DEAN FARMS

PRIME INDUSTRIAL LAND DEVELOPMENT OPPORTUNITY IN RALEIGH-DURHAM MSA

OPPORTUNITY OVERVIEW

Jones Lang LaSalle, a North Carolina licensed real estate broker ("JLL"), is pleased to present Dean Farms for fee simple sale or joint venture partnership, a prime industrial land development opportunity in Eastern Wake County. The site comprises approximately 44.08 acres with frontage along Wendell Boulevard and is located less than 5 minutes from I-87. The property benefits from in-place PUD zoning approved by the Town of Wendell that permits warehouse and office space development with the potential to develop north of 350,000 SF upon full project build out. Water access is available, and the current landowner has secured an easement from the adjacent southern property to facilitate sewer extension and provide site access.

Located within the East Wake submarket of the Raleigh MSA, approximately 20 minutes east of Downtown Raleigh, the site offers strong connectivity to the greater Triangle region and Research Triangle Park (60,000+ jobs). Wendell is experiencing robust population growth, anchored by two large master-planned communities developed by Brookfield: 4,000 residential units completed or under construction at Wendell Falls, and an additional 2,000 units underway at the adjacent Ponder development to the east. This substantial residential investment creates compelling fundamentals for industrial development, particularly for last-mile distribution facilities and trade users seeking to serve dense, high-growth residential communities.

WENDELL FALLS

ONE OF RALEIGH'S MOST CHARMING AND EXCITING COMMUNITIES

Wendell Falls is a 1,100-acre master-planned community that blends small-town charm with urban convenience. Located just 15 minutes from Downtown Raleigh, the development features 237 acres of parks and green space, over 10 miles of walking and biking trails, and a brand-new WakeMed HealthPlex providing comprehensive healthcare services to residents. At the heart of the community lies Treelight Square, a walkable mixed-use destination offering neighborhood retail and dining options anchored by a 48,000-square-foot Publix. With more than 4,000 residential units developed or planned, Wendell Falls has emerged as a primary growth driver for Eastern Wake County, establishing itself as one of the region's most successful master-planned destinations.

Wake Tech East Campus

WAKE TECH EAST CAMPUS

Wake Tech Community College recently opened a brand new campus serving the Eastern Wake population and investing over \$120M in the multiphase project. The campus offers degrees in arts, sciences, engineering, emergency medical care, industrial technology, and aviation, helping to cultivate a local economy that is primarily driven by the technology, life science, and manufacturing industries.

STRATEGIC POSITIONING

DIRECTLY IN BETWEEN DOWNTOWN RALEIGH & EASTERN WAKE COUNTY'S MAJOR ECONOMIC CENTERS

Dean Farms is uniquely positioned just 20 minutes to the east of central Raleigh. This proximity to Downtown Raleigh allows a future developer quick access to the Research Triangle's core economic drivers, including 60,000 jobs across a variety of industries, such as life sciences, technology, manufacturing, financial services, and more. WakeMed, Pfizer, GlaxoSmithKline, and Cummins, all have major operations based in Wake County's top employment hubs east of Downtown Raleigh.

COMPANY	CAPITAL INVESTMENT	NEW JOBS	DRIVE TIME TO ASSET
Novo Nordisk Clayton, NC	\$4.1B	1,000	25 min
Johnson & Johnson Wilson, NC	\$2.0B	420	35 min
Reckitt Benckiser Health Wilson, NC	\$200M	300	35 min
Cummins Rocky Mount, NC	\$580.0M	80	40 min
Siemens Wendell, NC	\$36.M	200	10 min
Neopac	\$10.0M	27	30 min

Novo Nordisk announced plans to expand its operations in Clayton, NC with a \$4.1B investment in a new, 1.4M SF fill and finishing manufacturing site in June 2024, creating 1,000 new jobs. This announcement is one of the largest manufacturing investments in the company's 101-year history and the largest capital investment in North Carolina life sciences history. Construction is expected to be gradually finalized between 2027 and 2029, with salaries for new positions starting at \$70,000.

THE 540 EXPANSION EFFECT

The ongoing Complete 540 project is the largest highway project in North Carolina history and the first modern toll road in the state. The first expansion of I-540 opened in 2012 and has provided major connectivity around West Raleigh, Southeast Durham, and Research Triangle Park. The project has a proven track record as a catalyst for significant economic development, as evidenced by the rapid rental growth seen in towns adjacent to the original 2012 expansion.

The project will significantly improve commuter mobility, accessibility, and connectivity to the RTP employment center, with an average expected travel time savings of 17 minutes per trip by 2030. The project is also expected to generate approximately \$811 million in total economic impact throughout the same time period. TIFIA financing allowed for the realization of these benefits approximately 20 years sooner and with \$388 million of cash flow interest cost savings compared to conventional financing methods. The completion of the 540 expansion will bring new commercial development to Dean Farms' surrounding area, thus enhancing both the Property's value and appeal to potential tenants.

WAKE TECH EASTERN 4.0 CAMPUS

Located less than 5 minutes from Dean Farms, Wake Tech broke ground on its highly anticipated Eastern Wake 4.0 campus in late 2021. The incoming development paired with the transformative Wendell Falls Master Plan is catalyzing Eastern Wake County's continued growth and local economy. The site is situated along the I-87/US 64 corridor in Wendell.

Eastern Wake 4.0 refers to the term Industry 4.0, a fourth industrial revolution with the convergence of machines and processes. Wake Tech will introduce educational programs developed around emerging technologies such as 5G, big data, cloud computing, and smart manufacturing. Plans for the 106-acre site include a public safety simulation complex, a general education and student services building, and a Technology 4.0 facility. At its opening, Wake Tech will offer associates degrees/certificates in engineering, emergency medical science, bio-pharmaceutical technology, intelligent automation, robotics, and unmanned aircraft systems operations and repair.
