## DESIGNED FOR CAMPUS LIFE. MADE FOR CONNECTION.

At Mississippi Valley State University, the Jacob Aron Student Union brings campus life together under one roof. Following a renovation and expansion, the building offers places for students to gather, connect, and take part in the activities that shape their college experience. JSI furnishings, including the Arwyn seating family, create an inviting backdrop for the moments in between.

From a quick conversation between classes to a longer visit with friends, the union's lounge areas offer room to settle in and spend time together. A mix of Indie lounge seating and poufs gives students choices in how they gather, while the university's colors bring campus identity into the space.

Beyond the lounges, the student union makes room for the activities that bring campus together. In the larger meeting space, Hoopz chairs and Lok tables support group learning and conversation, creating a practical setting that can serve a variety of campus programs and events.

Products included: Arwyn, Indie, Hoopz, Knox, Lok, Nosh, Proxy
