

 JSI HEALTH

NURTURING CONNECTION AND CARE

Turning Challenges Into Opportunities

While there are significant issues impacting the healthcare experience, JSI's holistic approach transforms these challenges into opportunities that enhance caregiver experiences and elevate patient comfort and connection.

DRIVER 1

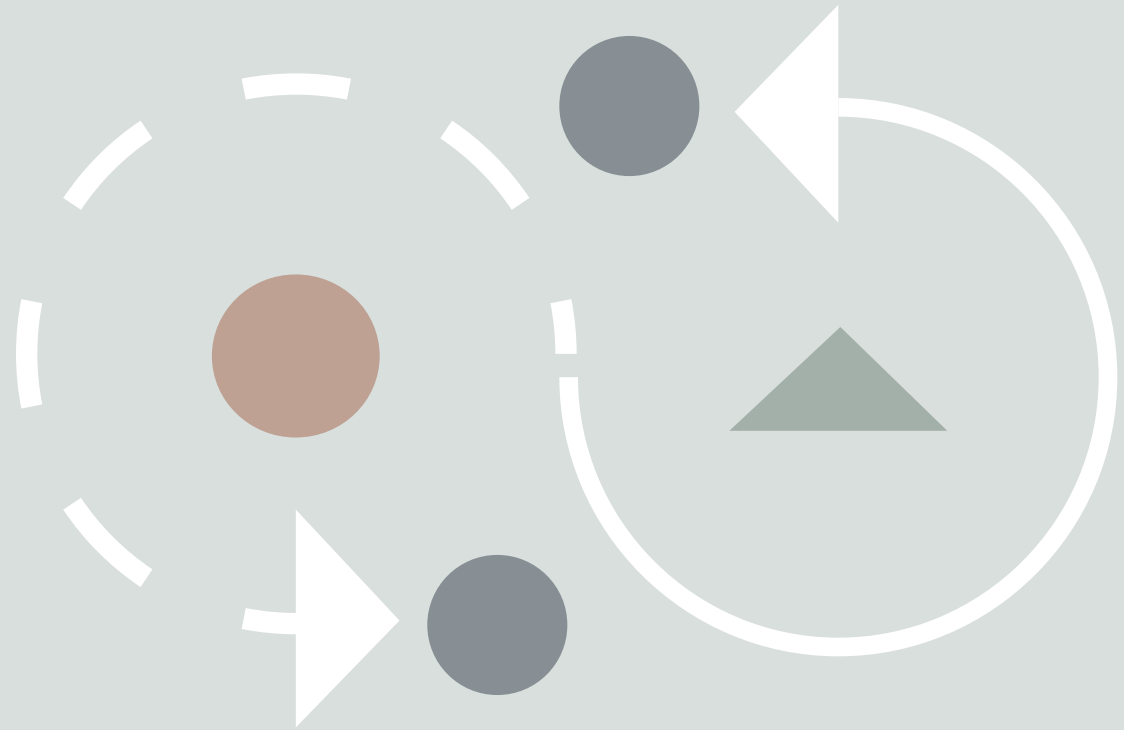

Adaptable, Efficient Spaces

The inability to quickly reconfigure spaces to meet diverse healthcare needs can disrupt workflow, while inefficient design further impacts patient care.

25%

of US healthcare spending
(\$935 Billion) is lost annually
due to inefficiencies.

