Utility Infrastructure

ELECTRICITY

- Onsite substation (Dominion Cogentrix 0148) with dedicated 230kV transmission to the Hopewell switchyard; idle but maintained, previously supporting up to ~130MW of generation.
- Primary and secondary Dominion voltage service available at two entry points.

NATURAL GAS

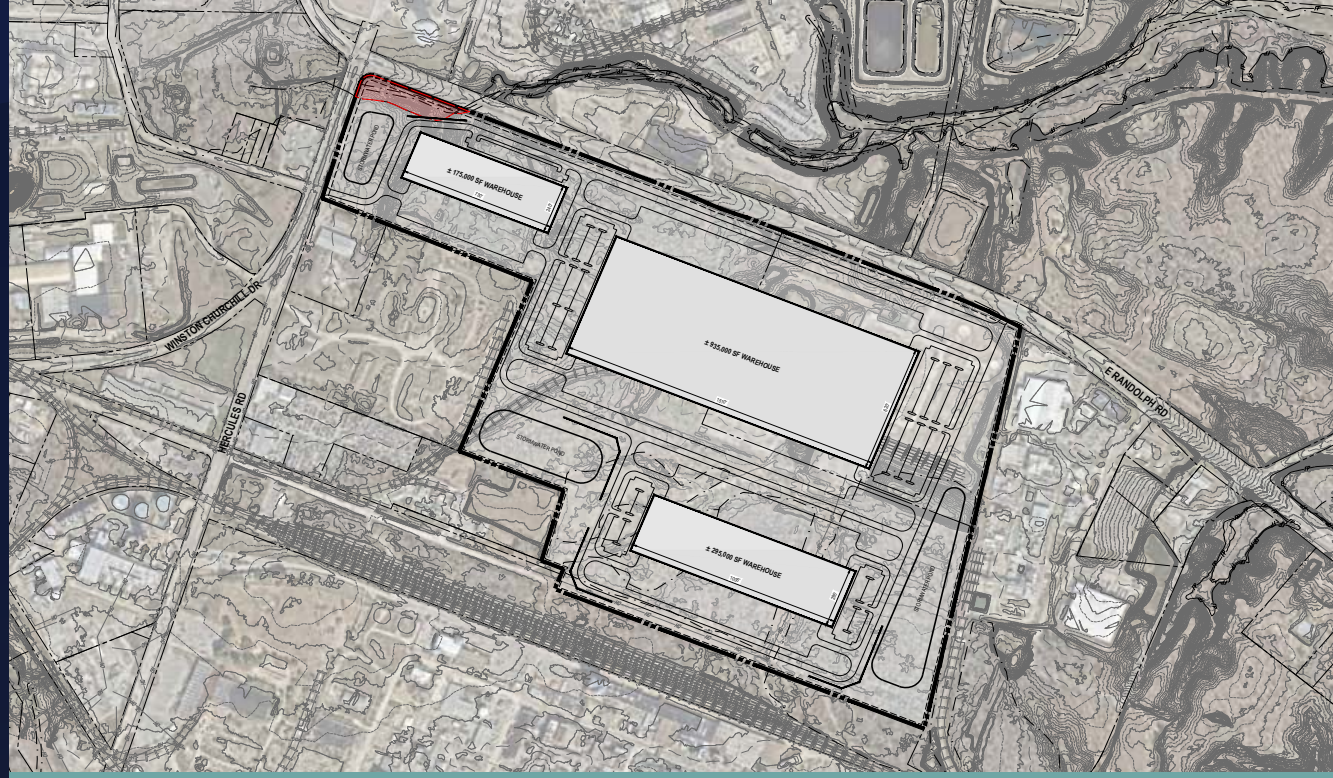

- Columbia Gas municipal medium-pressure supply runs along Rt10.
- Adjacent 12" TCO interstate pipeline (500 psig) can supply high-volume usage (500,000-10,000,000 cuft/day).

WATER

- Dual-source service.
- 20" diameter industrial header with prior flow capacity exceeding 2,000 GPM.

SEWER

- Current 6" force main with prior permitted discharge capacity up to 750,000 GPD.
- Nearby second lift station additional capacity.
