Key commentary:

- Highly sought after and hard to find infill East Tampa location, ideal for a variety of potential uses (agriculture, residential, IOS, industrial, etc.)
- Bordering industrial to the south/west; rezone to allow industrial usage highly likely per prior conversations with the County
- Site to the south has future land use of light industrial, bodes well for future rezone application
- Nestled in between Hartford St And Causeway Blvd, key industrial thoroughfares in East Tampa
- Wetlands on the south portion of the site are minimal, defined as “emergent scrub wetlands of poor quality.” Per wetlands consultant, there is a path to mitigation
- Lies within City of Tampa (COT) utility area; water/ sewer directly to the east/west of the site currently that can be pulled to the site along Hartford St.