Journal of the American Medical Association, October 2021

Designing Fluid Versus Fixed Spaces

DRIVER 2

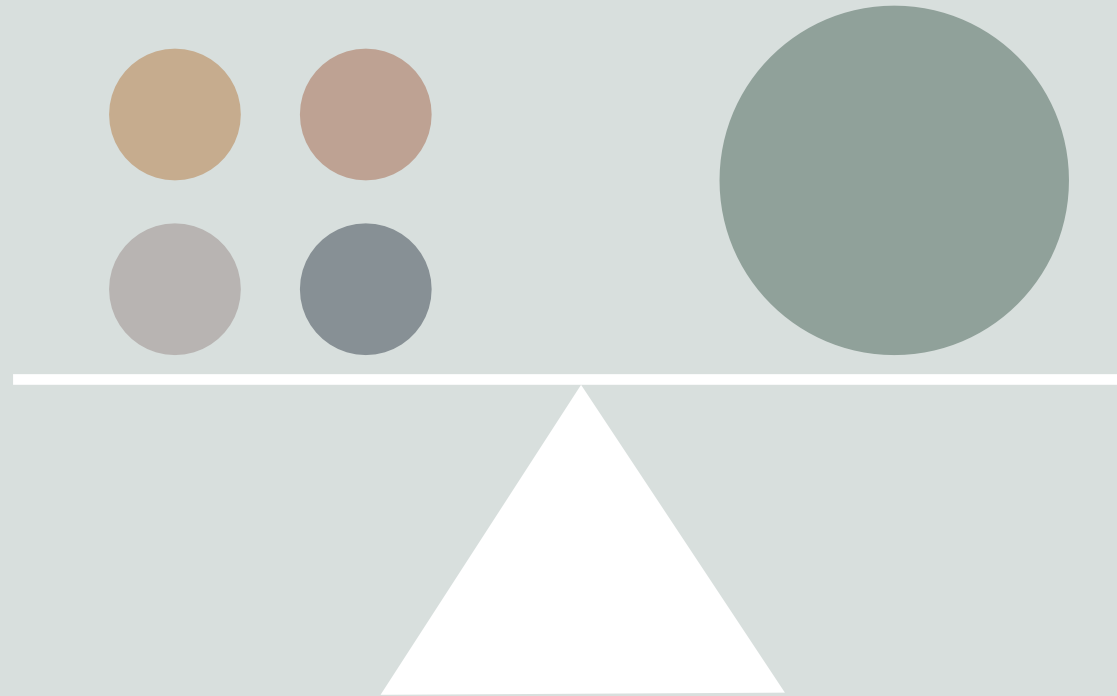

Comfort & Connection

Many healthcare environments lack furniture that balances patient comfort while supporting family and friends, which can hinder recovery and healing processes.

47%

Patients who are unsatisfied with the ergonomic features and aesthetic design of healthcare furniture.

Toward Furniture in Healthcare Setting, October 2020*

Balancing We Versus Me Comfort

DRIVER 3

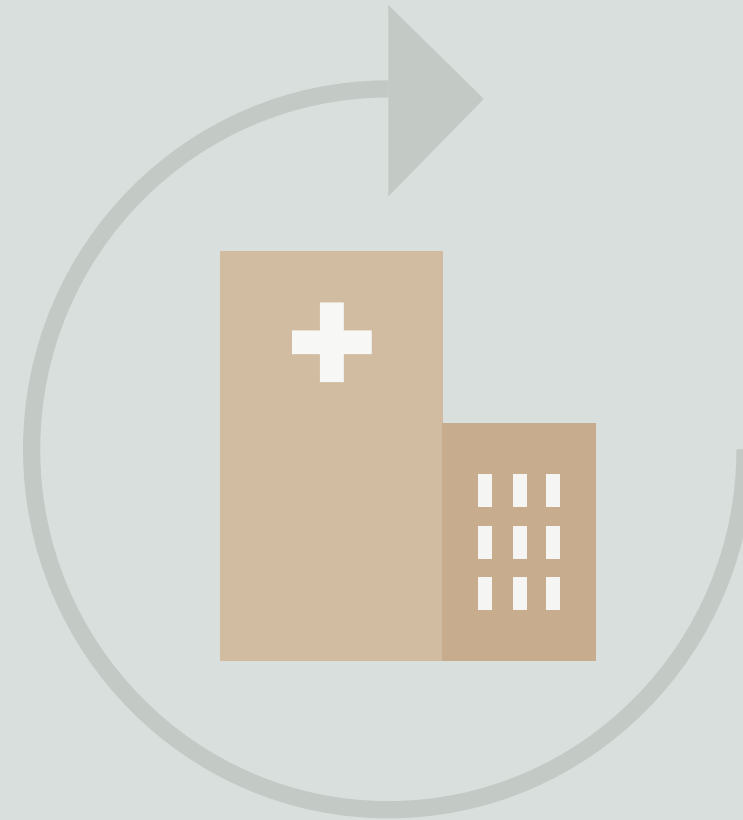

Human-Centered Care

A lack of inclusive design can lead to disparities in patient experiences, failing to accommodate the diverse needs of all patients.

28%

of U.S. adults live with a disability highlighting the need for inclusive healthcare design.

