Bourne Tables and Storage Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Bourne product line. To attain a pleasing, symmetrical pattern, all veneers in Bourne are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Bourne is available in flat cut cherry, maple, walnut veneer and black oak. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Artisan veneer is another choice on Bourne Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern.

The diagram below shows the tight pattern used on Bourne Artisan Veneer.

Worksurface Construction

Veneer and Laminate Worksurface

Worksurfaces are 1 3/16" thick and are manufactured with 3-ply balanced construction. Surfaces are available in wood veneer or high pressure laminate. MDF edges on table tops have an undercut bevel profile and are painted to match top.

Solid Surface Worksurface

Solid surface worksurfaces are constructed with a 1/2" thick solid surface top and a 1/16" thick wood sub-top. Total thickness of this mixed material worksurface is 1 1/2". MDF edges on sub-top have an undercut bevel profile and are painted to match top.

Casework Construction

Casework tops are made up of layers of hardwood veneers molded to shape and RF cured. Outer veneers are matched for uniform grain patterns. All casework tops are 3/4" thick plywood.

Casework chassis, doors and drawer fronts consist of veneer over composite wood core; all wood core components are 3/4" thick.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers

The 9-ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1/4" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on Bourne. Please see the chart below. Samples are available upon request.
