

*adaptable casegoods*

**MODERN. TIMELESS. ADAPTABLE.**

Flux is a family of endlessly adaptable casegoods made for the ever-changing workplace. And to tie it all together: clean, modern, residential-inspired style.

Designed by David Allan Pessa

*meet Flux.*

**FOR THE  
MINIMALIST.**

Horizontal grain creates a streamlined, modern look. Elevated storage feels light and approachable, and keeps clutter under control.

*feeling* TRENDY.

## STAYING TRADITIONAL.

Flux proves that classic desk configurations that extend to the floor can still integrate flexibility, with features like adjustable height work surfaces.

These images feature a discontinued laminate, Aged Ash. Closest recommended alternative is Fawn laminate.

## SQUEEZE RIGHT IN.

Elevated legs, light-scale storage, and integrated technology fit right into virtually any space, even when space is limited. Tables on casters conform to any work style, even if that changes daily.

**SLIDE OVER.**

---

Easily transform from individual workstations to group meeting spaces. Sliding markerboard doors keep personal items private and contained and reveal integrated TVs for presentations.

This image features a discontinued veneer, Fossil. Closest recommended alternative is Rye veneer.

## TIDY UP YOUR TECH.

Integrated, split-top wire channels keep cords out of sight and make it easy to plug in devices along the channel. Removable, magnetic panels provide easy access to outlets.

**modular components**

In addition to built-up casegoods, Flux features modular pieces that can be assembled into whatever configuration works best.

**credenzas**

**desks + tables**

**adjustable height units**

**peninsula desk mounting**

A peninsula desk mounts to the top of a credenza, either flush to the back or inset five inches.

**mobile pedestals**

Mobile pedestals are available in two heights, with an optional cushion top to double as a pull-up seat.

**laminate**

**veneer**

**paint**

**metal**
