

Overhead Wall Mount Storage Units

2023

Jasper Seating Company Incorporated DBA Jasper Group and Brands overhead wall mount storage units are designed and tested to meet applicable ANSI/BIFMA Standards for durability and safety. As a responsible manufacturer we recommend the following:

- Capacity is based on the individual unit and not how secure the unit is mounted to the wall
- Loads shall be evenly distributed
- Shelf and top loads are independent loading units one cannot short one and add to the other
- Mounting with steel stud walls- shall use approved steel stud mount kits
- Mounting with steel stud walls – shall be mounted into stud
- Weight capacity of the wall shall be considered
- Weight of the unit, the capacity of the unit shall be considered along with the weight capacity of the wall
- Stud mount shall be preferred
- Units shall be level when mounted
- Use professional installers
