable management are as follows:
   • Top and bottom opening is 2½"" wide.
   • Top opening is 20⅛" and bottom opening is 22½" for 27" base.
   • Top opening is 26⅛" and bottom opening is 28½" for 33" base.
6. Each base in the kit features a removable access door on inside of the base.
7. Mounting pads: metal center support structure and rails are black.
8. Two metal side beams are black 14-gauge tube, 3" high x 1".
9. Base includes levelers.
10. Attachment hardware for top ships with base.
11. Order under top cord management separately.
    • See page 90 for options and details.

## Anthology Base Specification:

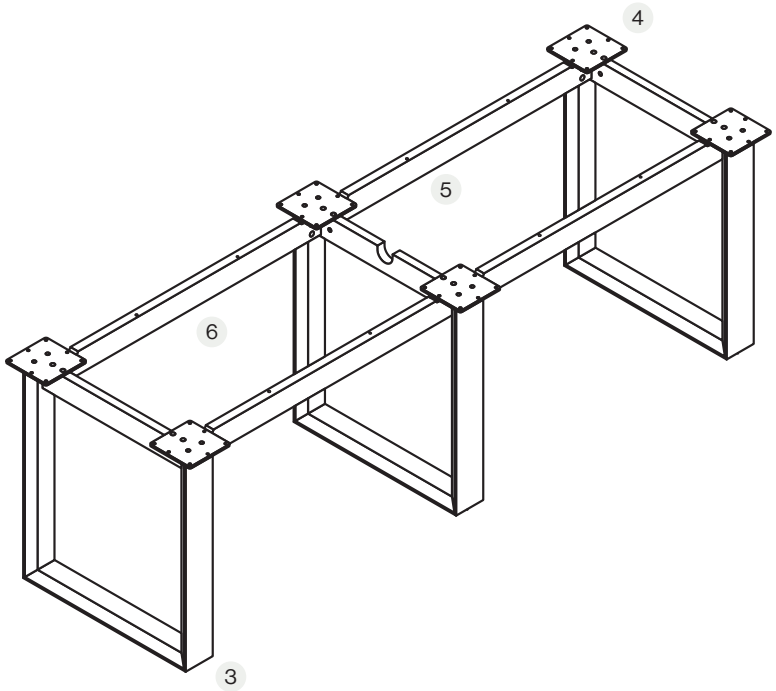

### Bevel Base Kit

• Available in maple, oak, and walnut solid wood. Wood species aligns with respective finish.

• Seated height

### Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top height, depth and width, and come in two- , three- , and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Base depths are 18", 24", and 30". Individual base dimensions are 4" wide x 1⅜" thick.
4. Metal mounting plates, with hardwood end and center rails
5. Center bases have a 2" diameter cord pass through for routing cords base to base under the table top.
6. Veneer side stretcher rails, 3" high x 1⅛" deep will match base finish.
7. Base includes levelers.
8. Attachment hardware for top ships with base.
9. Order cord management to floor and under top separately.
   • See page 90 for options and details.

## Anthology Base Specification:

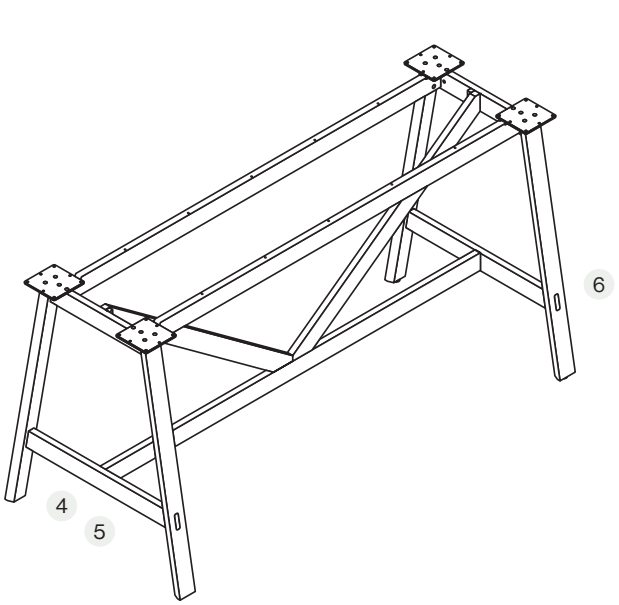

### Bridge Base Kit

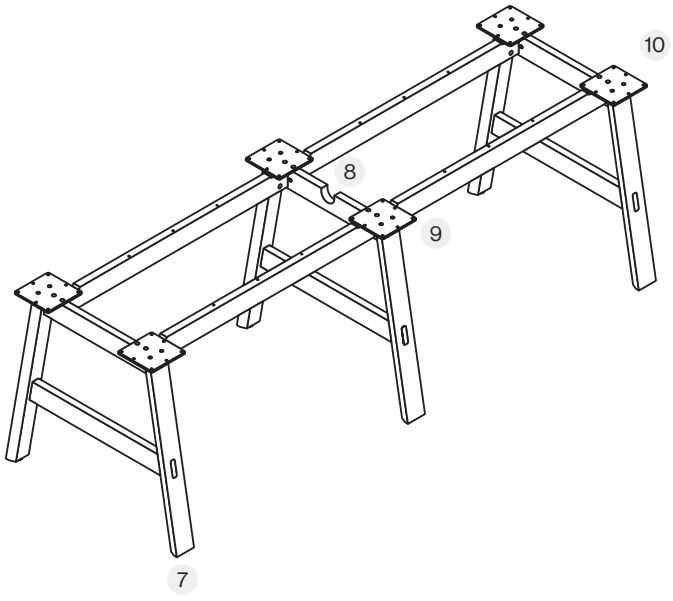

• Available in maple, oak, and walnut solid wood. Wood species aligns with respective finish.

• Seated, counter and bar height

### Details

1. Seated Base is 27⅞" high, Counter Height Base is 33⅞" and Bar Height Base is 40⅞" high, with 1⅛" top: 29", 35" and 42". Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top height, depth and width, and come in two- , three- , and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Seated Height Base depths are:
   • 24" at bottom , 14⅜" at top
   • 30" at bottom, 20⅜" at top
   • 36" at bottom, 26⅜" at top
4. Counter Height Base depths are:
   • 26" at bottom , 14⅜" at top with stretcher and angled frame supports
   • 32" at bottom, 20⅜" at top with stretcher and angled frame supports
5. Bar Height Base depths are:
   • 28½" at bottom , 14⅜" at top with stretcher and angled frame supports
   • 34½" at bottom, 20⅜" at top with stretcher and angled frame supports
6. Counter and bar height bases incorporate a wood web-cross support for added stability.
   • All Bridge style bases have bevel profile legs with visible end grain tenon cross rail detail.
7. Individual base dimensions are 3" wide x 1 7⁄16" thick. Horizontal rail is 3" high x 1" thick.
8. Center bases have a 2" diameter cord pass through for routing cords base to base under the table top.
9. Veneer side stretcher rails, 3" high x 1⅛" deep will match base finish.
10. Metal mounting plates, with hardwood end and center rails.
11. Attachment hardware for top ships with base
12. Base includes levelers.
13. Order cord management to floor and under top separately.
    • See page 90 for options and details.

# Anthology Base Specification:

## Conical Single Base & Cylinder Base Kit

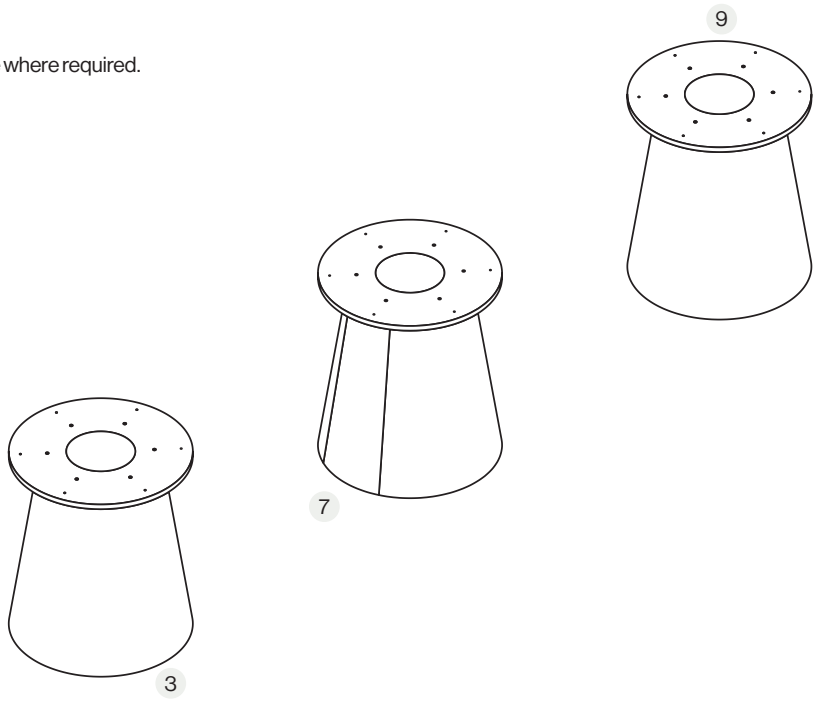

- Available in HPL and Veneer surfaces. Grain runs vertical.
- Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Single bases are for use with round tops from 36" –60". Available with or without access for cable management.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 42"-60" depth and 102" –240" width. Base kits come standard with a combination of access and non access doors. Access base can be in any base location to accommodate floor power.
   - 2 base kits include 1 access and 1 non access base
   - 3 base kits include 1 access and 2 non access bases
   - 4 base kits include 2 access and 2 non access bases
   - See page 9 for top to base matrix for application guidelines.
4. Seated Height Base support tops:
   - 36" - 42" round top - 20" base
   - 48" - 60" round top - 24" base
5. All 20" diameter bases are 20" at bottom and taper to 12" at top. Cable management opening is 6" at top and 9" at bottom.
6. All 24" diameter bases are 24" at bottom and taper to 16" at top. Cable management opening is 9" at the top and bottom.
7. Integrated base interior cord management
   - All models have a cord pass through at upper side of base for routing cords base to base under the table top.
   - Opening is 1⅝" wide x 2¼" high (not visible on line art below.)
8. Quick release removable access panel.
9. The counterweight will be included and will ship with the following bases:

- Single base for 36" -60" round tops.
- Base kits for 42" -48" depth and 102" -240" width tops.
- Counterweight material bags will limit cord routing through access bases.

10. Black particle board mounting pad with a attachment hardware for top ships with base.
11. Base includes levelers.
12. Selected models ship with metal support that runs with width of base where required.
13. Order under top cord management separately.
    - See page 90 for options and details.

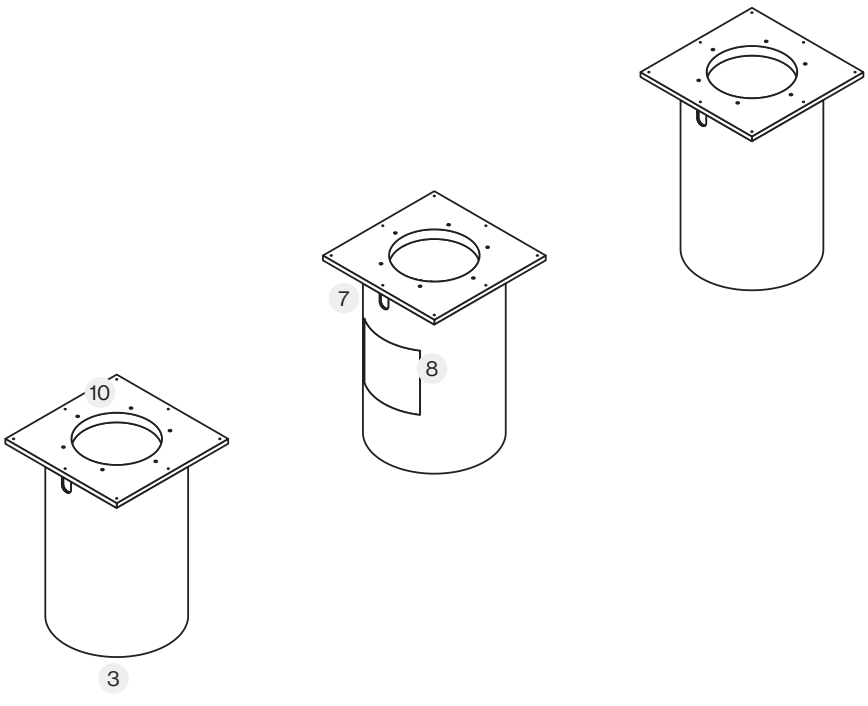

# Anthology Base Specification:

## Cylinder Single Base & Cylinder Base Kit

- Available in HPL and Veneer surfaces. Grain runs vertical.
- Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Single bases are for use with round tops from 36" –60". Available with or without access for cable management.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 42"-60" depth and 102" –240" width. Base kits come standard with a combination of access and non access doors. Access base can be in any base location to accommodate floor power.
   - 2 base kits include 1 access and 1 non access base
   - 3 base kits include 1 access and 2 non access bases
   - 4 base kits include 2 access and 2 non access bases
   - See page 9 for top to base matrix for application guidelines.
4. Seated Height Single Base support tops:
   - 36" - 42" round top - 18" base
   - 48" - 60" round top - 24" base
5. 18" model bases: Cable management opening is 11½" diameter at top 7" diameter at bottom.
6. 24" model bases: Cable management opening is 15" diameter at the top and 9" diameter at bottom.
7. Integrated base interior cord management
   - All models have a cord pass through at upper side of base for routing cords base to base under the table top. Opening is 1⅝" wide x 2¼" height
8. Access base has a 10" x 10" square hinged door.
9. The counterweight will be included and will ship with the following bases:
   - Single base for 36" - 60" round tops.
   - 18" Base kits for 42" - 48" depth and 102" -240" width tops.
   - 24" Base kits for 54" - 60" depth and 102" -240" width tops.
   - Counterweight material bags will limit cord routing through access bases.
10. Black particle board mounting pad with a attachment hardware for top ships with base
11. Base includes levelers.
12. Selected models ship with metal support that runs with width of base where required
13. Order under top cord management separately.
    - See page 90 for options and details.

# Anthology Base Specification:

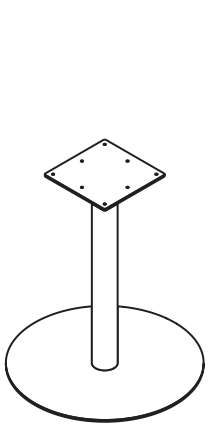

## Disc Single Base

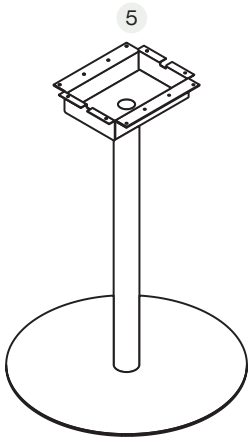

• Available in metal standard and additional powdercoat finishes.

• Seated, counter and bar height

## Details

1. Seated Base is 28" high, Counter Height Base is 35" and Bar Height Base is 41" high, with 1⅛" top: 29⅛", 36⅛" and 42⅛".
2. Single bases are for use with round tops from 24" – 40". Available with or without access for cable management.
   • See page 9 for top to base matrix for application guidelines.
3. Seated Height Base support tops:
   • 24" - 30" round top - 18" base
   • 36" - 42" round top - 23" base
   • 48" round top - 28" base
4. Counter and Bar Height Base support tops:
   • 24" - 36" round top - 23" base
   • 42" - 48" round top - 28" base
5. Access bases have integrated base interior cord management.
   • Cords pass through top mounting channel into the base column, routing cords to the floor. Column top opening is 2" diameter with 1 ⅝" opening at the floor.
   • Metal top access channel covers match the base finish and enclose opening after cords are routed to the floor. Top access covers have cord pass-thru notches.
   • Base levers provide space below disc to allow cord routing
6. Base includes levelers.
7. Order under top cord management separately.
   • See page 90 for options and details.

