Windows

100% OF THE ELECTRICITY REQUIREMENTS FOR THE SAN FRANCISCO OFFICE PORTFOLIO SUPPLIED THROUGH LOCAL SOLAR AND WIND POWER BY 2026.

BROOKFIELD PROPERTIES
SUSTAINABILITY

BENEFITS TO TENANTS

1

INCREASES demand for finite zero emissions electricity supply, incentivizing new development and improving the mix of in-state clean energy sources.

2

SUPPORTS the development of new community-focused clean energy supply, green jobs, and investment into the local community.

WE WILL ACHIEVE this by procuring power through the Clean Power SF "Super Green Program", a local community choice aggregation program provided from the SF public utilities commission that provides renewable electricity from solar and wind power facilities to customers.

Zero Emissions Electricity

Fresh air circulation via operable windows

MERV-14 filters removing up to 95% of air impurities

AWARDS & CERTIFICATIONS

The logo consists of the number '685' in a large, bold, white sans-serif font, with the word 'MARKET' in a smaller, all-caps, white sans-serif font directly beneath it. The text is contained within a white square border.

BREATHING NEW LIFE INTO A HISTORIC GEM

A major lobby and atrium upgrade in 2024 revitalized the grand entryway. Bold lines and contrasting colors bring a breath of fresh air to the space while maintaining the lobby's historic charm.
