

Creating a Place for Inspiring Science.

3201 Cuthbert Street

Creating the Future.

Seated at the heart of Philadelphia's life sciences community, 3201 Cuthbert is perfectly positioned and equipped to support discovery, collaboration, and innovation in the field, with the most robust life sciences infrastructure in the region.

Designed by Robert A.M. Stern Architects and targeting LEED Gold certification

Accessible outdoor spaces

Neighborhood café and restaurant with outdoor seating

Access to abundant neighborhood amenities

Convenient to Amtrak's 30th Street Station, Septa's Market-Frankford Line, and the region's highway network

Creating Life-Enhancing Therapies.

519,647 RSF, 11 stories, 50,000+ RSF of floor plates, and expanded floor-to-floor heights of 16-24 FT

Lab/office floor loading capacity of up to 175 LBS/SF, including finishes

Six fully enclosed loading docks and five service elevators with up to 8,000 LB capacity

Best practice chemical storage space and pH neutralization capability

Generous space for tenant equipment and vertical shaft infrastructure

15 W/SF power for lab areas

Excellent vibration criteria of up to 2,000 MIPS

HVAC designed for 60% lab/40% office split, providing 1.5 CFMs/SF or greater for lab areas

Building can accommodate cGMP manufacturing

Creating a World-Class Life Sciences Hub.

Located at the center of University City's
life sciences district

Philadelphia ranked 2nd among the nation's
top 14 markets for cell and gene therapy,
according to Econsult Solutions' Oct 2022
"The State of Cell and Gene Therapy in the
Greater Philadelphia Region" report

Nearly \$5 billion raised in venture
capital for Philadelphia life science
companies in 2021-2022

Regional employment for cell and
gene therapy personnel has more
than doubled between 2019-2022
