Designer: Kalinda Carnahan, IIDA, NCIDQ | STEELE Associates Architects
Dealer: 9 to 5 Office Furniture

JSI

## MORE THAN A PLACE TO PARK.

Bend RV Resort is a new, high-end destination designed to make the stay as memorable as the setting. The owners envisioned a fun, playful resort with an elevated yet welcoming feel, offering guests a variety of amenities and spaces to make their own. JSI partnered with 9 to 5 Office Furniture to furnish gathering areas, a business center, and a quiet library, blending Indie lounge seating, Nosh tables, Jude seating, and Copilot tables throughout the resort.

The library was designed as a true retreat within the resort. Indie lounge seating anchors the space with a residential feel, creating a natural place to pull up a book, spread out a puzzle, or gather with family at the end of the day.

Indie's relaxed, residential-inspired lounge seating brings softness and comfort to the coffee-bar area. Its low, inviting profile creates an easy place for guests to settle in with a drink, catch up with friends, or take a quiet break between activities.

From casual dining to focused work, the resort gives guests spaces that support the rhythm of their stay. Nosh tables and Jude seating create a welcoming setting for meals and conversation, while the business center features Copilot tables in a comfortable place to check emails, take a call, or get a little work done.

The resort's lounge and game spaces embrace the owners' fun, playful vision. Indie seating, from rocking chairs to versatile poufs, brings color, comfort, and flexibility to spaces made for conversation, a friendly game, or simply unwinding together.
