duratex low-emission finish

To reduce hazardous emissions, we use a proprietary, specially designed top coat that offers exceptional hardness, abrasion and impact resistance while reducing hazardous or harmful gases. DuraTex significantly reduces hazardous emissions which helps to improve the quality of the indoor air we breathe.

design details

ria guest

A utilitarian vision for the Ria guest chair highlights the warmth of wood while complementing modern office style. Ria displays a thin profile with contoured back design, followed by a graceful waterfall at the knee for an inviting and comfortable sit.

Tapered legs create a refined aesthetic and light appearance.

Back legs extend beyond the top rail of the back to create a wall-saving solution that helps protect walls from damage.

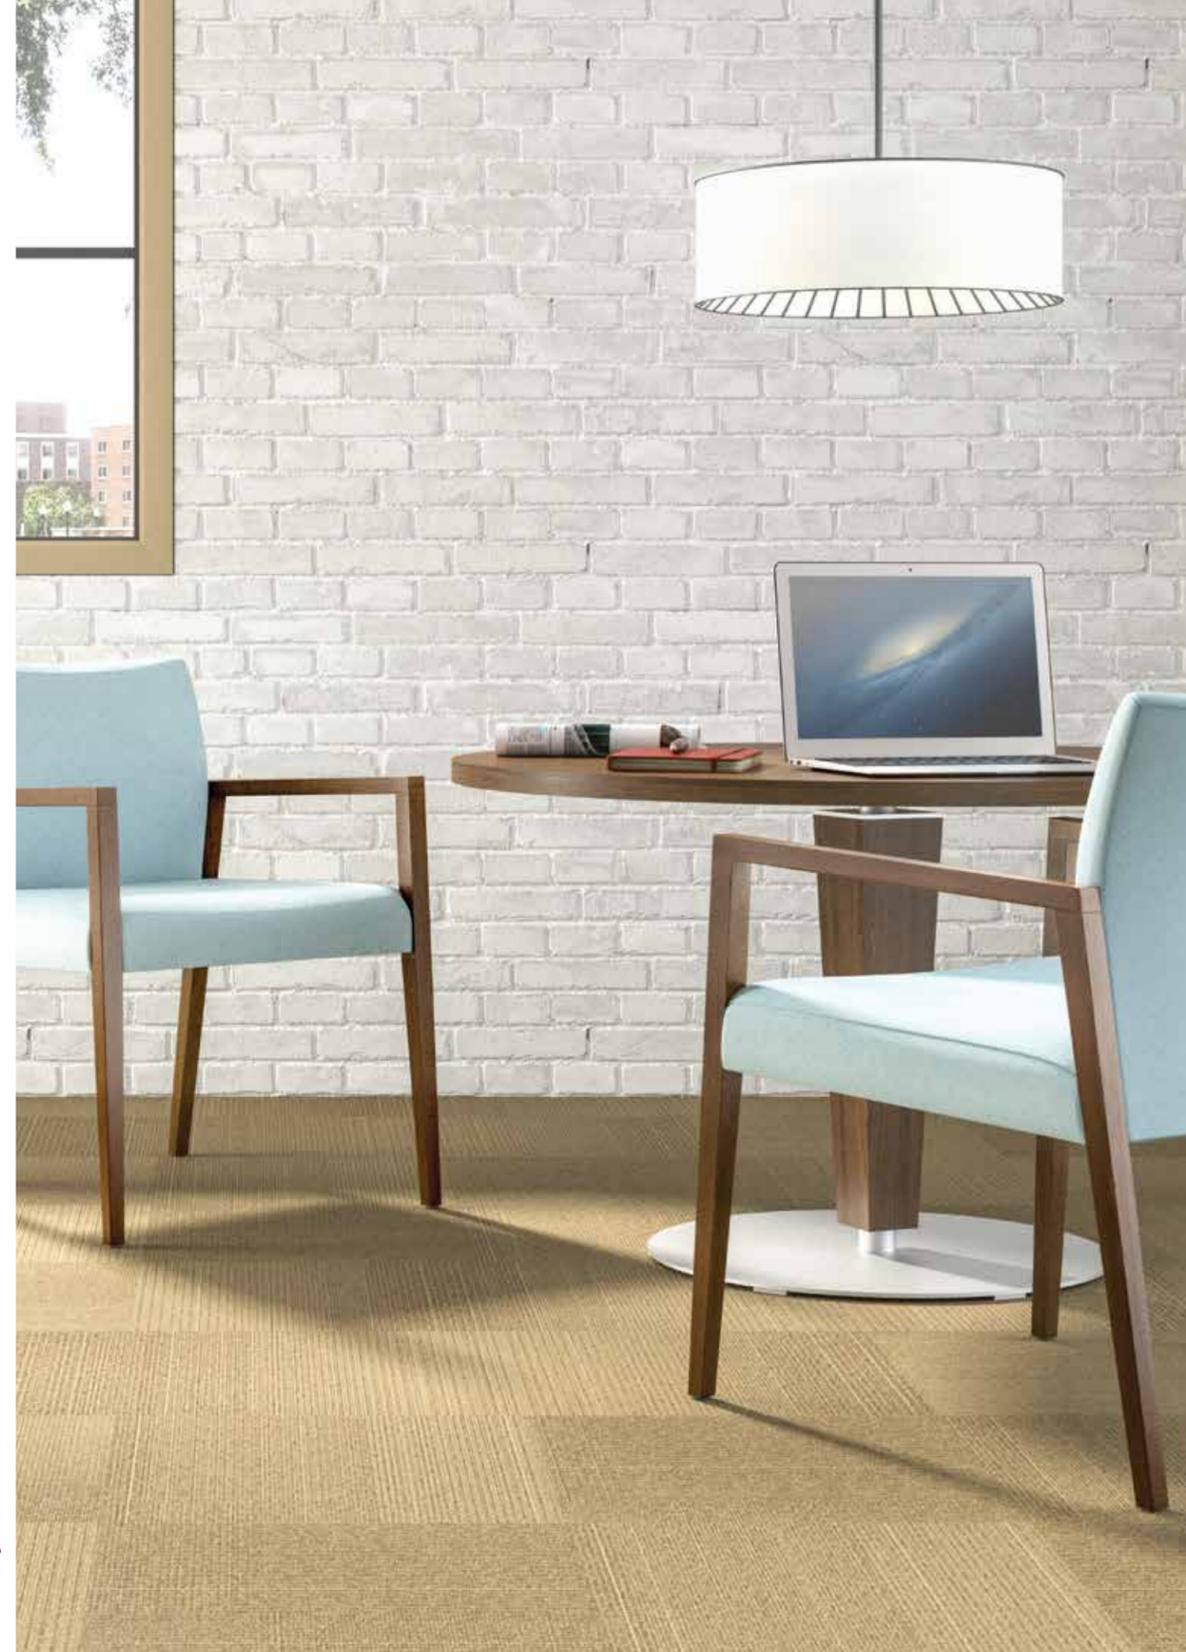

The contoured back provides a gentle surround while providing support.

ria

Ria is a single model guest chair available with a solid maple frame.
