GRACELIGHT COMMUNITY HEALTH | Hollywood, CA

Designer: Boulder Associates

Portfolio Gracelight Community Health

At the heart of Hollywood, Gracelight Community Health turns two floors of a former office building into a 27,000 square foot neighborhood clinic, taken from schematic design to Certificate of Occupancy in under a year. This OSHPD 3 FQHC unites primary care, pediatrics, optometry, dental, and case management, with vivid brand color at the entry easing into calmer care spaces and custom neighborhood map graphics that anchor it in the community it serves.

JSI Support

Full CET specification and space planning provided by JSI Health in partnership with Boulder Associates, from concept through installation.