# Anthology Base Specification:

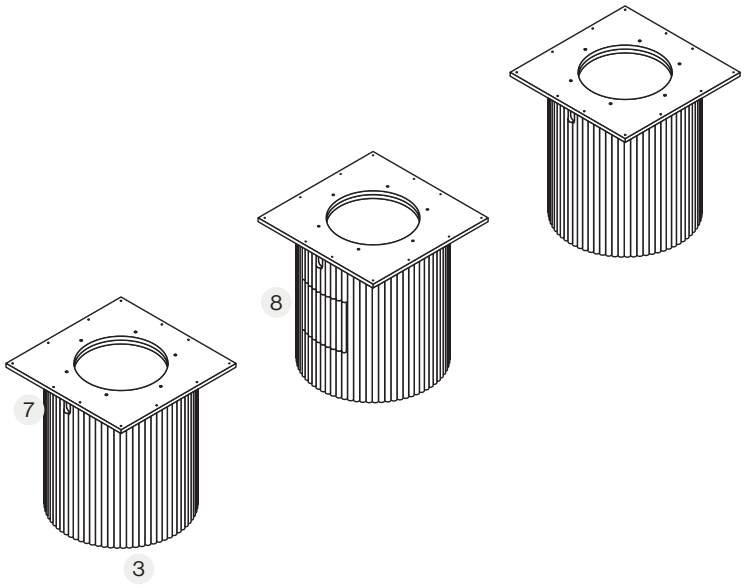

## Fluted Cylinder Single Base & Fluted Cylinder Base Kit

• Available in maple, oak, and walnut fluted solid wood. Wood species will align to respective finish. Grain runs vertical.

• Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Single bases are for use with round tops from 36" –60". Available with or without access for cable management.
   • See page 9 for top to base matrix for application guidelines.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations. Supports top sizes 42"-60" depth and 102" –240" width. Base kits come standard with a combination of access and non access doors. Access base can be in any base location to accommodate floor power.
   • 2 base kits include 1 access and 1 non access base
   • 3 base kits include 1 access and 2 non access bases
   • 4 base kits include 2 access and 2 non access bases
4. Seated Height Base support tops:
   • 36" - 42" round top - 18" base
   • 48" - 60" round top - 24" base
5. All 18 model bases are 19⅛" diameter with fluted profile. Cable management opening is 11½" diameter at top 7" diameter at bottom.
6. All 24 model bases are 24⅝" diameter with fluted profile. Cable management opening is 15" diameter at the top and 9" diameter at bottom.
7. Integrated base interior cord management
   • All models have a cord pass through at upper side of base for routing cords base to base under the table top. Opening is 1 ⅝" wide x 2 ¼" height.
8. Access base has a 10" x 10" square hinged door.
9. The counterweight will be included and will ship with the following bases:
   • Single base for 36" - 60" round tops.
   • Base kits for 42" - 48" depth and 102" -240" width tops.
   • Counterweight material bags will limit cord routing through access bases.
10. Black particle board mounting pad with a attachment hardware for top ships with base
11. Base includes levelers.
12. Selected models ship with metal support that runs with width of base where required.
13. Order under top cord management separately.
    • See page 90 for options and details.

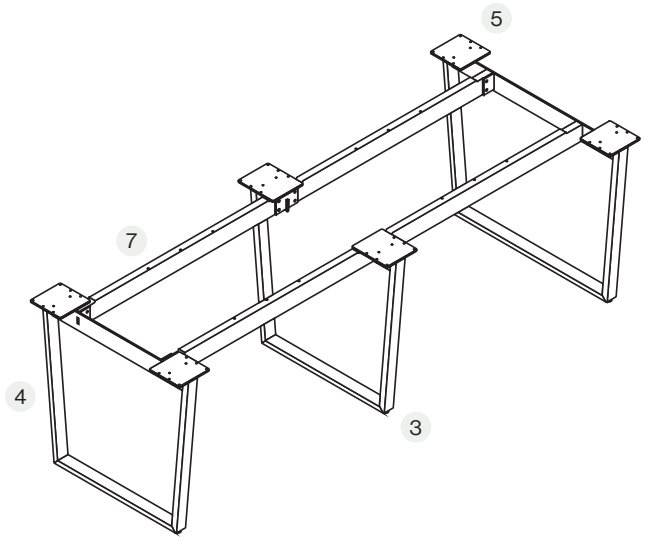

# Anthology Base Specification:

## Frame Base Kit

- Available in metal standard and additional powdercoat paint and chrome finishes.
- Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   - Supports top sizes 36"-60" depth and 72" –240" width.
   - See page 9 for top to base matrix for application guidelines.
3. The bottom and sides of each base are 14 gauge, 2" x 1" rectangle tube.
4. Bases are tapered in design.
   - 18" depth bottom, tapers to 22⅞" at top.
   - 24" depth bottom, tapers to 28⅞" at top.
   - 30" depth bottom, tapers to 34⅞" at top.
5. Metal mounting plates, and end rails are painted to match base.
6. View table base narrow to wide depths are 18" - 24" and 24" - 30".
   - 18" - 24" with two bases: narrow end base depth 18", and wide end base depth 24".
   - 24" - 30" with two bases: narrow end base depth 24", and wide end base depth 30".
   - 24" - 30" with three bases: narrow end base depth 24", center base depth 24" and wide end base depth 30".
   - 24" - 30" with four bases: narrow end base depth 24", center bases depth 24" and wide end base depth 30".
7. Side stretcher rails, 3" high x 1⅛" deep Black TFL.
8. Base includes levelers.
9. Attachment hardware for top ships with base.
10. Magnetic Metal Wire Manager sold separately.
    - See page 90 for options and details.
11. Order under top cord management separately.
    - See page 90 for options and details.

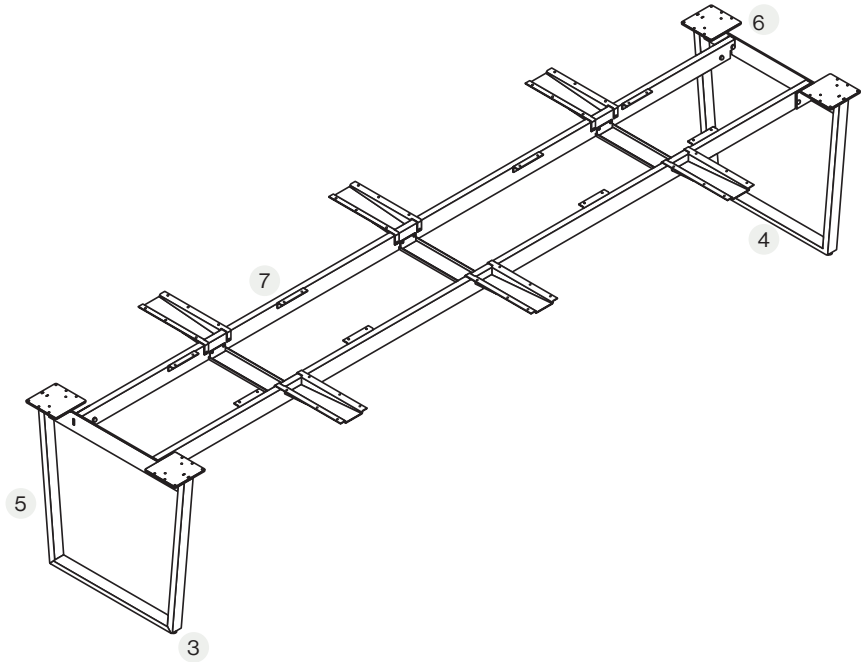

## Anthology Base Specification:

### Frame BridgeLine Base Kit

- Available in metal standard and additional powdercoat paint and chrome finishes.
- Seated height

### Details

1. BridgeLine Base Kits feature a patent-pending 2 base support structure.
2. Seated base is 27⅞" high, with 1⅛" top: 29".
3. Base kits are specific to top depth and width, and come in 2-base configurations.
   - Supports top sizes 48", 54", 60" depth and 120" –192" width.
   - See page 9 for top to base matrix for application guidelines.
4. Bottom and sides of each base are 14 gauge, 2" x 1" rectangle tube
5. Bases are tapered in design
   - 24" depth bottom, tapers to 28⅞" at top.
   - 30" depth bottom, tapers to 34⅞" at top.
6. Metal mounting plates and center support structure are black. End rails are painted to match the base.
7. Two metal side beams are black 14-gauge tube, 3" high x 1" in.
8. Base includes levelers.
9. Attachment hardware for top ships with base
10. Magnetic metal wire manager sold separately.
    - See page 90 for options and details.
11. Order under top cord management separately.
    - See page 90 for options and details.

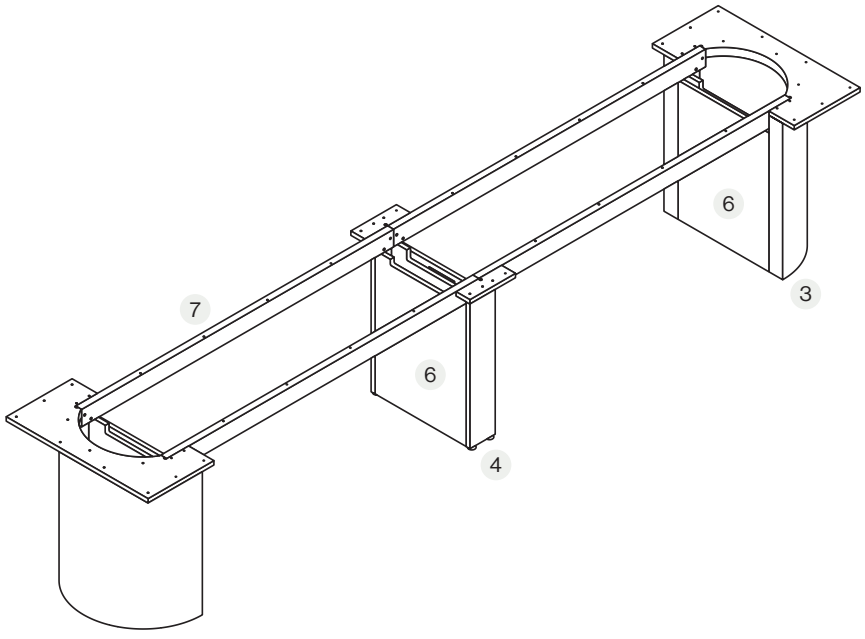

## Anthology Base Specification:

### Half Cylinder Base Kit

- Available in HPL and Veneer surfaces. Grain runs vertical.
- Seated height

### Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   - Supports top sizes 40"-60" depth and 72" –240" width.
   - See page 9 for top to base matrix for application guidelines.
3. End half cylinder base depths and widths are: 24"depth x 12"width for 24", and 30"depth x 15 5⁄16"width for 30".
4. Center base depths are 24", and 30". Base width is 5".
5. Integrated base interior cord management
   - Interior clearances for cable management are as follows:
   - End half cylinder base top and bottom opening is:
   - 12" depth top, 6" diameter bottom hole for 24" base.
   - 15⅝" depth top, 6" diameter bottom hole for 30" base.
   - Center rectangular base top and bottom opening depth and width are:
   - Top and bottom opening is: 15½"depth, 2⅞"width for 24" base.
   - Top and bottom opening is: 21½"depth, 2⅞"width for 30" base
6. All bases in the kit feature a removable access panel on inside of each base. The center base can have removable access positioned in either direction.
7. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
8. Attachment hardware for top ships with base
9. Base includes levelers.
10. Order under top cord management separately.
    - See page 90 for options and details.

## Anthology Base Specification:

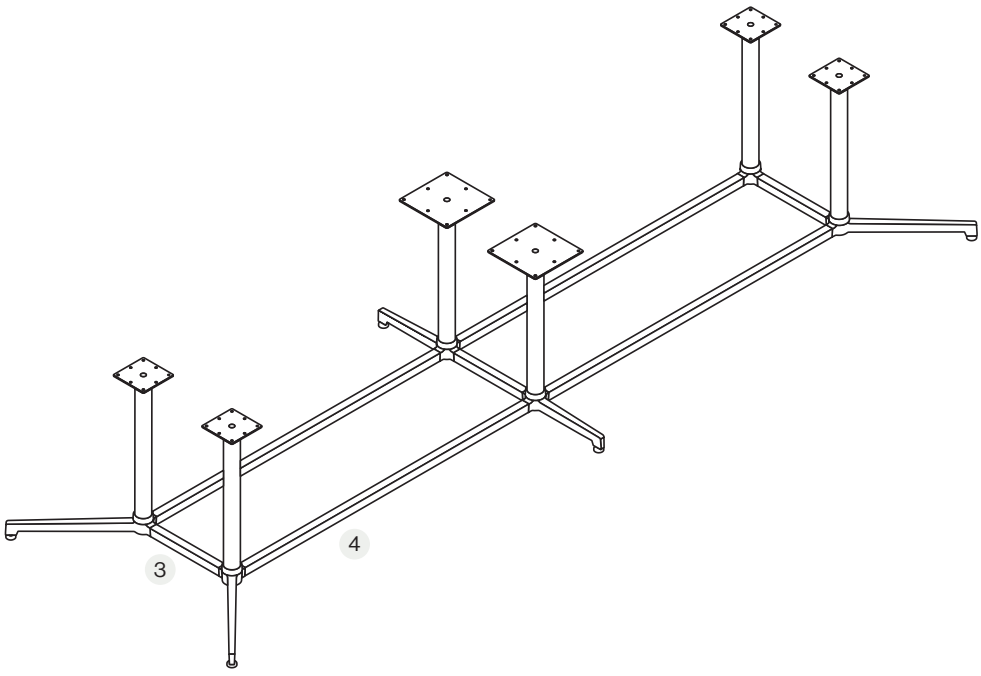

### Lok Y Base Kit

• Available in metal standard powdercoat paint or two-tone with polished aluminum foot and cross linking stretcher with contrasting metal powdercoat finish column.

• Seated, counter and bar height

### Details

1. Seated base is 27⅞" high, Counter Height Base is 34⅞" and Bar Height Base is 40⅞" high, with 1⅛" top: 29", 36" and 42".
2. Base kits are specific to top height, depth and width, and come in two- , three- , and four-base configurations.
   • Supports top sizes 36"- 60" depth and 72" –240" width.
   • Top sizes 36" - 42" depth have a single vertical support column.
   • Top sizes 48" - 60" depth have a two vertical support columns.
   • See page 9 for top to base matrix for application guidelines.
3. Seated, Counter and Bar Height Base depths are:
   • 24" at bottom, 24" base with single vertical column per base.
   • 28" at bottom, 28" base with single vertical column per base.
   • 35" at bottom, 35" base with double vertical column per base.
   • 40" at bottom, 40" base with double vertical column per base.
   • 45" at bottom, 45" base with double vertical column per base.
4. Bases have cross linking 2⅝" high stretcher at base of vertical column, 3½" to bottom from floor.
5. Attachment hardware for top ships with base.
6. Base includes levelers.
7. Selected models ship with metal support that runs with width of base where required.
8. Order cord management to floor and under top separately.
   • See page 90 for options and details.

