Walden Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Walden product line. To attain a pleasing, symmetrical pattern, all veneers in Walden are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Walden is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 3-ply balanced construction, 1 3/4" thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Case Construction

All construction is a combination of mortise and tenon with bore and dowel.

All panels are 3/4" thick with 3-ply construction and rimmed with veneer bands.

Arm slides are 3-ply construction, banded on all four sides with veneer. Pedestals are enclosed at the bottom with a 1/8" thick panel securely fastened to the bottom of the pedestal.

Each corner of the pedestal has a metal reinforcement bracket with a 2 1/2" adjustable glides. All glides can be adjusted from inside the pedestal by removing the bottom drawer.

Drawer Construction

The standard Baltic Birch drawer is constructed with 1/2" thick high quality Baltic Birch plywood with a durable finish. This five sided drawer box features fully glued dovetail construction ensuring a solid, warp resistant drawer box.

Veneered bottoms are framed into grooves on four sides. Bottoms are then glued, stapled, and reinforced with a continuous band of glue.

The optional V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The V-fold vinyl wrapped drawer sides form a mitered box. The box is glued and doweled, the drawer fronts attached to the box.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

Filing Hardware

All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages [WN12-WN13](#).

Locking

All desk, credenzas and freestanding pedestals with drawers are face locked. Locks are located in the upper right corner of top drawer. Door locks are available as an option.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors

We offer a variety of wood stains on Walden. Please see the chart below. Samples are available upon request.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Product Modification

Laminate Tops

Work surface only, no additional upcharge if Walden's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first-time matches and must be included with the written request.

There is a one-time charge of **\$412 list** per order for any non-standard wood finish.

Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times.

Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product.

Use standard pricing and option pricing for each line item with a special finish, unless additional modifications have been specified. For items available in both Essential and Artisan veneers, apply the Essentials pricing.

Finish Sheen

All veneer finishes, for Walden, are standard in 35-sheen. All other finishes can have their sheen modified with a 15% upcharge added to the list price of each item.

Special Veneer

Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

Pedestal Configuration Change

Pencil-box-file configuration is standard on all desks pedestals. Standard configurations for all other units are listed in the pricing section for that model.

Drawer configurations can be switched from a pencil-box-file or box-box-file to a file-file configuration on units 28 3/4" high, but must be specified at the time of order with an additional **\$213 list** per pedestal.

Changing from pencil-box-file to file-file pedestal will eliminate the writing shelf (arm slide).

Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Walden. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible.

This chart does not apply to glass doors, or to metal components; such as grill on doors and cornices. Any changes to file drawers will affect filing capabilities.

Walden Conference Product Information

WALDEN

Walden Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Walden product line. To attain a pleasing, symmetrical pattern, all veneers in Walden are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Walden is available in flat cut cherry veneer and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction

Tops are 3-ply balanced construction, 1 3/16" thick with solid matching hardwood edges. Tops are available in federal edge style profile.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Base Construction

Panels are joined together by mortise and tenon construction. In addition to mortise and tenon joint construction. Leveling glides are set into solid hardwood with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the bases with top fastening cleats screwed to the inside of the panels.

Drawers

The standard Baltic Birch drawer is constructed with 1/2" thick high quality Baltic Birch plywood with a durable finish. This five sided drawer box features fully glued dovetail construction ensuring a solid, warp resistant drawer box.

Veneered bottoms are framed into grooves on four sides. Bottoms are then glued, stapled, and reinforced with a continuous band of glue.

The optional V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The V-fold vinyl wrapped drawer sides form a mitered box. The box is glued and doweled, the drawer fronts attached to the box.

Drawer Suspension

The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension.
