

Environmentally Preferable Purchasing Policy

JSI recognizes that our purchasing decisions can create a positive environmental impact. It is the intent of JSI to integrate environmental considerations into every aspect of acquisition, while maintaining social and economic balance.

JSI Purchasing Managers actively seek to reduce the environmental damages associated with the acquisition of product, components, and raw materials. By increasing partnerships with environmentally preferable vendors, products, and services, (to the extent feasible, consistent with price, performance, availability, and safety), JSI continues our commitment of attaining sustainable partners throughout product and life cycle management

- Environmental factors will be considered early in the acquisition planning and decision process.
- Responsibility for environmentally preferable purchasing is shared among all purchasing agents.
- Environmentally preferable purchasing is one component of sustainability.

Approved this 10th day of February, 2014.

Mike Wagner
CEO and President

About JSI: Founded in 1929, JSI is headquartered in Jasper, Indiana, and has manufacturing facilities throughout Southern Indiana. JSI markets its products through three brands: JSI, furniture for business interiors; Community, furniture for public spaces; and Klem, furniture for hospitality.