## Anthology Base Specification:

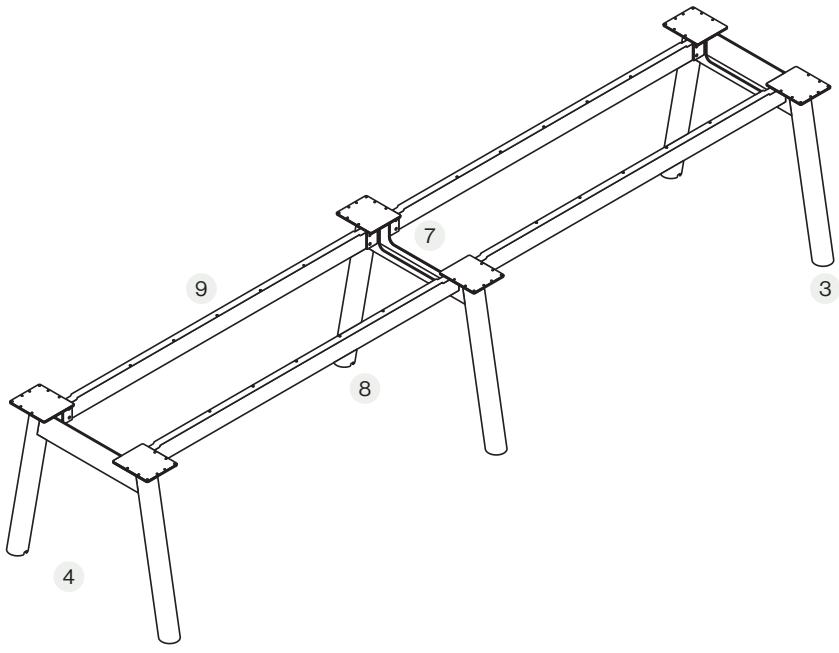

### Oblique Base Kit

• Available in metal standard and additional powdercoat finishes.

• Seated, counter and bar height

### Details

1. Seated base is 27⅞" high, Counter Height Base is 34⅞"and Bar Height Base is 40⅞" high, with 1⅛" top: 29", 36" and 42".
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Legs are 14 gauge, 3" round tube.
4. Seated Height Base depths are:
   • 24" models are 27" at bottom, 17⅜" at top.
   • 30" models are 33" at bottom, 23⅜" at top.
   • 36" models are 39" at bottom, 29⅜" at top.
5. Counter Height Base depths are:
   • 24" models are 29½" at bottom, 17⅜" at top.
   • 30" models are 35½" at bottom, 23⅜" at top.
   • 36" models are 41½" at bottom, 29⅜" at top.
6. Bar Height Base depths are:
   • 24" models are 31½" at bottom, 17⅜" at top.
   • 30" models are 37½" at bottom, 23⅜" at top.
   • 36" models are 43½" at bottom, 29⅜" at top.
7. Center bases allow cord pass through for routing cords base to base under the table top.
8. All bases have integrated interiot leg cord management
   • Cord passes through upper end of legs for routing cords vertically to floor. Column exit opening at the floor is 1½" diameter.
   • Leg top access opening, next to side stretchers routes vertically through the column to the floor with ½" cord exit notch.
   • Base levers provide space below legs to allow cord exit.
8. Metal mounting plates, and end rails are painted to match base.
9. Side stretcher rails, 3" high x 1⅛" deep Black TFL.
10. Base includes levelers.
11. Attachment hardware for top ships with base.
13. Order under top cord management separately.
    • See page 90 for options and details.

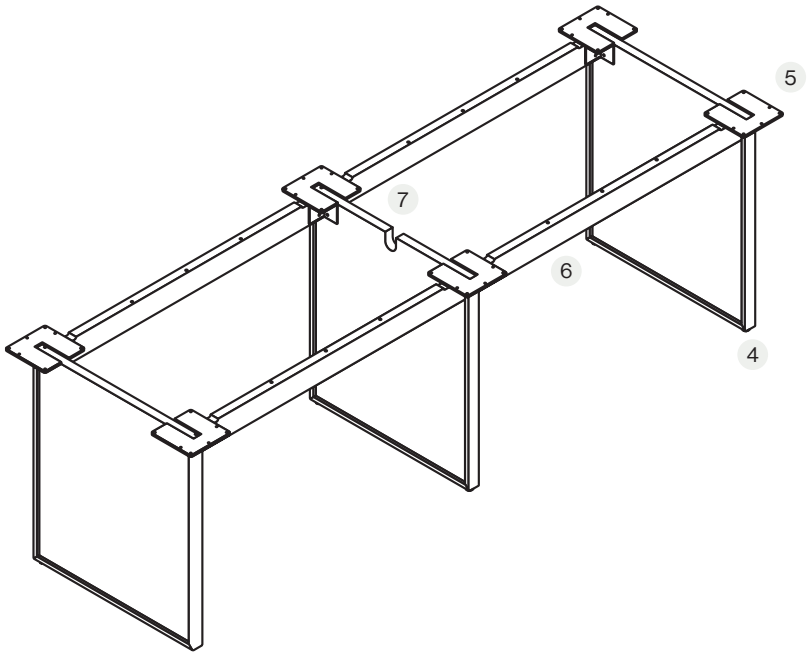

## Anthology Base Specification:

### Outline Base Kit

• Available in TFL and Veneer surfaces with standard or additional finishes powdercoat or chrome metal accent trim. Grain runs vertical on inset panel.
• Seated height

### Details

1. Base is 27⅞" high, 29" with 1⅛" top.
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Individual base depths are 18", 24", and 30. Base width is 1½".
4. Base design features a 1⅛" thick panel with a ¾" x 1½", 14-gauge metal accent trim at sides and bottom.
5. Metal mounting plates.
6. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
7. Center bases have a 1⅝" wide x 2" high cord pass through for routing cords base to base under the table top.
8. Base includes levelers.
9. Attachment hardware for top ships with base
10. Order cord management to floor separately.
    • See page 90 for options and details.

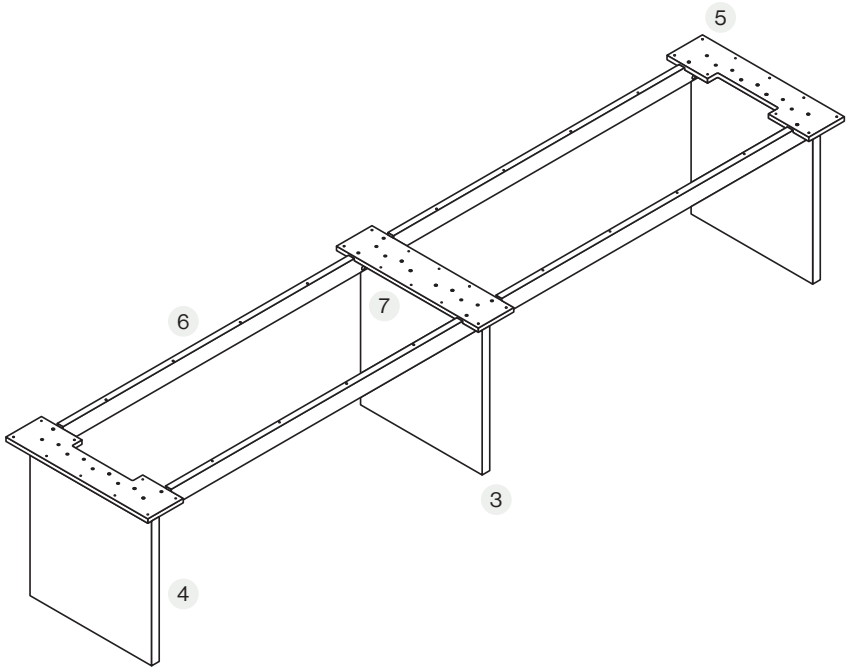

## Anthology Base Specification:

### Panel Base Kit

- Available in HPL and Veneer surfaces. Grain runs vertical
- Seated height

### Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   - Supports top sizes 36"-60" depth and 72" –240" width.
   - See page 9 for top to base matrix for application guidelines.
3. Individual base depths are 18", 24", and 30". Base width is 1½""
4. Base design features a 1½" thick panel
5. ¾" thick plywood mounting plates.
6. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
7. Center bases have a 2½" wide x 1⅝" high cord pass through for routing cords base to base under the table top.
8. Base includes levelers.
9. Attachment hardware for top ships with base
10. Order cord management to floor and under top separately.
    - See page 90 for options and details.

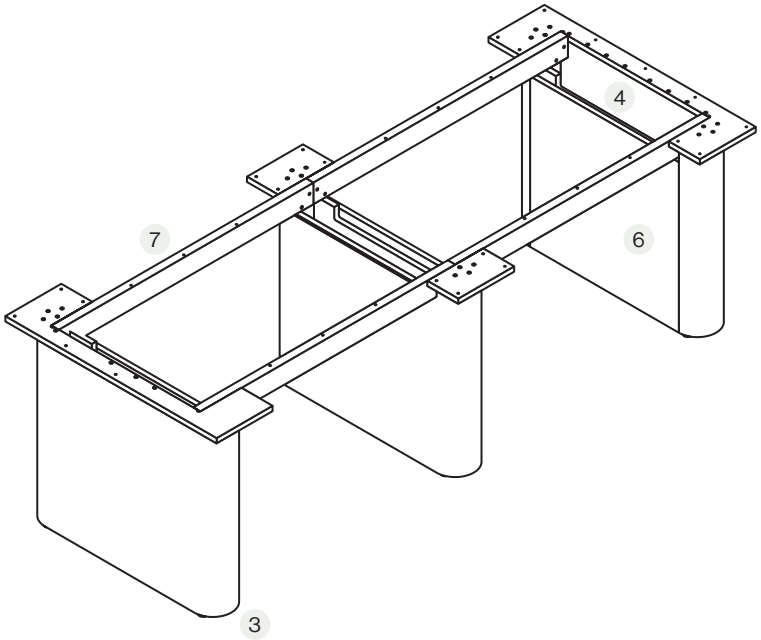

# Anthology Base Specification:

## Racetrack Base Kit

- Available in HPL and Veneer surfaces. Grain runs vertical
- Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top depth and width, and come in two- , three- , and four-base configurations.
   - Supports top sizes 36"-60" depth and 72" –240" width.
   - See page 9 for top to base matrix for application guidelines.
3. Individual base depths are 18", 24", and 30". Base width is 6"
4. Integrated base interior cord management
   - Interior clearances for cable management are as follows:
   - Top opening is 3⅜" wide, bottom opening is 2½" wide.
   - Top and bottom depth opening is:
   - 8⅞" for 18" base
   - 14⅞" for 24" base
   - 20⅞" for 30" base
5. View table base widths 18" - 24" and 24" - 30"
   - 18" - 24" with two bases: narrow end base depth 18", and wide end base depth 24".
   - 24" - 30" with two bases: narrow end base depth 24", and wide end base depth 30".
   - 24" - 30" with three bases: narrow end base depth 24", center base depth 24" and wide end base depth 30".
   - 24" - 30" with four bases: narrow end base depth 24", center bases depth 24" and wide end base depth 30".
6. All bases in the kit feature a removable access panel on inside of each base. The center base can have removable access positioned in either direction.
7. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
8. Attachment hardware for top ships with base
9. Base includes levelers.
10. Order under top cord management separately.
    - See page 90 for options and details.

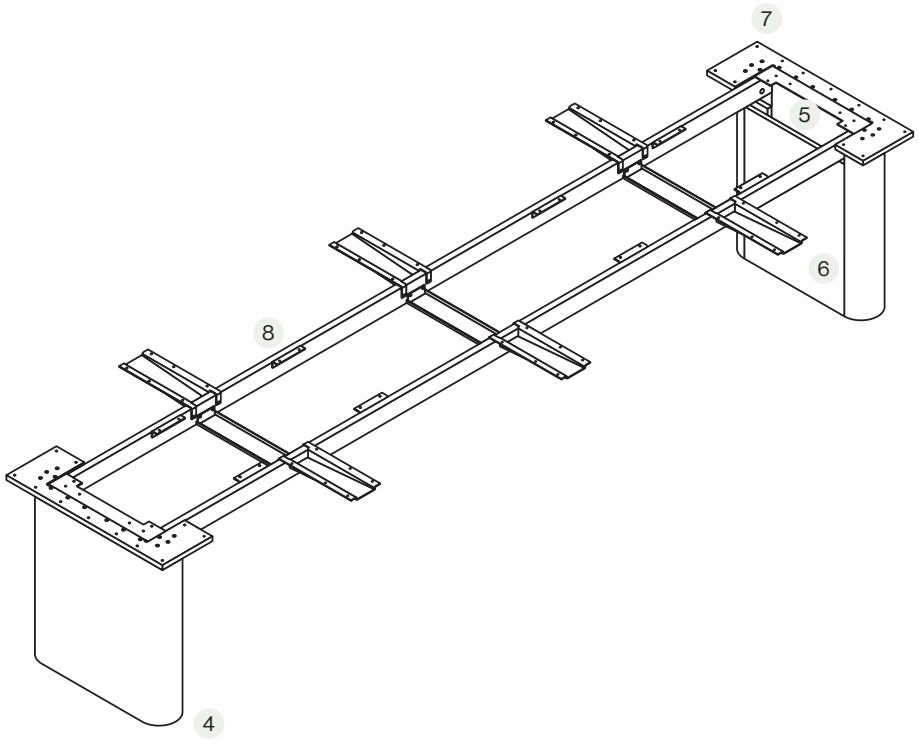

# Anthology Base Specification:

## Racetrack BridgeLine Base Kit

- Available in HPL and Veneer surfaces. Grain runs vertical
- Seated height

## Details

1. BridgeLine Base Kits feature a patent-pending 2 base support structure.
2. Seated base is 27⅞" high, with 1⅛" top: 29".
3. Base kits are specific to top depth and width, and come in 2-base configurations.
   - Supports top sizes 48", 54", 60" depth and 120" –192" width.
   - See page 9 for top to base matrix for application guidelines.
4. Individual base depths are 24" and 30". Base width is 6".
5. Integrated base interior cord management
   - Interior clearances for cable management are as follows:
   - Top opening is 3⅜" wide, bottom opening is 2½" wide.
   - Top and bottom depth opening is:
   - 14⅞" for 24" base
   - 20⅞" for 30" base
6. Each base in the kit features a removable access door on inside of the base.
7. Mounting pads: metal center support structure and rails are black.
8. Two metal side beams are black 14-gauge tube, 3" high x 1".
9. Base includes levelers.
10. Attachment hardware for top ships with base
10. Order under top cord management separately.
    - See page 90 for options and details.

