# INTERNATIONAL CONFERENCE AND DIVERSITY AND INCLUSION PROGRAMS

# ABOUT WONDER WOMEN TECH

Wonder Women Tech is an organization that produces year-round programming and national and international conferences that highlight, educate, and celebrate women, diversity and inclusion in STEAM (Science, Technology, Engineering, Arts, Math), innovation and entrepreneurialism. Our conferences and programming offer a variety of speakers, panel discussions, coding classes, workshops, hackathons, community inclusion activities, thought leadership, and other dynamic programming geared towards empowering women, girls, people of color, the underrepresented, and diverse communities.

We seek to create a shift in diversity and inclusion within STEAM industries by offering revolutionary content and impactful discussions.

# OUR VISION

## INNOVATE

*We Disrupt the STEAM Industry For Women & Diversity*

Our mission is to highlight, educate and celebrate women and diversity in STEAM. We seek to disrupt the conference model, creating a shift in diversity and inclusion within STEAM industries, by offering the latest game-changing trends and revolutionary content.

We produce international events that will further the development of females and diverse global communities while creating new markets and industries.

## EMPOWER

*We Cultivate Inclusivity & Collaboration To Transform Communities*

Our WWT Immersion program pairs our Sponsors and Partners with our attendees and online community network with mentorship, internship and 'Job Shadow' opportunities. The Wonder Women Tech Ambassador program creates a cross promotional partnership and engagement platform between our strategic partners and the WWT global community.

## IGNITE

*We Spark The Potential For Greatness Within Future Innovators*

Our Junior Innovation Camp is provided at no cost to participants and engages students ages 13 to 17 with courses that teach coding, game development, DIY projects and entrepreneurship. The WWT Learning Center teaches adults, seniors, the deaf and disabled, computer basics and how to code and/or build games. Our WWT Career Fair allows registered guests to attend a career fair which will feature booths from our sponsors and partners who are recruiting and actively looking to diversify their workforce, and provides an opportunity for attendees to secure job placement, mentorship, and internships.

## Creating an Impact for our Future Pioneers

Women quit more than twice the number of men in the high tech sector

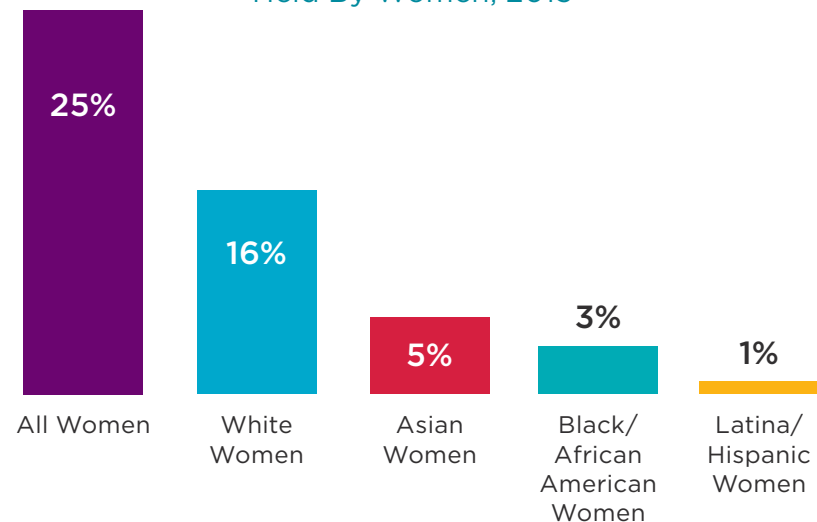

**41% For Women**  
**17% For Men**

# THE NEED

## UNDERREPRESENTATION OF WOMEN

It's a well known fact that women and people of color are underrepresented in STEAM fields. In 2015, women held 57% of all professional occupations, yet they held only 25% of all computing occupations.<sup>1</sup> In addition, participation levels for women of color are even lower.

Percentage of Computing Occupations Held By Women, 2015<sup>1</sup>

## ATTRITION

The attrition rate of women quitting in the high tech sectors is more than twice the number of men.<sup>2</sup> This figure is troubling, considering that companies who invest in these women lose 50% of their female talent.

Some of the significant factors that contribute to female attrition include workplace experiences, lack of access to key creative roles, and feeling "stalled" in their careers due to the difficulty to advance into leadership roles such as C-suite or senior management positions.<sup>3</sup>

<sup>1</sup> Bureau of Labor, 2016

<sup>2</sup> Harvard Business Review, *Stopping the Exodus of Women in Science*, 2008

<sup>3</sup> National Center for Women & Information Technology, *Women in Tech: The Facts*, 2016

## LACK OF DIVERSITY = LOSS OF PROFITS

A series of studies demonstrated that diverse teams consistently outperform teams comprised of only the highest-ability members,<sup>4</sup> while an analysis of more than 20,000 venture-backed successful tech companies had twice as many women in senior positions as unsuccessful ones.<sup>4</sup>

## DECREASE OF STEAM-BASED CURRICULUM

The U.S. developed as a global leader through its scientists, engineers, and innovators, yet not enough of our youth have access to quality STEAM learning opportunities. With fewer students pursuing careers in STEAM, as well as a short supply of skilled teachers, the U.S. is falling behind internationally in areas of math and science.<sup>5</sup> In an ever-increasing competitive global economy, we need STEAM-based curriculum more than ever to keep the U.S. at the front of global innovation.

