9TH

DRIVE RENTAL PERFORMANCE WITH A SOUTH FACING TERRACE

Planning permission was granted in March 2023 for conversion of the existing roof level into a substantial terrace. This will provide an enhanced outdoor amenity for tenants while also improving the building's overall sustainability credentials.

Subject to planning, there is further opportunity to convert the 9th floor (currently plant) into high-quality office accommodation. Incorporating these works would improve access to the roof, significantly reducing the overall cost of undertaking the roof enhancements.

OCCUPATIONAL MARKET DYNAMICS

Covent Garden is one of the West End's most dynamic submarkets attracting a wide and diverse range of businesses, from creative and media companies to tech startups and professional services firms, drawn by the areas vast amenity.

A limited number of new developments, in addition to increasing demand for bestin-class accommodation, has resulted in a heavily under-supplied office market, especially for well amenitised, sustainable buildings with flexible floorplates.

All market indicators suggest strong rental performance with recent evidence in excess of £100 psf. With rents forecast to rise over the next five year's the Covent Garden market is set to outperform.

A DE-RISKED ASSET WITH LONG-TERM GROWTH POTENTIAL

- Ability to execute an **accelerated business plan** with all 'heavy lifting' already completed via recent refurbishment works
- 2024 refurbishment included newly refurbished reception and lifts, new endof-journey facilities and dedicated tenant gym with interactive fitness studio
- Institutional grade building with excellent fundamentals including generous floor to ceiling heights and excellent natural light
- Optionality to refurbish to a CAT A or CAT A + specification at an enhanced rental tone
- **Proven ERV** in the building on both CAT A and CAT A + basis, demonstrated through recent lettings
- Forecasted strong rental growth performance in the Covent Garden submarket.
- Letting history demonstrates the draw from both West End and City Midtown occupier markets

- Flexible floors plates offer ability to split floor with minimal loss of NIA
- Accretive debt will enhance returns both on an IRR and Cash on Cash basis for a longer term hold period
- Existing consent for the substantial south facing terrace at roof level, with further potential to convert the 9th floor plant enclosure into lettable space to further drive rental performance
- Recent capital investment has delivered CAT A+ specification across floors three, five and six. The ground floor is also being delivered to a CAT A + specification completing in August 2025
- The seventh and eight floors have been refurbished to a CAT A specification, whilst the first, second and fourth floors remain unrefurbished
- Clear opportunity to refurbish remaining floors and let vacant space to drive a rent in the region of £4.5 million per annum