# Anthology Base Specification:

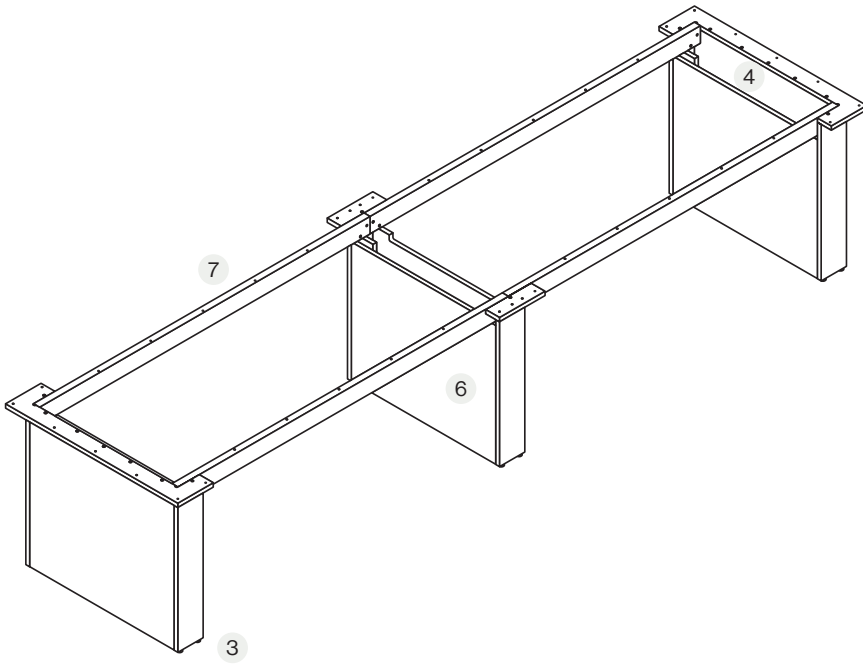

## Rectangle Base Kit

• Available in TFL and Veneer surfaces. Grain runs vertical.

• Seated, counter and bar height

## Details

1. Seated Base is 27⅞" high, Counter Height Base is 33⅞" and Bar Height Base is 40⅞" high, with 1⅛" top: 29", 35" and 42".
2. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Individual base depths are 18", 24", and 30". Base width is 5"
4. Integrated base interior cord management
   • Interior clearances for cable management are as follows:
   • Top and bottom opening is 2⅞" wide.
   • Top and bottom depth opening is:
   • 14⅛" for 18" base
   • 20⅛" for 24" base
   • 26⅛" for 30" base
5. View table base widths 18" - 24" and 24" - 30"
   • 18" - 24" with two bases: narrow end base depth 18", and wide end base depth 24".
   • 24" - 30" with two bases: narrow end base depth 24", and wide end base depth 30".
   • 24" - 30" with three bases: narrow end base depth 24", center base depth 24" and wide end base depth 30".
   • 24" - 30" with four bases: narrow end base depth 24", center bases depth 24" and wide end base depth 30".
6. All bases in the kit feature a removable access panel on inside of each base. The center base can have removable access positioned in either direction.
7. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
8. Attachment hardware for top ships with base
9. Base includes levelers.
10. Order under top cord management separately.
    • See page 90 for options and details.

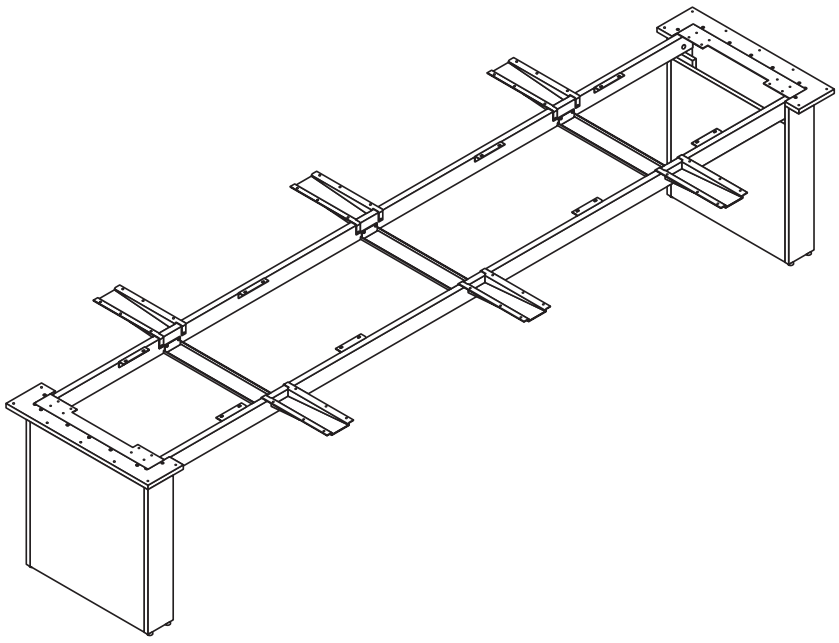

# Anthology Base Specification:

## Rectangle BridgeLine Base Kit

• Available in TFL and Veneer surfaces. Grain runs vertical.
• Seated height

## Details

1. BridgeLine Base Kits feature a patent-pending 2 base support structure.
2. Seated base is 27⅞" high, with 1⅛" top: 29".
3. Base kits are specific to top depth and width, and come in 2-base configurations.
   • Supports top sizes 48", 54", 60" depth and 120" –192" width.
   • See page 9 for top to base matrix for application guidelines.
4. Individual base depths are 24" and 30". Base width is 5".
5. Integrated base interior cord management
   • Interior clearances for cable management are as follows:
   • Interior clearances for cable management are as follows:
   • Top and bottom opening is 2⅞" wide.
   • Top and bottom depth opening is:
   • 20⅛" for 24" base
   • 26⅛" for 30" base
6. Each base in the kit features a removable access door on inside of the base.
7. Mounting pads: metal center support structure and rails are black.
8. Two metal side beams are black 14-gauge tube, 3" high x 1".
9. Base includes levelers.
10. Attachment hardware for top ships with base.
11. Order under top cord management separately.
    • See page 90 for options and details.

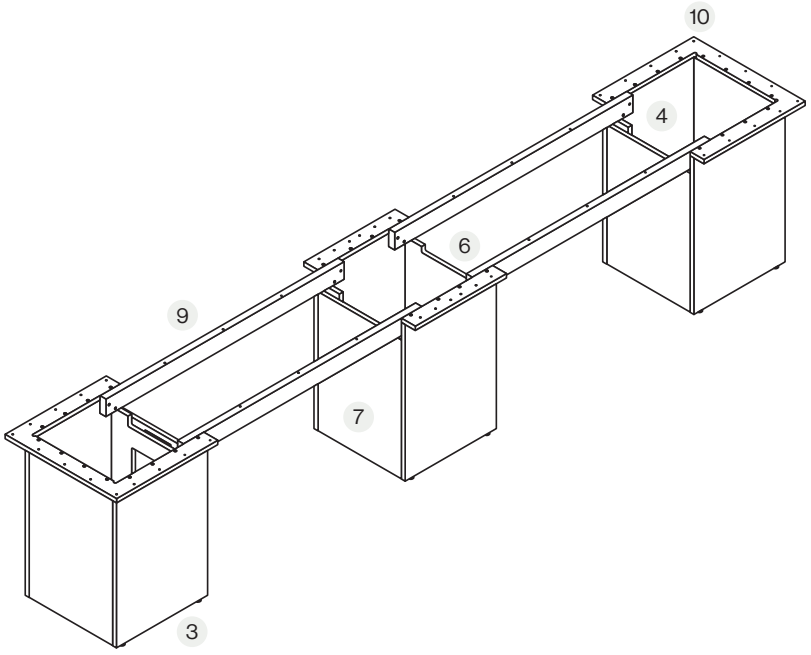

# Anthology Base Specification:

## Square Single Base & Square Base Kit

- Available in TFL and Veneer surfaces. Grain runs vertical.
- Seated height

## Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Single bases are for use with square and soft square tops from 36" –60". Standard with access for cable management.
3. Base kits are specific to top depth and width, and come in two-, three-, and four-base configurations.
   - Supports top sizes 42"-60" depth and 102" –240" width. All Square base kits feature access doors on all bases.
   - See page 9 for top to base matrix for application guidelines.
4. Integrated base interior cord management
   - Interior clearances for cable management are as follows:
   - 18" model bases: Cable management opening is 15½" X 14⅛"at top 7" diameter at bottom.
   - 24" model bases: Cable management opening is 21⅞" at top and 9" diameter at bottom.
5. Seated Height Single Base support tops:
   - 36" - 42" square and soft square top - 18" base
   - 48" - 60" square and soft square top - 24" base
6. All models have a cord pass through at upper side of base for routing cords into the base and base-to-base under the table top.
   - 3¼" high from top of removable panel to under side of top and:
   - 18" model bases: 16½" width.
   - 24" model bases: 19½" width.
7. Square bases have a removable panel:
   - 18" model bases: 16½" wide X 24⅝ high
   - 24" model bases: 22½" wide X 24⅝" high
8. The counterweight will be included and will ship with the following bases:
   - Single base for 36" -60" square tops.
   - Base kits for 42" -48" depth and 102" -240" width tops.
   - Counterweight material bags will limit cord routing through access bases.
9. Side stretcher rails, 3" high x 1⅛" deep and match base finish.
10. Black particle board mounting pad with a attachment ha
11. Base includes levelers.
12. Order under top cord management separately.
    - See page 90 for options and details.

# Anthology Base Specification:

## Square Disc Base Kit

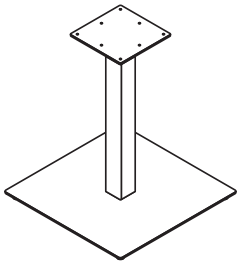

- Available in metal standard and additional powdercoat finishes.
- Seated, counter and bar height

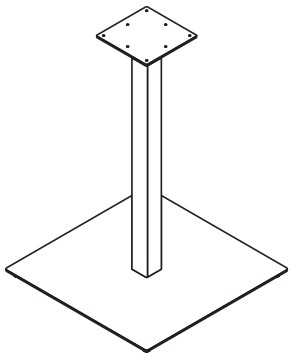

## Details

1. Seated Base is 28" high, Counter Height Base is 35" and Bar Height Base is 41" high, with 1⅛" top: 29⅛", 36⅛" and 42⅛".
2. Single bases are for use with round, square, and soft square tops from 24" – 42".

   Seated Height Base support tops:
   - 24" round top - 18" base
   - 30" - 36" round top - 23" base
   - 42" round top - 28" base
   - 24" - 30" square and soft square top - 18" base
   - 36" square and soft square top - 23" base
   - 42" square and soft square top - 28" base

   Counter and Bar Height Base support tops:
   - 24" round top - 18" base
   - 30" - 36" round top - 23" base
   - 42" round top - 28" base
   - 24" - 36" square and soft square top - 18" base
   - 30" - 36" square and soft square top - 23" base
   - 42" square and soft square top - 28" base
   - See page 9 for top to base matrix for application guidelines.
5. Base includes levelers.
6. Order cord management to floor and under top separately.
   - See page 90 for options and details.

## Anthology Base Specification:

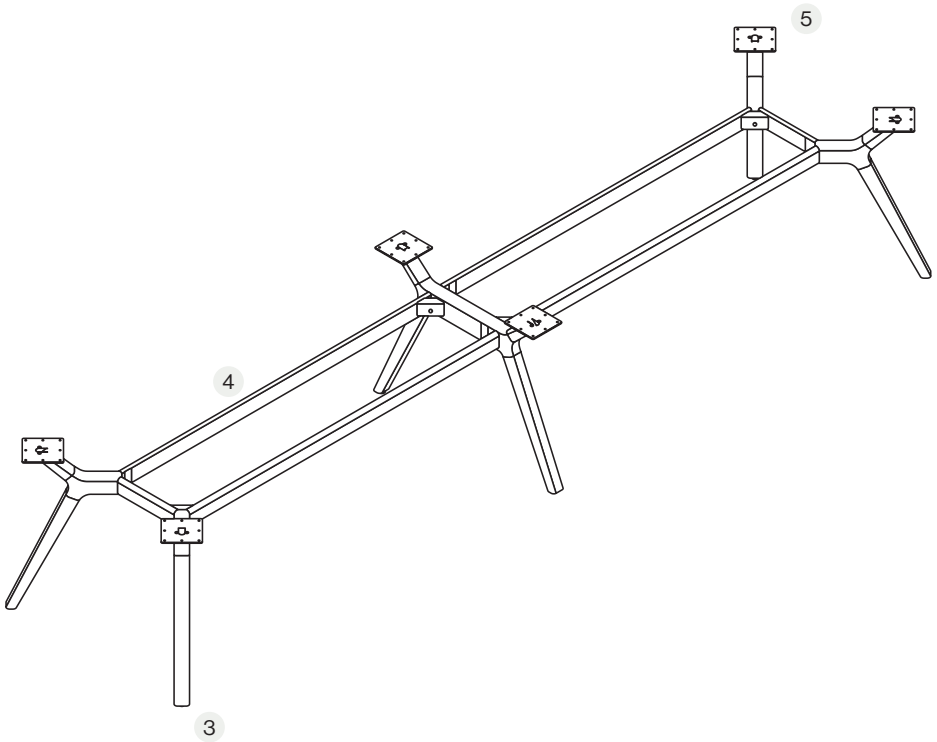

### Truss Base Kit

• Available in maple, oak, and walnut solid wood. Wood species aligns with respective finish.

• Seated height

### Details

1. Seated base is 27⅞" high, with 1⅛" top: 29".
2. Base kits are specific to top height, depth and width, and come in two- , three- , and four-base configurations.
   • Supports top sizes 36"-60" depth and 72" –240" width.
   • See page 9 for top to base matrix for application guidelines.
3. Individual base leg dimensions are 2½" wide, 1½" thick.
4. Solid wood stretcher rails, 3" high x 1⅛" deep will match base finish.
   • Stretcher rails are 4½" to top and 7½" to bottom edge from the underside of the top.
5. Metal mounting plates.
6. Attachment hardware for top ships with base
7. Base includes levelers.
8. Order cord management to floor and under top separately.
   • See page 90 for options and details.

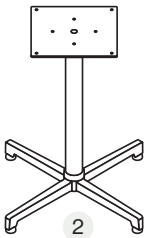

# Anthology Base Specification:

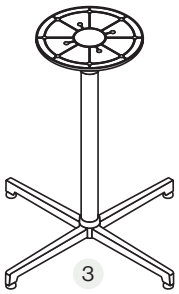

## X and X4 Base

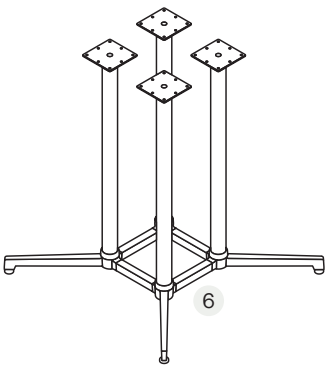

• Available in JSI metal standard powdercoat paint or two-tone with polished aluminum foot and cross linking stretcher, with contrasting metal powdercoat finish column.
• Seated, counter and bar height

## Details

1. Seated base is 27⅞" high, Counter Height Base is 34⅞" and Bar Height Base is 40⅞"high, with 1⅛" top: 29", 36" and 42".
2. Single bases are for use with round, square and soft square tops.
   • Single vertical support column X base available in standard or access base models.
   • Access X base models provide a vertical cord management.
   • See page 9 for top to base matrix for application guidelines.
3. Access X bases have integrated base interior cord management channel.
   • Cords pass through top mounting channel into the base column, routing cords to the floor. Column top opening is 1½" diameter with exit opening for straight 3-prong plug at the floor.
4. Seated Height Base support tops:
   • 30" round top - 26" X base
   • 36" - 48" round top - 32" X base
   • 54" - 60" round top - 38" X4 base
   • 30" square and soft square top - 26" X base
   • 36" square and soft square top - 32" X base
   • 42" square and soft square top - 38" X base
   • 48" - 60" square and soft square top - 38" X4 base
5. Counter and Bar Height Base support tops:
   • 30" round top - 26" X base
   • 36" - 42" round top - 32" X base
   • 48" round top - 38" X base
   • 54" - 60" round top - 38" X4 base
   • 30" square and soft square top - 26" X base
   • 36" square and soft square top - 32" X base
   • 42" square and soft square top - 38" X base
   • 48" - 60" square and soft square top - 38" X4 base
6. X4 base have four vertical columns with cross linking 2⅝" high stretcher at base of vertical columns, 3½" to bottom from floor.
7. Attachment hardware for top ships with base.
8. Base includes levelers.
9. Order cord management to floor for non-access bases and under top separately.
   • See page 90 for options and details.