Centers for Disease Control and Prevention, 2024

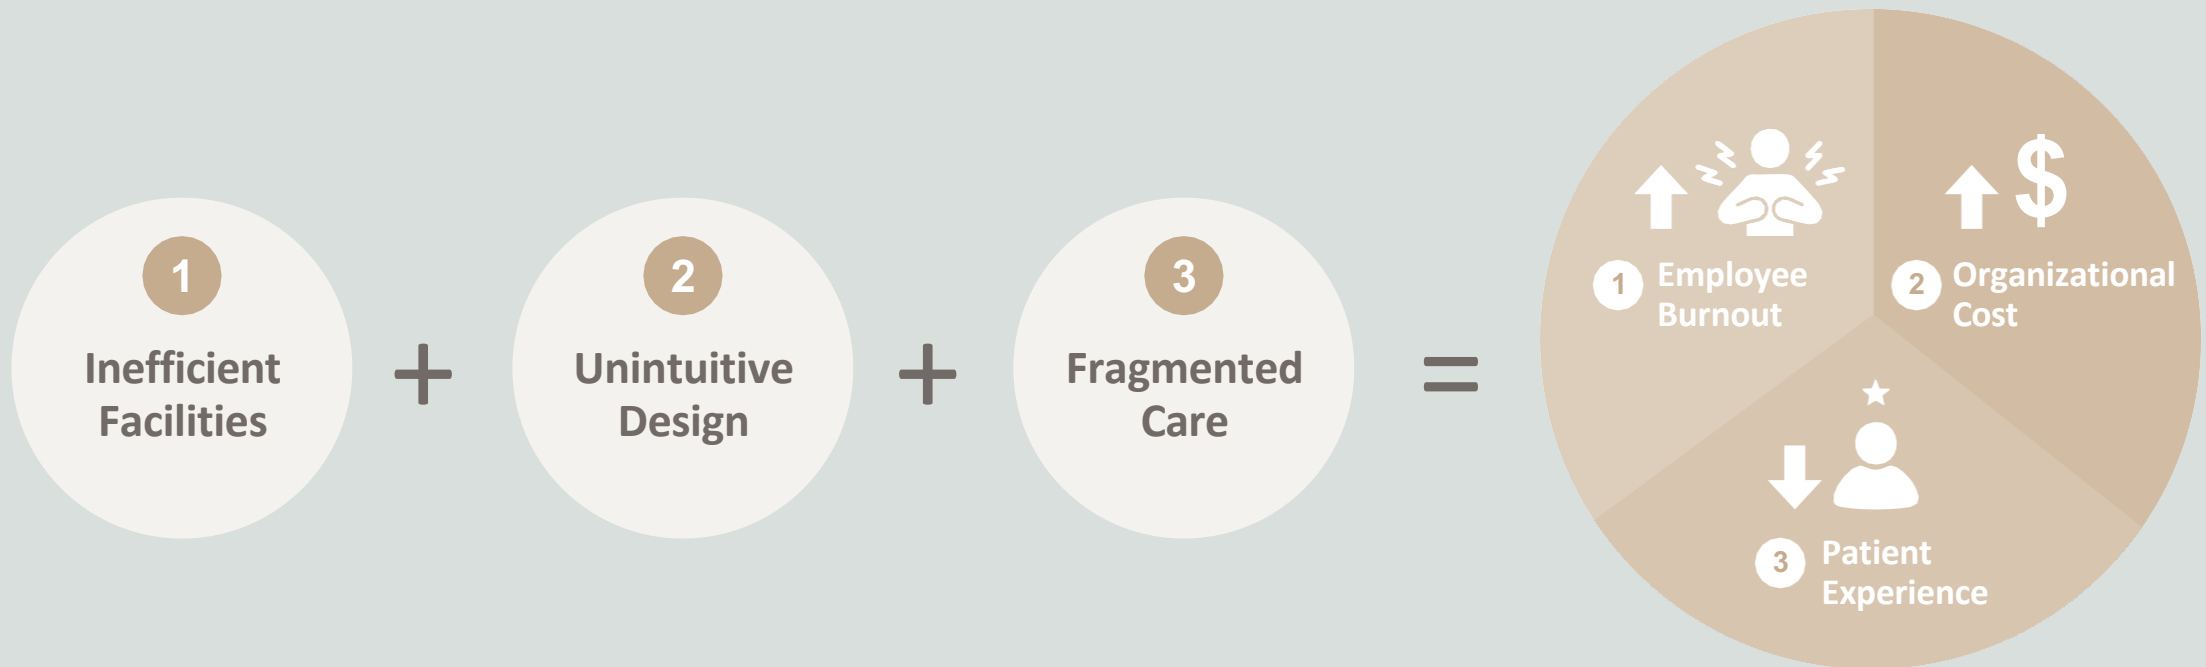

Supporting Holistic Connected Care

IMPACT

Inefficient Connection & Care

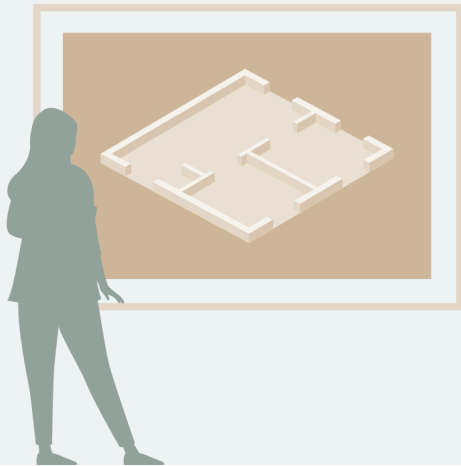

These factors compromise an organization's ability to optimize facility performance, enhance the patient experience, and nurture a sense of belonging.