<sup>4</sup> National Center for Women & Information Technology, *Women in IT: The Facts Infographic*, 2016

<sup>5</sup> U.S. Department of Education, *Science, Technology, Engineering and Math: Education for Global Leadership*

# THE WWT SOLUTION

- CREATE INTERNATIONAL STEAM CONFERENCE PLATFORM
- CULTIVATE CAREER-DEVELOPMENT AND NETWORKING OPPORTUNITIES
- INCUBATE IDEAS & SOLUTIONS GEARED TOWARDS WOMEN AND DIVERSITY IN TECH
- PRODUCE STEAM-FOCUSED WORKSHOPS FOR ADULTS, YOUTH, SENIORS, DEAF & DISABLED
- EXPOSE UNDERREPRESENTED YOUTH TO STEAM-RELATED CAREERS
- OFFER FREE AND LOW-COST PROGRAMMING AND EVENTS FOR UNDERREPRESENTED COMMUNITIES
- COLLABORATE WITH STRATEGIC PARTNERS TO EXPAND THE WWT VISION

# MEET THE FOUNDER

## SOCIAL INNOVATOR. FOUNDER. CEO.

---

Lisa Mae Brunson is a Creative Visionary, Speaker, Author & Social Innovator that is committed to impacting humanity on a global scale.

She was recently named Long Beach Post's 40 Under 40 Winner, and she is a Commissioner on the board for Technology and Innovation for the City of Long Beach. Lisa Mae is the founder of Wonder Women Tech, and has launched Junior Innovation Camps for underprivileged kids. She is founder of two hackathons-Hacks 4 Humanity, a hackathon for Social Good, and Wonder Women Hacks, a hackathon to address challenges facing women and girls.

She received a three-year commitment from the City of Long Beach to host the Wonder Women Tech Conference from 2016 - 2018 at the Long Beach Convention Center.

Lisa Mae is currently on the Advisory Board for the California Women's Conference and InnovateLA, which produces LA's Innovation Weeks in October and speaks at conferences, events and universities.

Lisa Mae recently created The Wonder Women Tech Show, a talk show web series that highlights pioneering women in STEAM, innovation and entrepreneurship. She is also co-host and producer of the show.

# WWT YEAR ROUND PROGRAMMING

---

We need your support to offer STEAM and diversity and inclusion programming throughout the year! Wonder Women Tech is passionate about offering free and low cost programming that will innovate, empower, and ignite the professional and educational development of women, girls, and diverse communities within STEAM industries. Partnering with WWT to support these programs throughout the year will help to create a deep impact for the schools, nonprofits, community partners, and national and international programs that will benefit from our collaborative vision. We offer a variety of programs and events that are available with your support. These include:

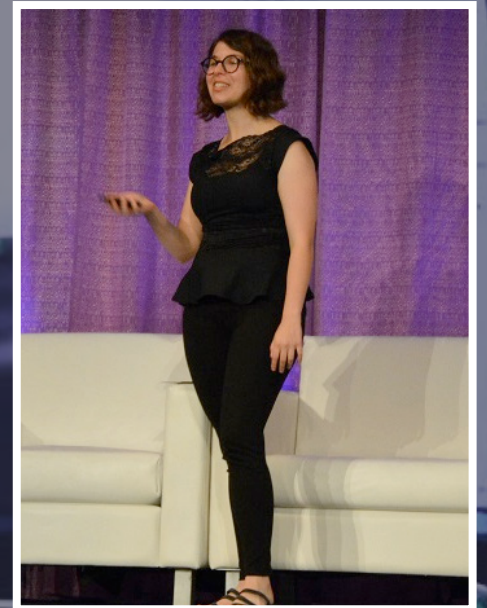

<b>Panel Discussions, Industry Mixers, and Networking Events</b>	<b>Deaf and Disabled STEAM Workshops</b>
<b>Hackathons</b>	<b>Career Fair and 'Speed Networking' events</b>
<b>Junior Innovation and Wonder Girl Camps</b>	<b>Thought Leadership and Career Development Workshops</b>
<b>Senior Computer Basics Workshop</b>	<b>Wonder Women Tech Show Webseries and more...</b>

*Please contact us to discover how YOU can support our year-round programs through sponsorship opportunities and brand exposure.*

# CORPORATE SPONSORSHIPS

*“Here’s to the crazy ones. The misfits. The rebels. The troublemakers. The round pegs in the square holes. The ones who see things differently. They’re not fond of rules. And they have no respect for the status quo. You can quote them, disagree with them, glorify or vilify them. About the only thing you can’t do is ignore them. Because they change things. They push the human race forward. And while some may see them as the crazy ones, we see genius. Because the people who are crazy enough to think they can change the world, are the ones who do.” -Steve Jobs*

## PRESENTING SPONSOR \$60,000+