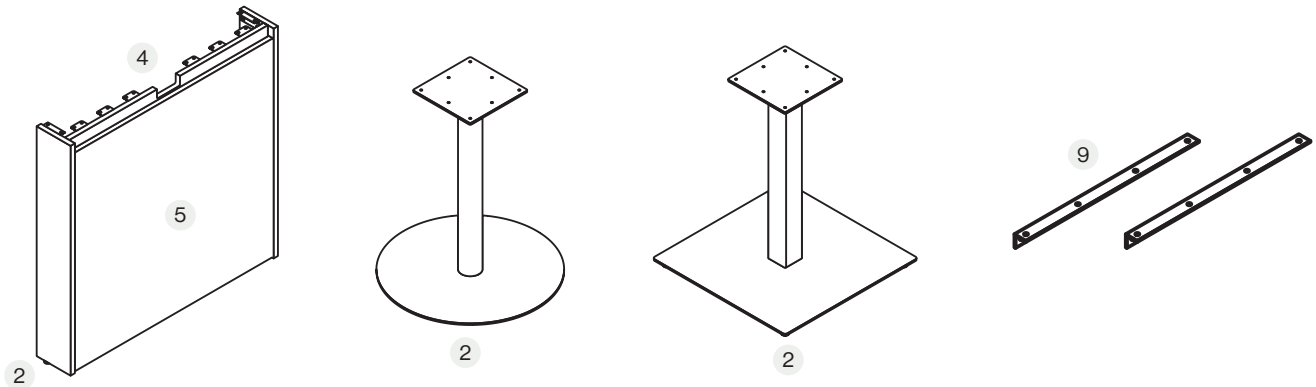

# Anthology Base Specification:

## Media Base

• Wall support base available in HPL and Veneer surfaces. Grain runs vertical. Disc support base available in metal standard and additionalpowdercoat finishes.
• Seated, counter and bar height

## Details

1. Seated base is 27⅞" high, Counter Height Base is 34⅞" and Bar Height Base is 40⅞" high, with 1⅛" top: 29", 36" and 42".
2. 36" wall base kit, and 18" diameter seated, counter, and bar height Disc and Square Disc base is specified seperately to support the extension end of the top.
3. Individual wall base depth is 35¹⁵⁄₁₆", 5" width.
4. Integrated wall base interior cord management
   • Interior clearances for cable management are as follows:
   • Top and bottom opening is 34⁷⁄₁₆" dept, 4½" wide.
   • Top and bottom depth and width opening is:
   • 34⁷⁄₁₆" depth, 4½" width.
5. All wall bases feature a removable access panel.
   • Removing access panel allows cords to be routed to power and data connections in the wall.
   • Wall base provides space to store excess cords for vertical wire management.
7. Attachment hardware for top ships with base
8. Wall support, Disc and Square Disc bases include levelers.
9. Wall base can be replaced with two GPLBRKT20 for 42" depth tops or two GPLBRKT24 for 53" depth tops when cord concealment is not required along the wall supported end.
10. Order under top cord management separately.
    • See page 90 for options and details.
11. Media units are positioned against a wall limiting seating capacity when a display screen is present.
    Recommended seating capacity:
    • View tops: 48" - 60"w = seating 3 | 72"w = seating 5.
    • D shape tops: 36"w = seating 2 | 48" - 60"w = seating 3 | 72"w = seating 5.

## Table Top Power Overview

Anthology Power Modules offer a broad selection of performance features to support small to large power requirements including USB A+C. Models are available as single specified units. Selected models are available as modular component system kits with a single plug.

Power modules can be integrated into table tops or undermounted to provide convenient electrical access for devices. There are two main ways to connect the power modules to the building's power source:

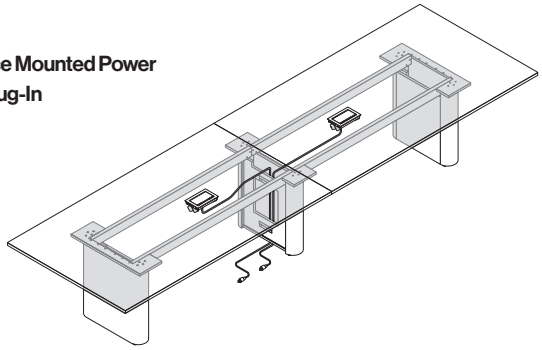

**Direct Plug-In**
Each power module can be connected directly to a floor monument with 15amp three-prong mplded plugs. There must be one power outlet per single corded unit.

Dual corded modules require two outlets per unit.

Direct plug-in method requires multiple floor outlets to power multiple units.

Available for in surface and undermount power units.

**In Surface Mounted Power**
**Direct Plug-In**

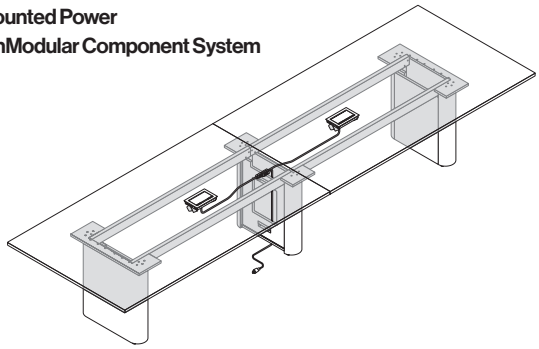

**Single Plug-In Modular Component Systems**
Multiple power modules are linked with a single-circuit modular power system. Multiple power units are linked together and connect to a floor monument outlet with a single 15amp three-prong molded plug connection. System is protected by an integrated circuit breaker with system reset button.

In surface or undermount power solutions, offer linking systems, reducing need for multiple floor outlets, simplifying specification and installation.

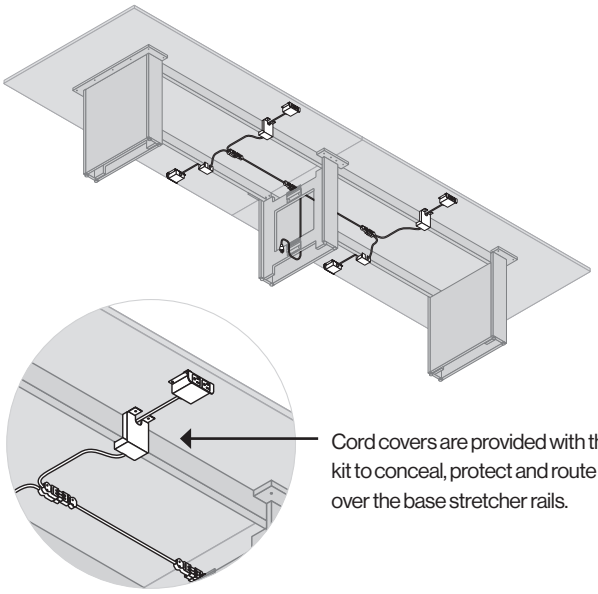

Modular component system reduces the need for multiple floor outlets to simplify connection installation.

Available for in surface and undermount power units.

**In Surface Mounted Power**
**Single Plug-InModular Component System**

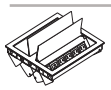

**Undermounted Power**
**Single Plug-In Modular Component System**

Cord covers are provided with the power kit to conceal, protect and route cords over the base stretcher rails.

## Power Unit Features Comparison

All Anthology power units offer single unit models with conventional power cord. Most power units offer the ability to connect multiple units to a single infeed power cord provided in the kit. Hardwire units meet Chicago - hardwire code and require field connection to building power source by qualified electrician.

| Collection | | Individual Power Unit Description | Aesthetic | Power | Tamper Resistant Power Plug | USB-A+C | Data Openings | Data Configurations | Function | User Interation | Hardwire Chicago | Pattern Modular Component System | Purl Modular Component System | Modular Connection System |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
|  | **Node** | one power outlet / one open data port | exposed plug connection while in use | 1 | no | n/a | 1 | 12 pack data adapter kit (included) | fixed - top full access | intuitive | no | n/a | n/a | n/a |

Cutout CA Node

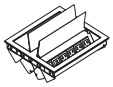

Cutout CB Electrolite

Cutout CC Mho

Cutout CD Ellora

Cutout CE Vault Retractable

Cutout CF M2X Two Sided

Cutout CG Ellora Double

Cutout CH Oasis Two Sided

Cutout CJ Vault BTC Rotating

Anthology Power Modules offer a broad selection of performance features to support small to large power requirements including USB A+C.
Models are available as single specified units, with selected models available in kits linked together with a single plug.
See pages 80 - 89 for power unit specifications.

Pre-determined cutout locations are available based on top size and base style.
**Cutouts are an upcharge per cutout.**
Two cutouts 2X upcharge
Three cutouts 3X upcharge
Four cutouts 4X upcharge

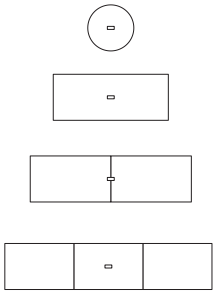

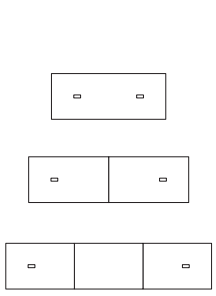

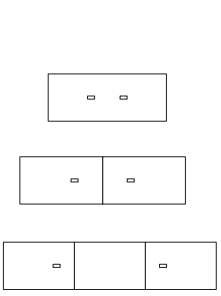

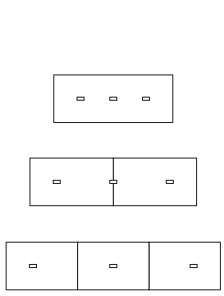

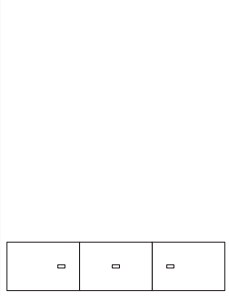

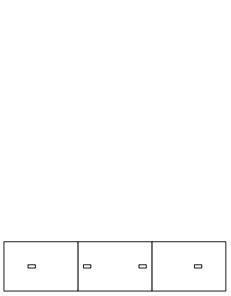

Laminate, veneer and solid surface have one level of cutout upcharges.
NOTE: Glass carries a higher cutout upcharge due to complexity associated to cutting and tempering of the glass material.

**To order: specify code associated with power module and location.**
CD2M = Ellora - 2 cutouts - Mid Location

## Location Codes

| One Cutout Center | Two Cutouts Ends (over / next to bases) | Two Cutouts (between bases) | Three Cutouts Center + Ends | Three Cutouts Center + Mid | Four Cutouts Mid + Ends |

# Power Unit Features Comparison

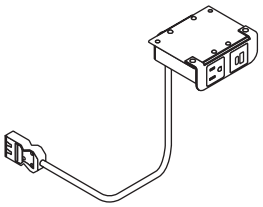

### Undermount Power

In addition to in surface Power Modules, Anthology offers an undermount power solution with performance features like in surface units. Undermount power is flexible and can be mounted under all top sizes, shapes and with any base style. No cutout locations or base restrictions apply. Pre-determined mounting locations are established based on typical chair widths, mounting between users for shared easy access. Chair size or placement preference requires flexibility when mounting units under the table top. Power cords lengths accomidate positioning unit up to 12" to the right or left during installation or as requirements change.

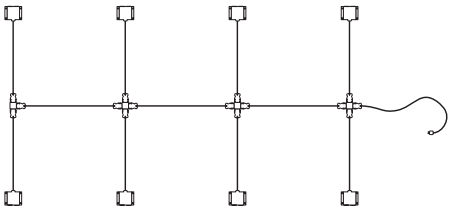

Aesthetically, undermount power is a great solution for a discrete power solutiuon. Top surfaces no longer require cutouts, maintaining the clean uninterupted surface detail.

Located under the edge of the table top for easy access by users.
Available in single 10' corded units or preconfigured single circuit modular kits with a single power cord and standard 15 amp plug.

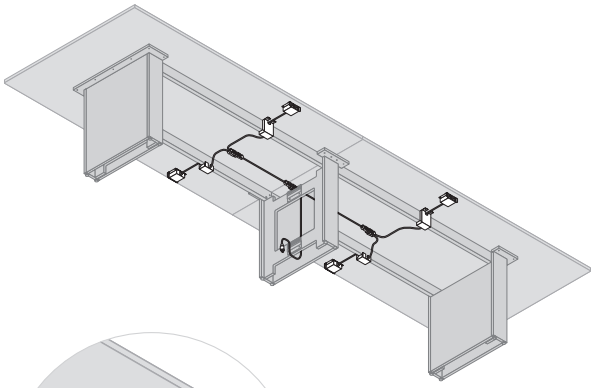

Undermount power is field installed and can be added to existing Anthology tables if power, charging or data requirements change..

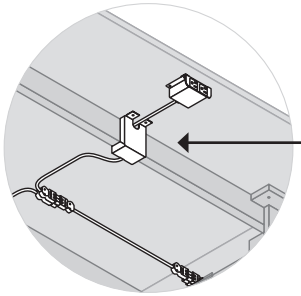

Undermount power unit

Undermount power unit

Cord covers are provided with the power kit to conceal, protect and route cords over the base stretcher rails.

## Power Offering Features: In Surface Mounting

Anthology Power Modules offer a broad selection of performance features to support small to large requirements including USB A+C and interface adapters and plates to receive data and video connections. Models are available as single specified units, or models for kits to provide mulpiple units connected to a single infeed power cord. In-surface power units are specified to coordinate with table cutouts in pre-determined locations.