How JSI Health Can Help

By embracing a forward-thinking approach, supporting comfort through purposeful design, and fostering inclusivity with connected care, JSI Health inspires caregivers to love where they care and patients to love where they heal.

Connected Care

Future-Focused

Flexible Planning Approach

We maximize outcomes by integrating our industry and product expertise with your understanding of patient and caregiver needs to create adaptable spaces that empower everyone.

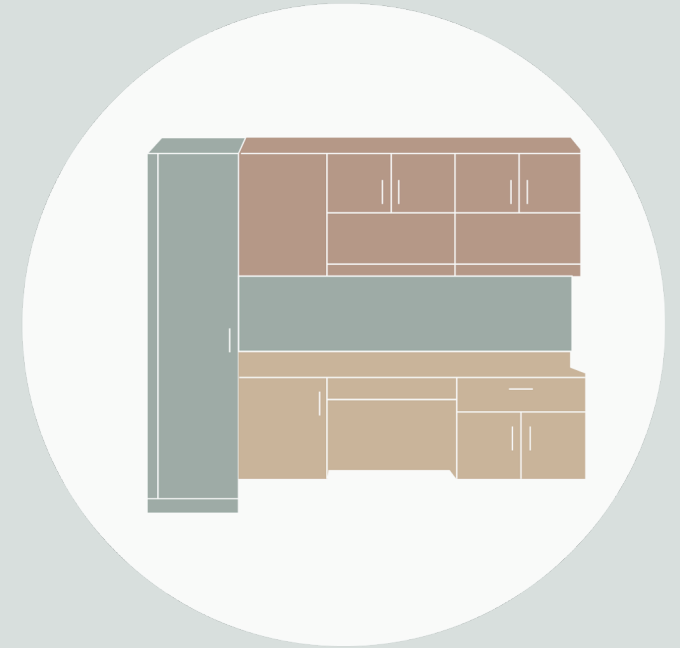

FUTURE-FOCUSED

Agile Solutions

Our thoughtfully designed portfolio of products prioritizes flexibility, making it easier for facilities to respond to everyday demands and unexpected challenges.

Ready For Today

Adaptable for Tomorrow

Purposeful Design

Human-Centered Solutions

We leverage our design innovation, healthcare expertise, and bespoke capabilities to enhance comfort for patients and caregivers and maximize your return on investment.

PURPOSEFUL DESIGN

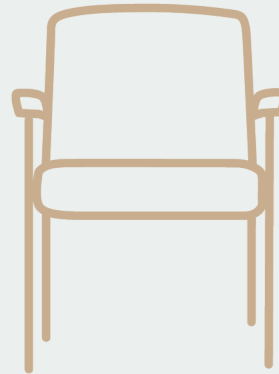

Innovating Since 1876

From earning the first furniture patent in 1890 to driving innovation with today's Nightingale Awards, we have a long legacy of shaping the future of design with human-centered solutions that balance comfort and functionality.

