JSI

NATURALLY INSPIRED.
THOUGHTFULLY DESIGNED.

Mid Oregon Credit Union's Old Mill location brings together its eighth full-service branch and corporate headquarters in Bend, Oregon. Defined by striking mass-timber architecture, the space pairs natural warmth with a refined, contemporary aesthetic. Thoughtfully selected JSI furnishings complement the building's character, creating comfortable, welcoming environments for members and employees alike.

JSI's Vision collection brings a refined, functional foundation to private offices, pairing clean-lined work surfaces with warm wood finishes. Bourne guest chairs introduce soft upholstery and inviting comfort, creating welcoming spaces for focused work and one-on-one conversations.

Behind glass-front walls, Vision furnishings create polished, purposeful workspaces that balance privacy with a sense of openness. Complementary finishes and thoughtfully selected seating carry the building's natural warmth into each office, maintaining a cohesive environment that feels connected to the larger space.

From casual gathering areas to shared spaces, Bourne stools bring comfort and character through their soft upholstery and warm finishes. BeSPACE benches offer an inviting place to pause, adding versatility and a relaxed, approachable feel while maintaining the building's refined aesthetic.

Native conference tables and Arwyn seating bring together function and comfort in collaborative spaces. Subtle textures, complementary finishes, and clean lines establish a refined setting for meetings, allowing the architecture to remain a defining feature of the design.