**Pre-determined cutout locations are available based on top size and base style.**
Cutouts are an upcharge per cutout.
Two cutouts 2X upcharge
Three cutouts 3X upcharge
Four cutouts 4X upcharge

### Node

Single corded - Node individual power unit

**One power outlet / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design
- spill-proof design, black outlet
- 10' cord with 15-amp three-prong molded plug
- silver or black powder coat aluminum faceplate
- UL listed

**Two power outlets**

- flush mount design
- spill-proof design, black outlet
- 10' cord with 15-amp three-prong molded plug
- silver or black powder coat aluminum faceplate
- UL listed

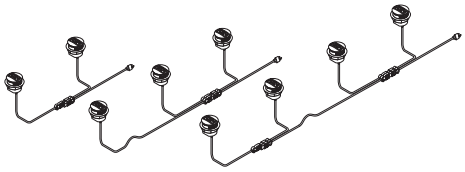

**One power outlet / one 20 watt USB A+C (10 watt each)**

- flush mount design
- spill-proof design, black outlet
- 10' cord with 15-amp three-prong molded plug
- silver or black powder coat aluminum faceplate
- UL listed

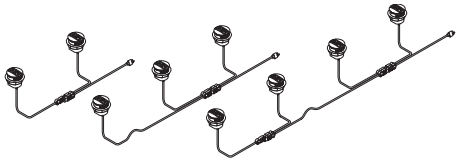

### Node

Pattern modular component system with Node power units

**Individual power unit features: two power outlets**

- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design
- spill-proof, black outlet
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powder coat aluminum faceplate
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

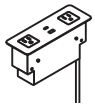

**Individuasl power unit features: one power outlet / one 20 watt USB A+C (10 watt each)**

- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design
- spill-proof, black outlet
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powder coat aluminum faceplate
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

## Power Offering Features: In Surface Mounting

### Electrolite

Single corded - Electrolite individual power unit

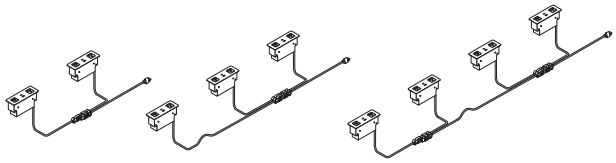

**Two power outlets / one 72 watt USB A+C (A =12 watt, C = 60 watt)**

- flush mount design
- tamper resistant outlets
- 9' strain relief cord with 15 amp three-prong molded plug
- silver or black powdercoat metal faceplate
- ETL listed

### Electrolite

PURL Modular Component System with Electrolite Power Units

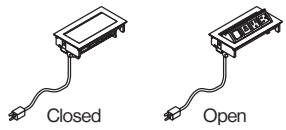

**Individual power unit features: two power outlets / one 72 watt USB A+C (A =12 watt, C = 60 watt)**

- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design
- tamper resistant outlets
- PURL Single Circuit Linking Power System is non-sequential, connecting multiple units with one 9' - 15-amp molded plug infeed.
- infeed power cord has an integrated circuit breaker with reset
- silver or black powder coat metal faceplate
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connectioncomponents.
- UL listed

### Mho

Single corded - Mho individual power unit

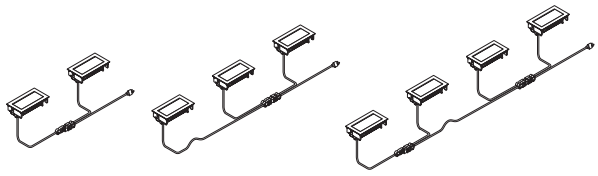

**two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design with tilt up / retractable one touch operation
- 10' cord with 15-amp three-prong molded plug
- silver or black powdercoat aluminum frame and lid
- inside face plate and power/data outlets are black
- UL Listed

### Mho

Pattern modular component system with Mho power units

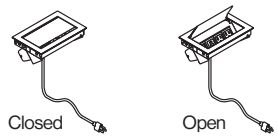

**Individual power units feature: two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design with tilt up / retractable one touch operation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powdercoat aluminum frame and lid
- power/data outlets are black
- inside face plate and power/data outlets are black
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

## Power Offering Features: In Surface Mounting

### Ellora

Single corded - Ellora individual power unit

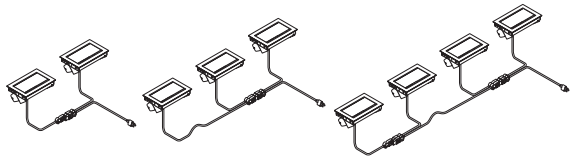

**Two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design aluminum frame with soft closing lid and cord routing slot
- 10' cord with 15 amp three-prong molded plug
- silver or black powdercoat aluminum frame and lid
- inside face plate and power/data outlets are black
- UL Listed

### Ellora

Pattern modular component system with Ellora power units

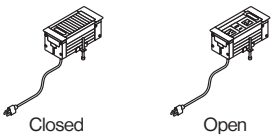

**Individual power units feature: two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design aluminum frame with soft closing lid and cord routing slot
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powdercoat aluminum frame and lid
- inside face plate and power/data outlets are black
- silver and black powdercoat aluminum frame and lid
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

### Vault Z23

Single corded - Vault Z23 individual power unit

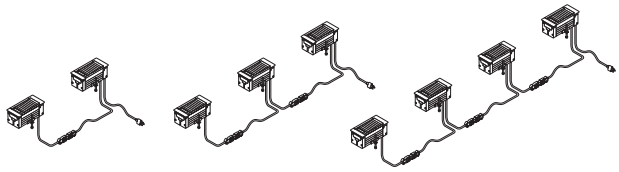

**Two power outlets / one USB A (10 watt) +C (15 watt)**

- flush mount design
- retractable door to access outlets
- 10' cord with 15 amp three-prong molded plug
- black trim with dark gray retractable door and black outlet face
- ETL Listed

### Vault Z23

Modular connection system with Vault Z23 retractable power units

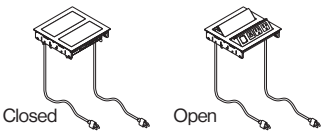

**Individual power units feature: two power outlets / one USB A (10 watt) +C (15 watt)**

- available in 2, 3, and 4-unit power kit models with single power infeed.
- flush mount design
- retractable door to access outlets
- Sequential single circuit, connecting multiple units with one 9' - 15-amp molded plug
- black trim with dark gray retractable door and black outlet face
- specify model for power kit based on, top width range and cutout locations to provide required cord lengths, connection components, and hardware.
- ETL listed

## Power Offering Features: In Surface Mounting

### M2X

Two corded - M2X two-sided individual power unit

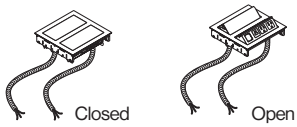

**Each side features: two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: four power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design with two-sided tilt up / retractable one touch operation
- two 10' cords with 15-amp three-prong molded plug, (one per side)
- silver or black powdercoat aluminum frame and lids
- inside face plate and power/data outlets are black
- UL Listed

### M2X

Two conduit hardwire - M2X two-sided individual power unit - Chicago Hardwire

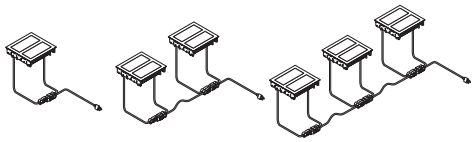

**Each side features: two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: four power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design with two sided tilt up / retractable one touch operation
- two 10' conduit shielded hardwire whips, one per side
- silver or black powdercoat aluminum frame and lids
- inside face plate and power/data outlets are black
- UL Listed

### M2X

Pattern modular component system with M2X two-sided power units

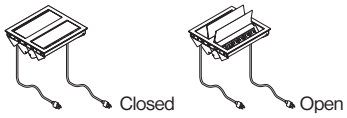

**Individual power units feature on each side: two power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: four power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in 1, 2, and 3-unit power kit models with single power infeed.
- flush mount design with tilt up / retractable one touch operation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' cord - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powdercoat aluminum frame and lid
- inside face plate and power/data outlets are black
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

### Ellora Double

Two corded Ellora Double two-sided individual power unit

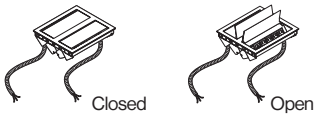

**Each side features: four power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: eight power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design aluminum frame with soft closing lids and cord routing slot
- two 10' cord with 15 amp three-prong molded plug
- silver or black powdercoat aluminum frame and lids
- inside face plate and power/data outlets are black
- UL Listed

### Ellora Double

Two conduit hardwire - M2X two-sided individual power unit - Chicago Hardwire

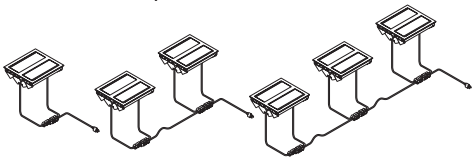

**Each side features: four power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: eight power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- flush mount design aluminum frame with soft closing lids and cord routing slot
- two 10' conduit shielded hardwire whips, one per side
- silver or black powdercoat aluminum frame and lids
- inside face plate and power/data outlets are black
- UL Listed

### Ellora Double

Pattern modular component system with M2X two-sided power units

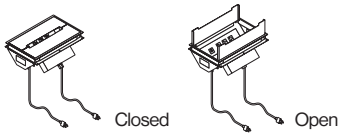

**Individual power units feature on each side: four power outlets / one 20 watt USB A+C (10 watt each) / one open data port**

- power unit has total of: eight power, two 20 watt USB A+C (10 watt each) and two open data ports
- two - 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in 1, 2, and 3-unit power kit models with single power infeed.
- flush mount design with tilt up / retractable one touch operation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' cord - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- silver or black powdercoat aluminum frame and lids
- inside face plate and power/data outlets are black
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- ETL listed

## Power Offering Features: In Surface Mounting

**Oasis**

Two corded Oasis two-sided individual power unit

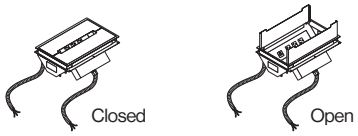

**Each side features: three power outlets / one 72 watt USB A+C (A = 12 watt, C = 60 watt) / one blank Telecom plate on each end of tray**

- power unit has total of: six power outlets, two 72 watt USB A+C and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- two 9' cords with 15 amp three-prong molded plug, one per side
- tamper resistant outlets
- inside tray, faceplates, outlets and blank Telecom plates are black
- UL Listed

**Oasis**

Two conduit hardwire - Oasis two-sided individual power unit - Chicago Hardwire

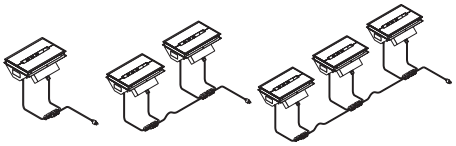

**Each side features: three power outlets / one 72 watt USB A+C (A = 12 watt, C = 60 watt) / one blank Telecom plate on each end of tray**

- power unit has total of: six power outlets, two 72 watt USB A+C and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- two 9' conduit shielded hardwire whips, one per side
- tamper resistant outlets
- inside tray, faceplates, outlets and blank Telecom plates are black
- UL Listed

**Oasis**

PURL Modular Component System with Oasis Power Units

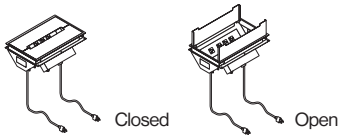

**Individual power units features on each side: three power outlets / one 72 watt USB A+C (A = 12 watt, C = 60 watt) / one blank Telecom plate on each end of tray**

- power unit has total of: six power outlets, two 72 watt USB A+C and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- available in 1, 2, and 3-unit power kit models with single power infeed.
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- PURL Single Circuit Linking Power System is non-sequential, connecting multiple units with one 9' - 15-amp molded plug infeed.
- infeed power cord has an integrated circuit breaker with reset
- tamper resistant outlets
- inside tray, faceplates, outlets and blank Telecom plates are black
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- UL listed

## Power Offering Features: In Surface Mounting

**Oasis**

Two corded Oasis two-sided individual power unit

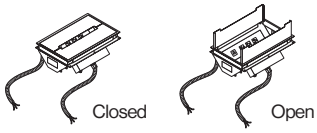

**Each side features: four power outlets / one blank Telecom plate on each end of tray**

- power unit has total of: eight power outlets and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- two 9' cords with 15 amp three-prong molded plug, one per side
- tamper resistant outlets
- inside tray, faceplates and outlets are black
- UL Listed

**Oasis**

Two conduit hardwire - Oasis two-sided individual power unit - Chicago Hardwire

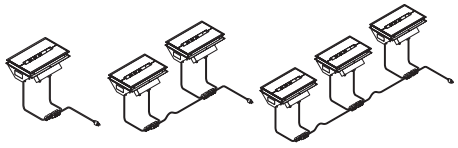

**Each side features: four power outlets / one blank Telecom plate on each end of tray**

- power unit has total of: eight power outlets and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- two 9' conduit shielded hardwire whips, one per side
- tamper resistant outlets
- inside tray, faceplates, outlets and blank Telecom plates are black
- UL Listed

**Oasis**

PURL Modular Component System with Oasis Power Units

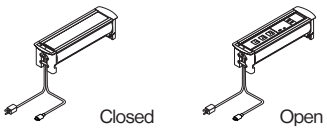

**Individual power unit features on each side: four power outlets / one blank Telecom plate on each end of tray**

- power unit has total of: eight power outlets and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered seperately, see page 88 for details
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- metal hinged lid available in seven standard JSI metal finishes
- available in 1, 2, and 3-unit power kit models with single power infeed.
- PURL Single Circuit Linking Power System is non-sequential, connecting multiple units with one 9' - 15-amp molded plug infeed.
- infeed power cord has an integrated circuit breaker with reset
- tamper resistant outlets
- inside tray, faceplates, outlets and blank Telecom plates are black
- specify model for power kit based on, top width range and cutout locations to provide required jumper lengths and connection components, and hardware.
- UL listed

**Vault BTC**

Single corded - Vault BTC individual power unit

**Three power outlets / one USB A (15 watt) +C (45 watt), one HDMI, plus one 15-watt USB-A**

- flush mount design
- motorized one touch to open, one touch to close mechanism, 180 degree pivot rotation
- safety stop rotation sensors prevent closure when outlets in use or obstruction detected
- 12' cord with 15 amp three-prong molded plug
- 6' HDMI patch cord with male connection
- anodized aluminum trim and lid with black outlet face
- UL Listed

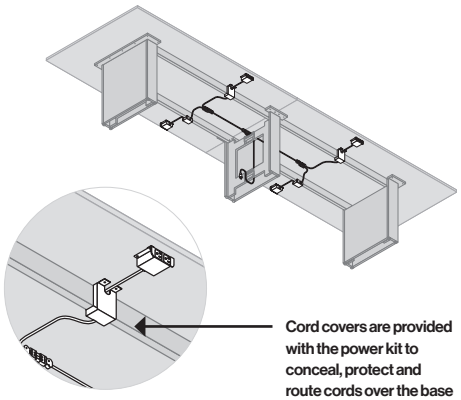

## Power Offering Features: Under Surface Mounting

In addition to in surface Power Modules, Anthology offers an undermount power solution with performance features like in surface units. Undermount power is flexible and can be mounted under all top sizes, shapes and with any base style. No cutout locations or base restrictions apply. Pre-determined mounting locations are established based on typical chair widths, mounting between users for shared easy access. Chair size or placement preference requires flexibility when mounting units under the table top. Power cords lengths accomidate positioning unit up to 12" to the right or left during installation or as requirements change.

Aesthetically, undermount power is a great solution for a discrete power. Top surfaces no longer require cutouts, maintaining the clean uninterupted surface detail.

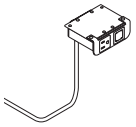

Located under the edge of the table top for easy access by users. Available in single 10' corded units or preconfigured single circuit modular kits with a single power cord and standard 15 amp plug.

Undermount power is field installed and can be added to existing Anthology tables if power, charging or data requirements change. Cord covers are provided with the power kits to conceal, protect and route cords over the base stretcher rails. Black metal powder coat finish.

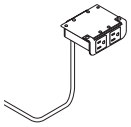

### Undermount

Single corded - Undermount individual power unit

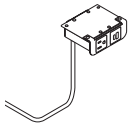

**One power outlet / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- edge mount design with free-placement
- 10’ cord with 15-amp three-prong molded plug
- metal trim faceplate available in metal standard and additional powdercoat finishes
- black outlet face
- UL listed

**Two power outlets**

- edge mount design
- 10’ cord with 15-amp three-prong molded plug
- metal trim faceplate available in metal standard and additional powdercoat finishes
- black outlet faces
- UL listed

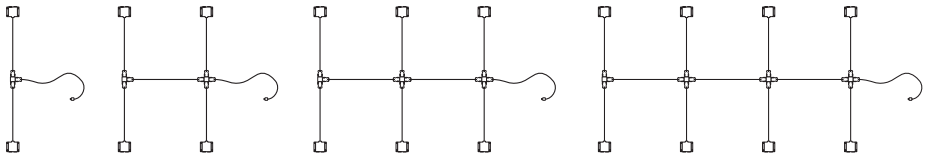

**One power outlet / one 20 watt USB A+C (10 watt each)**

- edge mount design
- 10’ cord with 15-amp three-prong molded plug
- metal trim faceplate available in metal standard and additional powdercoat finishes
- black outlet faces
- UL listed

## Power Offering Features: Under Surface Mounting

### Undermount

Pattern modular component system with Undermount power units

**Individual power unit features: one power outlet / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in 2, 4, 6, and 8-unit power kit models with single power infeed.
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on, top width range and locations to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

**Individual power unit features: two power outlets**

- available in 2, 4, 6, and 8-unit power kit models with single power infeed.
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on, top width range and locations to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

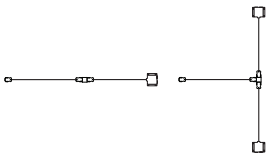

**Individuasl power unit features: one power outlet / one 20 watt USB A+C (10 watt each)**

- available in 2, 4, 6, and 8-unit power kit models with single power infeed.
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System is non-sequential, connecting multiple units with one 10' - 15-amp molded plug infeed.
- infeed power plug has an integrated circuit breaker with reset
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on, top width range and locations to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

### Undermount Plus

Pattern modular component with Undermount Plus power units.

