

The **ROI** of Corrigo

Based on extensive customer interviews, a third-party market research firm created a composite financial model identifying the time- and cost-savings from using the Corrigo facilities management software during a three-year period.

238%
return on investment

 **JLL/Technologies**

\$4.7M

total savings over 3 years

less than **6 mos**
payback period

\$1.5M

saved by tracking and enforcing warranties

\$1.7M

saved by transitioning to preventive maintenance

\$1.0M

saved by gains in efficiencies including processing invoices

We're sharing messages, notes, photos, and documents all within the Corrigo software, and it's all instantaneous. The benefit of that is immeasurable.

—Corrigo customer

\$400

saved per work order by switching from reactive to preventive maintenance

\$370K

saved on reduced overhead

80 hours

saved onboarding each new installation

Improved vendor quality

Corrigo customers value the deep insights they get about vendors in their area. More choices lead to higher-quality vendor experiences.