Connected Care

Designing Meaningful Connections

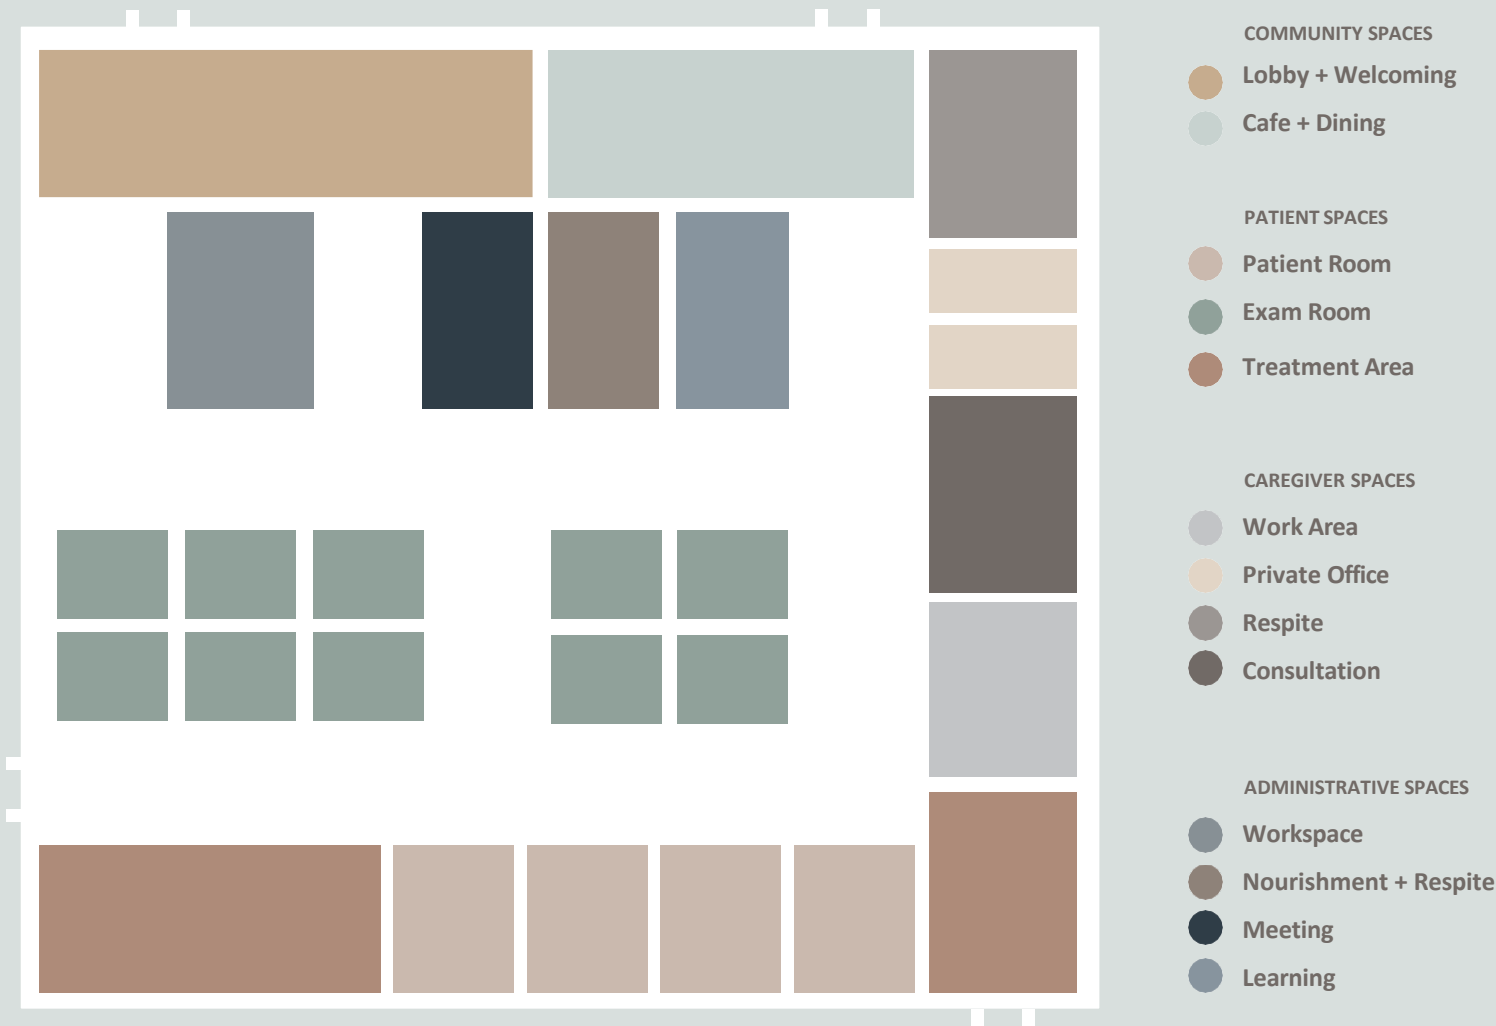

Informed by your design vision, we create calming, inclusive environments that foster connection and belonging—all brought to life in a nurturing way only our products can.

CONNECTED CARE

Holistic Integration

Designed to support every caregiver need and patient encounter, our furnishing solutions foster meaningful engagement and enhance care throughout an entire facility.

Nurturing Connection & Care

By embracing a forward-thinking approach, leveraging purposeful design, and prioritizing innovations that foster connected care, we inspire individuals to love where they thrive, love where they care, and love where they heal.