When additional power units are needed for a table equipped with 2, 4, 6, or 8 unit Undermount kits, Plus 1 and Plus 2 add-on kits are available. The Plus 1 and Plus 2 add-on requires a 2-, 4-, 6-, or 8-unit kit to supply connection to the building power source with single power infeed. Any Plus 1 or Plus 2 kit configurations; one power with open data port / two power / one power with USB-A+C can be connected to any configuration Undermount kit.

**Individual power unit features: one power outlet / one open data port**

- 12 pack data adapter kit included for open port / accepts TCP300 series Telecom ports ordered separately, see page 88 for details
- available in Plus 1 and Plus 2 power kit models
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System, connect Plus 1 or Plus 2 units to existing Undermount Pattern kits
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on location to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

**Individual power unit features: two power outlets**

- available in Plus 1 and Plus 2 power kit models
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System, connect Plus 1 or Plus 2 units to existing Undermount Pattern kits
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on location to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

**Individuasl power unit features: one power outlet / one 20 watt USB A+C (10 watt each)**

- available in Plus 1 and Plus 2 power kit models
- edge mount design
- flexible mounting placement of units at installation
- Pattern Single Circuit Linking Power System, connect Plus 1 or Plus 2 units to existing Undermount Pattern kits
- metal trim faceplate available in metal standard and additional powdercoat finishes
- specify model for power kit based on location to provide required jumper lengths, cord covers and connection components, and hardware.
- ETL listed

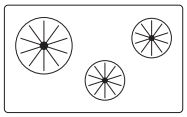

## Power Offering Features: Under Surface Mounting

### TCP100 Series Telecom Plates: Oasis Power Units

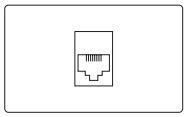

**Blank Cap Data Plate, Type 1**

- blank data plate
- black
- two ship standard with Oasis power units

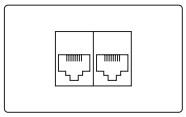

**Three Cord Bushing Data Plate, Type 1**

- cord minder - three cord bushing
- black
- for use with Oasis power units

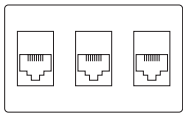

**One Jack Data Plate, Type 1**

- one RJ-45 CAT6 Jack
- black
- for use with Oasis power units

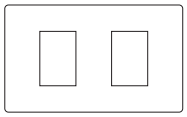

**Two Jack Data Plate, Type 1**

- two RJ-45 CAT6 Jacks
- black
- for use with Oasis power units

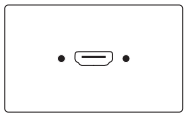

**Three Jack Data Plate, Type 1**

- three RJ-45 CAT6 Jacks
- black
- for use with Oasis power units

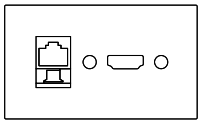

**Two Open Data Ports, Type 1**

- use with two Type 3 Telecom Jacks
- black
- for use with Oasis power units

**HDMI Data Plate, Type 1**

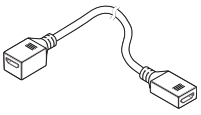

- one HDMI female to female connection with 36" cord
- black
- for use with Oasis power units

**HDMI and Data Jack Plate, Type 1**

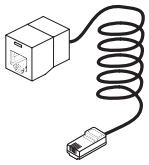

- one HDMI female to female connection with 36" cord one RJ45 CAT6 punch down jack
- black
- for use with Oasis power units

### TCP300 Series Telecom Plates: Node, Mho, Ellora, M2X, Ellora Double, Undermount and Glenbeigh Power Units

**HDMI Connector Accessory, Type 3**

- one HDMI coupler female to female connection with 18" cord
- use 12 pack data adapter kit CCC adapter trim shaped with unit
- black
- for use with Node, Mho, Ellora, M2X, Ellora Double, Undermount and Glenbeigh power units

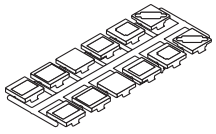

**Network Jack Accessory, Type 3**

- one RJ45 CAT6 coupler female to female connection with 10' cord
- use 12 pack data adapter kit FFF adapter trim shipped with unit
- black
- for use with Node, Mho, Ellora, M2X, Ellora Double, Undermount and Glenbeigh power units

# Power Offering Features: Under Surface Mounting

## Type 3 - Data Adapter Applications

### Type 3 - 12 Pack Data Adapter Kit

- 12 pack data adapter kit included for open port power units: Node,Mho, Ellora, M2X, Ellora Double, Undermount and Glenbeigh, ships in box with power unit.
- black plastic adapter trims are marked on the back surface with letter designators that indicate the data jack manufacturer, series and style.
- data jack manufactures websites are listed below for quick reference to verify data jack series and style.

# Wire Management and Accessories

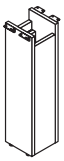

All Anthology power units include cord loop clips included to secure cords under the table tops.
Additional vertical and horizontal cord managers are available to specify for field installation.

## Vertical Cord Management

**Wire Management Chase is available in TFL 65T7228WCT or Veneer 65T7228WCV finishes that can be specified between or next to bases to conceal cords to the floor.**

**Wire Chase**

- mounts to underside of table top to conceal cords to floor outlet
- can be specified between bases where cord concealment to floor is required
- one side has lift off panel to access inteior
- not for structural support
- not intended to be installed under power unit

**Frame Base Magnetic Metal Wire Manager attaches to the vertical tube of the base to conceal cords. Available in powder coat of chrome to match the Frame Base.**

**Frame Base Magnetic Metal**

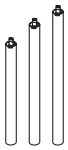

- use with Frame and Frame BridgeLine bases only
- magnetic attachment to inside of base frame over cords to floor
- specify metal base colors
- chrome upcharge applies

**Vertical fabric cable managers attach under the table top to manage and conceal cords vertically.**

**Vertical Fabric Cable Manager**

- use when other integrated cord rowting is not available
- felt fabric with full length hook -Loop closure
- available in two neutral colors
- screw attachment through eyelets to under-side of table top
- 3 heights for use with seated, counter and bar height tables

**Vertical leather cable managers attach to the vertical surface of the wood table bases to manage and conceal cords vertically. The set of three leather straps can be spaced to support multiple base heights.**

**Vertical Leather Cable Manager**

- black or silver color
- flexible plastic
- AVL17 for seated height; Lok Y, X and X4 bases
- AVL20 for counter height; Lok Y, X and X4 and seated height Disc Bases
- AVL25 for bar height; Lok Y, X and X4 and counter height Disc Bases
- AVL33 for bar height; Disc Bases

## Additional vertical cord manager options available in Flux and Lok series accessories:

**Flux series accessory: Flexible Floor Manager GP250VWM.**

**Flexible Floor Manager**

- black with silver accents
- 50" flexible vertical wire manager with one vertical mounting bracket and one counter weight base
- sections can be removed to shorten length for different table heights

**Lok series accessory: Vertical Wire Manager AVL17, AVL20, AVL25, and AVL33.**

**Vertical Wire Manager**

- black with silver color flexible plastic
- AVL17 for seated height; Lok Y, X and X4 bases
- AVL20 for counter height; Lok Y, X and X4 and seated height Disc Bases
- AVL25 for bar height; Lok Y, X and X4 and counter height Disc Bases
- AVL33 for bar height; Disc Bases

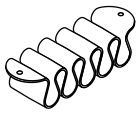

## Horizontal Cord Management

**Flexible wire managers attach to the under-side of the table top to manage cords horizontally. The flex of the plastic loops grip the cords when inserted into them. Tension of the loops hold cords securely in place until you remove them, making cord management simple.**

**Flexible Wire Manager**

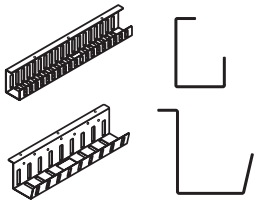

- black
- mounts to underside of top to support cords

**Horizontal cable manager designed to support and secure large volume of cords and wires unter the table top. Slots in sides and bottom surfaces provide access for routing wires into channel and when securing bundels in position with straps or ties. Lower side wall of channel allows lay in capability.**

**Horizontal Metal Cable Manager**

- black
- mounts to underside of top to support cords
- two sizes: 3" x 20" and 5" x 18"
- access slots in sides and bottom surface
- side opening for easy cord lay in

# Credenza and Ancillary Construction Specification

## Product Specifications:

**Table Top Construction Specification**
Credenza and Ancillary units are available to enhance the meeting space funtionality. Wall mounted, low, conference, buffet heights and equipment credenzas provide flexible storage. Hospitality cart, waste credenza and lecterns complete the environment.

## Chassis and base construction :

**Laminates**
Anthology Laminate features TFL (thermally fused laminate) chassis and components

Edges of the top and panels are impact resistant .5mm PVC band on TFL components.

The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid color laminates is smooth to the touch with a semi-matte finish.

**Veneers**
Anthology Veneer features Essential and Artisan veneer chassis and components.

Edges of the chassis are veneer banded to match surface veneer.
All veneer finishes except Raven are standard 35-sheen, with 15-sheen available.
Raven is only available 15-sheen for best visual and functional performance.

**Panel Base**
Anthology panel base elevate the storage units with the same materilas and construction as the cabinet chassis..

**Solid Wood Base**
Anthology solid wood bases match the veneer chassis and components providing a lighter scale visual.

**Metal Tube Base**
Anthology welded tubular steel frames complement the metal table base finish detail.

**Credenza Case Construction**
Outside panels are ¾" and joined together with dowels reinforced with screws, metal fasteners for increased stability.

Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes,

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Unfinished back, includes cutout in back side for wire management pass through.

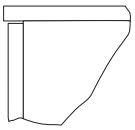

**Locking**
Locks are available with the upcharge calculated per door set.

When locks are ordered, units are shipped randomly keyed as standard.

Key alike units are available upon request for no additional charges. Removable lock cores are shipped standard with units for easy in-field re-keying.

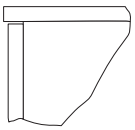

## Top Construction:

**Laminate**
Tops have a ¾" top panel thickness and a .5mm PVC edgeband.

TFL features on Surfaces*
Fused to the 45 pound density substrate of the top for a durable wear resistance surface
Tops are laminated on both sides
Available in all the wood grain and solid patterns

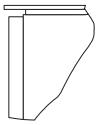

**Veneer**
Tops have a ¾" top panel thickness and a .5mm veneer edgeband.

Anthology Veneer features Essential and Artisan veneer tops.

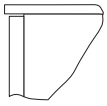

Edges of the tops are veneer banded to match surface veneer.
All veneer finishes except Raven are standard 35-sheen, with 15-sheen available.
Raven is only available 15-sheen for best visual and functional performance.

**Glass**
Glass tops are ½" thick constructed of ¼" thick back painted glass surface on top of a ¼" thick MDF sub top.

Anthilogy glass tops are back painted glass in white gloss, or white, black and espresso matte colors.
Sub top has a flat edge and painted black.

**Solid Surface**
Solid surface tops are constructed of 7/16" thick solid surface.

Anthilogy solid surface tops are solid acrylic material in black onyx mirage, designer white, hot stone and soothing grey patterns.

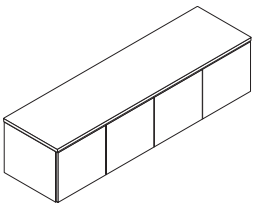

Note: all credenza top materials are field replaceable.

# Crendenza and Ancillary Model Types and Features

## Credenza - number of doors per unit

36" W = 2 Doors
60" & 72" W = 4 Doors
90" W = 5 Doors

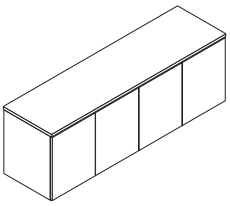

## Wall Mount Credenzas

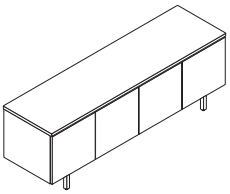

**20" D**
**17" H**
**36", 60", 72", 90" W**

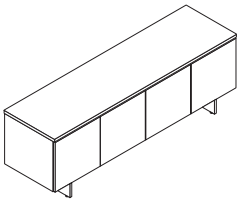

- separate models for laminate, veneer, glass top and solid surface top.
- unfinished back with wall mount hardware
  - fastners for wallmount hardware attachment to wall not provided
- bottom cutout for wire management pass through
- 110° hinge doors
- touch latch doors, no door pulls

## Low Height Credenzas

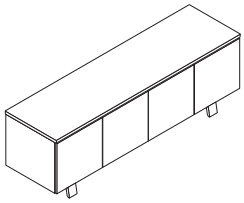

**Metal inset base**

**Panel inset base**

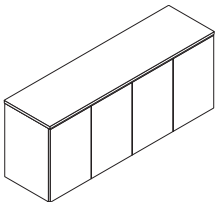

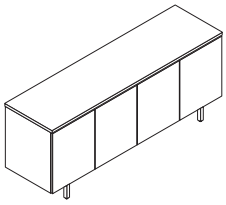

**Wood inset base**

**20" D**
**24" H**
**36", 60", 72", 90" W**

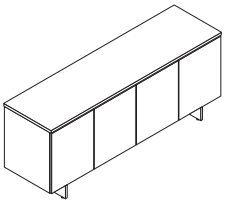

- separate models for laminate, veneer, glass top and solid surface top.
- unfinished back, includes cutout in back side for wire management pass through
- 110° hinge doors
- touch latch doors, no door pulls

## Conference Credenzas

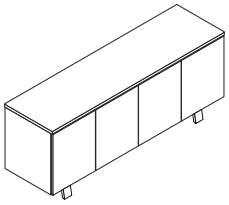

**Metal inset base**

**Panel inset base**

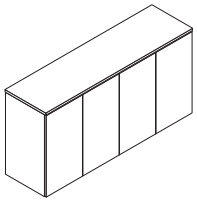

**Wood inset base**

**20" D**
**28 9/16" H**
**36", 60", 72", 90" W**

- separate models for laminate, veneer, glass top and solid surface top.
- unfinished back, includes cutout in back side for wire management pass through
- 110° hinge doors
- touch latch doors, no door pulls
- one adjustable shelf per compartment

