

Thank you for considering supporting Jenison Robotics. Jenison Robotics is a program serving Jenison Public Schools students in 4th -12th grades. Teams of students design, build and program their own robots. They then compete with these robots against other teams from Jenison, Grandville, Hudsonville and all around the state. While participating in robotics students learn valuable lessons in engineering, programming, teamwork, problem solving and sportsmanship. Our goal as a program is to inspire students to take what they learn and pursue careers in science and technology. We do this by creating opportunities for students to engage in after school activities that create a very effective mix of technology and sports. We are excited to be planning for the 2022 - 2023 competition season.

Over the last several years Jenison teams have found a lot of success on the competition field, representing our community at various events around the state, VEX State Championship and at the World Championships in Dallas, Texas. But the program is more than wins and losses. These students have gained valuable engineering and programming experience in a safe and supportive after school setting. This would not be possible without the continued support of our community and local businesses. Jenison Robotics is a volunteer-run non-profit program. All money raised goes directly into the program for things such as robot kits, parts, computers for the students, and maintaining our current building. The old saying is true, every little bit helps. All donations are tax-exempt under the Internal Revenue Code section 501(C)(3). We are very appreciative of any donation you can make. However, we do have sponsorship opportunities available as well if your organization is able.

Thank you for any contribution you can make. Feel free to call or email if you have any questions or would like to learn more about Jenison Robotics.

## Sponsorship Opportunities

### Premium Sponsorship: \$1000

- Company logo on screen as a premium sponsor at Jenison hosted tournaments and competitions
- Company logo and mentions on our Facebook page and social media
- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at [jenisonrobotics.org](http://jenisonrobotics.org)

### Platinum Sponsorship: \$750

- Company logo and mentions on our Facebook page and social media
- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at [jenisonrobotics.org](http://jenisonrobotics.org)

### Gold Sponsor: \$500

- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at [jenisonrobotics.org](http://jenisonrobotics.org)

### Silver Sponsor: \$250

- Company logo on team shirts
- Company logo and link to your website on our sponsor page at [jenisonrobotics.org](http://jenisonrobotics.org)

Thank you for your generosity and support as we build a strong Jenison Robotics program and train the engineers and computer programmers of the future.