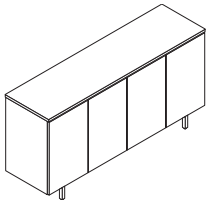

# Crendenza and Ancillary Model Types and Features

## Buffet Credenza

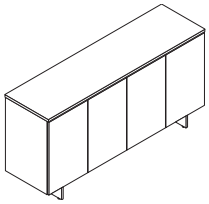

**20" D**
**35 15/16" H**
**36", 60", 72", 90" W**

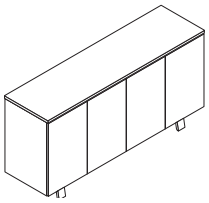

- separate models for laminate, veneer, glass top and solid surface top.
- unfinished back, includes cutout in back side for wire management pass through
- utility drawer models available in laminate or veneer for right or left compartments providing additional compartment interior storage
  - utility drawer will not fit in the middle section of the 90" units
  - utility drawer is mounted to underside of cabinet interior
- 110° hinge doors
- touch latch doors, no door pulls
- one adjustable shelf per compartment

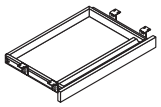

**Metal inset base**

**Panel inset base**

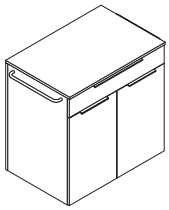

**Wood inset base**

**Utlity Drawer**

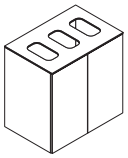

## Hospitality Cart

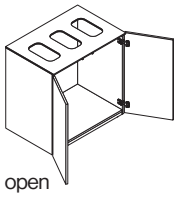

**24" D**
**36" H**
**36" W**

- separate models for laminate, veneer, glass top and solid surface top.
- four pivot casters for mobility - nonlocking
- metal push / pull handles on both sides
- 110° hinge doors
- self close door hinges with Prospect pulls
- full width pullout drawer above hinge doors
- maximum 15 lbs. distributed load in the drawer

## Waste Credenza

closed

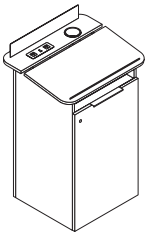

open

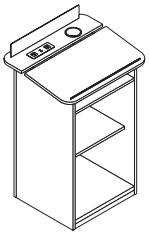

**24" D**
**36" H**
**36" W**

- separate models for laminate and veneer.
- accommodates three Uline Thin #H-5148 (23 gallon) trash cans, not included.
- specify solid surface top; black onyx mirage, designer white, hot stone or soothing grey.
- 110° hinge doors
- touch latch doors, no door pulls

## Lectern

closed

open

**24" D**
**42½" H**
**28" W**

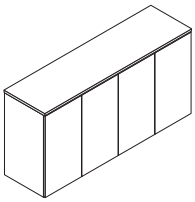

- separate models for laminate and veneer.
- four pivot casters for mobility - nonlocking
- metal screen optional
- 110° right hinge doors
- self close door hinges with Prospect pull
- one adjustable shelf per compartment
- options available for metal screen, power cutout and cup holder
  - when cutout option is selected for lectern - order Electrolite power unit, (separate model)

# Crendenza and Ancillary Model Types and Features

## Equiment Credenza - Number of Doors

48" W = 2 Doors
72" W = 4 Doors

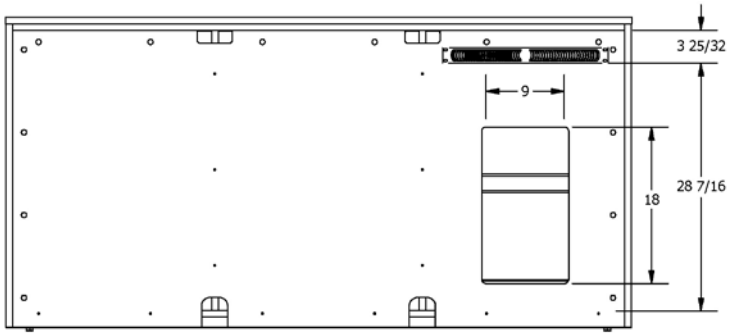

## Equipment Credenza

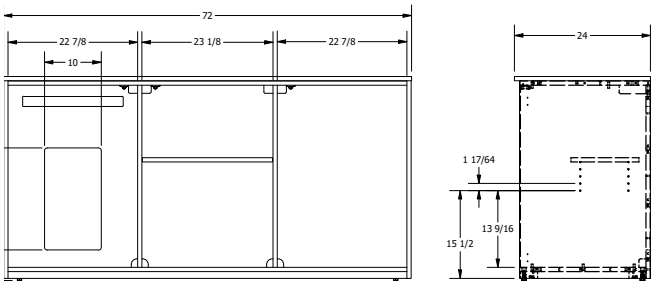

**24" D**
**35 15/16" H**
**48", 72", W**

- separate models for laminate, veneer, glass top and solid surface top.
- unfinished back, includes cutout in back side for wire management pass through
- ventilation cutouts in back panel determined by model number selection:
  - model numbers ending in CER are right compartment ventilation cutouts
  - model numbers ending in CEL are left compartment ventilation cutouts
- inside of case bottom panel is black HPL laminated to moisture resistant core
- thermostat control fan available, specify and order separately, (installs in top ventilation cutout)
- pull out rotating AV rack available, specify and order separately
- pull out dual waste, recycle unit available, order separately
- 110° hinge doors
- touch latch doors, no door pulls
- one adjustable shelf per compartment

**Back View**

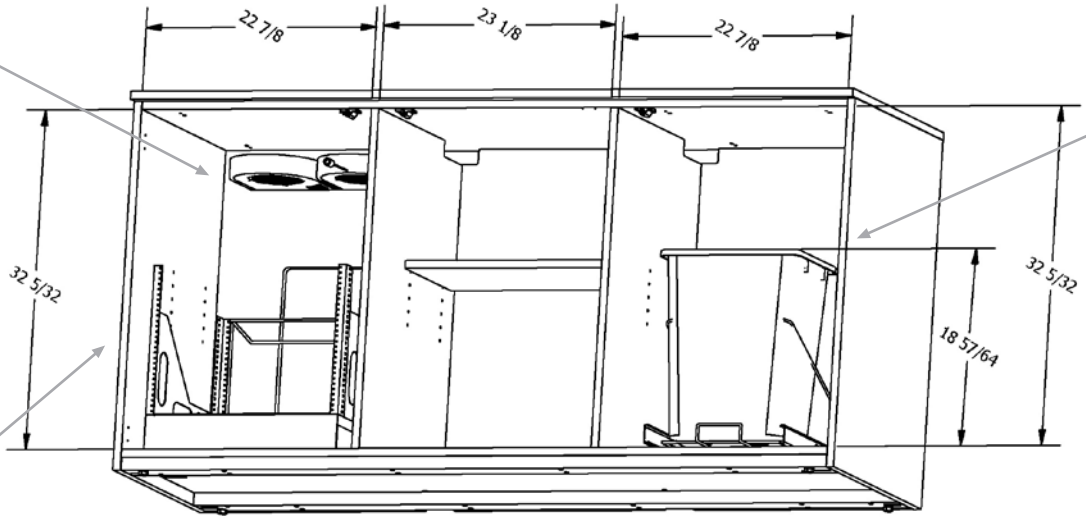

**CEL: Left compartment ventilation cutout shown**

Slide out A/V storage rack or customer supplied refrigerator can be installed in section with cut-out in back

**Thermostat Control Fan (optional)**

**Dual Waste/ Recycle Unit (optional)**

**Rotating AV Rack (optional)**

# Anthology Credenza Specification Overview:

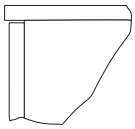

## Credenza Ordering

### 1 Choose credenza model by: top material, chassis material and base type.

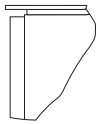

- top material: laminate, veneer, glass or solid surface
- chassis mateial: laminate, or veneer
- base type: glide, metal leg, laminate panel leg, veneer panel leg, or wood leg

### 2 Choose model finishes.

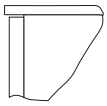

- select finish for credenza component surfaces

**Laminate veneer**
¾" thick TFL or veneer top panel with flat edgeband

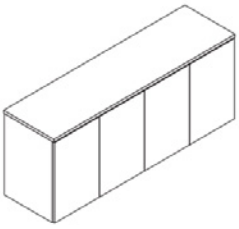

**Solid Surface**
½" thick solid surface panel

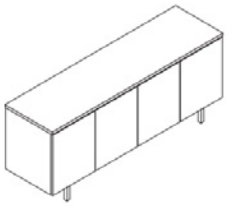

**Glass**
¼" thick glass surface with ¼" thick MDF subtop

### Credenza - Laminate Chassis Specifications:

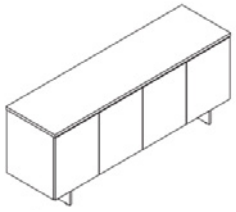

**Glide Base**

| | |
|---|---|
| Top Surface | TFL Laminate, Glass or Solid Surface |
| Chassis | Laminate |
| Doors | Laminate |

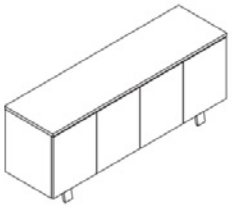

**Metal Leg Base**

| | |
|---|---|
| Top Surface | TFL Laminate, Glass or Solid Surface |
| Chassis | Laminate |
| Doors | Laminate |
| Metal Leg Base | Metal Finish |

**Panel Leg Base**

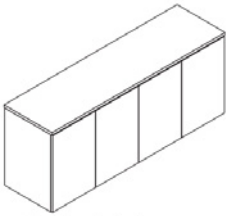

| | |
|---|---|
| Top Surface | TFL Laminate, Glass or Solid Surface |
| Chassis | Laminate |
| Doors | Laminate |
| Panel Leg Base | Matches Chassis Laminate |

**Wood Leg Base**

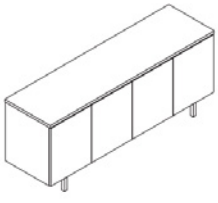

| | |
|---|---|
| Top Surface | TFL Laminate, Glass or Solid Surface |
| Chassis | Laminate |
| Doors | Laminate |
| Wood Leg Base | Solid Wood Base Finish |

### Credenza - Veneer Chassis Specifications:

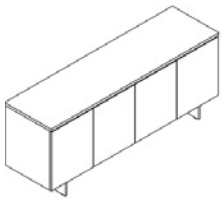

**Glide Base**

| | |
|---|---|
| Top Surface | Veneer, Glass or Solid Surface |
| Chassis | Veneer Finish |
| Doors | Veneer Finish or Optional Wood Paint |

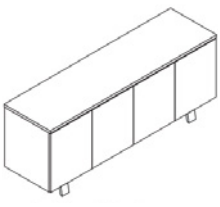

**Metal Leg Base**

| | |
|---|---|
| Top Surface | Veneer, Glass or Solid Surface |
| Chassis | Veneer Finish |
| Doors | Veneer Finish or Optional Wood Paint |
| Metal Leg Base | Metal Finish |

**Panel Leg Base**

| | |
|---|---|
| Top Surface | Veneer, Glass or Solid Surface |
| Chassis | Veneer Finish |
| Doors | Veneer Finish or Optional Wood Paint |
| Panel Leg Base | Matches Chassis Veneer |

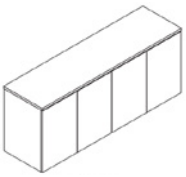

**Wood Leg Base**

| | |
|---|---|
| Top Surface | Veneer, Glass or Solid Surface |
| Chassis | Veneer Finish |
| Doors | Veneer Finish or Optional Wood Paint |
| Wood Leg Base | Solid Wood Base Finish |

# Anthology Credenza Specification Overview:

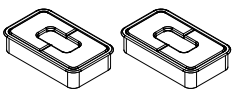

## Credenza Ordering

### 3 Choose credenza options: cabinet door locks, grommets and power cutout.

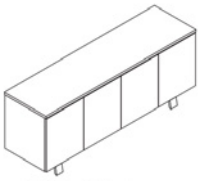

**Locking Option**

- single lock (secures a set of doors)

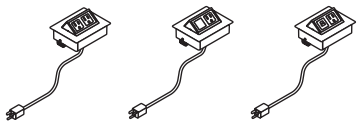

**Grommet Option**

- two (back left and right locations)
- grommets not available with glass top credenza models

**Power Cutout Option**

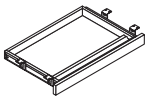

- two (backcenter location)
- power cutout option not available with glass top credenza models

- when cutout option is selected for credenza - order Glenbeigh power unit, (separate model)
- select separate model from power options below:
  - Glenbeigh Power, Corded(9PCK2C)
  - Glenbeigh Power + Open, Corded(9PCK1C)
  - Glenbeigh Power + USB, Corded (9PCK11C)

### 4 Buffet Credenza models accept utility drawer (separate model).

- JSI standard laminate or veneer drawer front
- use with buffet credenza models only
- utility drawer models available in laminate or veneer for right or left compartments providing additional compartment interior storage
  - utility drawer will not fit in the middle section of the 90" units
- utility drawer is mounted to underside of cabinet interior

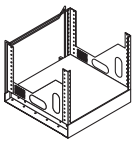

### 5 Equipment Credenza models accept accessories listed below (separate models):

**Thermostat Control Fan**

- black brushed and anodized
- quiet blower panel airflow: 100CFM
- current draw: 840mA
- sound level: 32dBA
- static pressure: 0.31 IN H2O
- includes UL Listed 12V DC power supply and temperature probe with a 9' cord
- blower panel activates at 87°F, full speed reach at 95°F, switch off at 85°F
- installs in Equipment Credenza models backpanel top ventilation cutout

**Rotating Pull Out AV Rack**

- black metal
- features slide out and rotating base
- recommended to use inconjunction with the thermostat control fan and back panel ventilation cutouts
- use with the Equipment Credenza models outer left or right compartments

**Pull Out Dual Waste Recycle Unit**

- dual 36 quart, plastic grey
- bottom mounted, soft close, steel, chrome
- use with the Equipment Credenza models outer left or right compartments

- power unit has total of: eight power outlets and two blank Telecom plates
- blank Telecom plates can be replaced with TCP100 series punched or configured plates ordered separately
- metal hinged tilt lids lift up from center with center cord routing slot when closed
- two 9' conduit shielded hardwire whips, one per side
- tamper resistant
- inside tray, faceplates, outlets and blank Telecom plates are black
- UL Listed

| **Network Jack Accessory, Type 3** | | | | | | **TCP303** | **$114** |

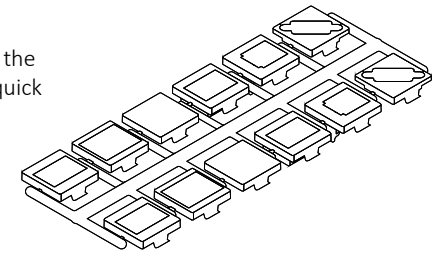

- one RJ45 CAT6 coupler female to female connection with 10' cord
- use 12 pack data adapter kit FFF adapter trim shipped with unit
- black
- for use with Node, Mho, Ellora, M2X, Ellora Double, Undermount and Glenbeigh power units

**Model**

## Data Adapter Applications

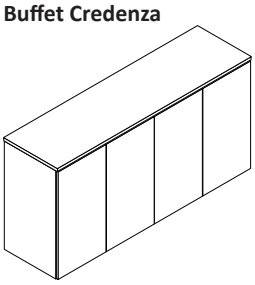

12 Pack Data Adapter Kit ships with Power Units: Node, Mho, Ellora, Ellora Double, M2X, Undermount and Glenbeigh ships in box with power unit.

Black plastic adapter trims are marked on the back surface with letter designators that indicate the data jack manufacturer, series and style. Data jack manufactures websites are listed below for quick reference to verify data jack series and style.
