

MIRON

VIRTUAL REALITY NEUROTHERAPY

MAKING THE POSSIBLE A REALITY

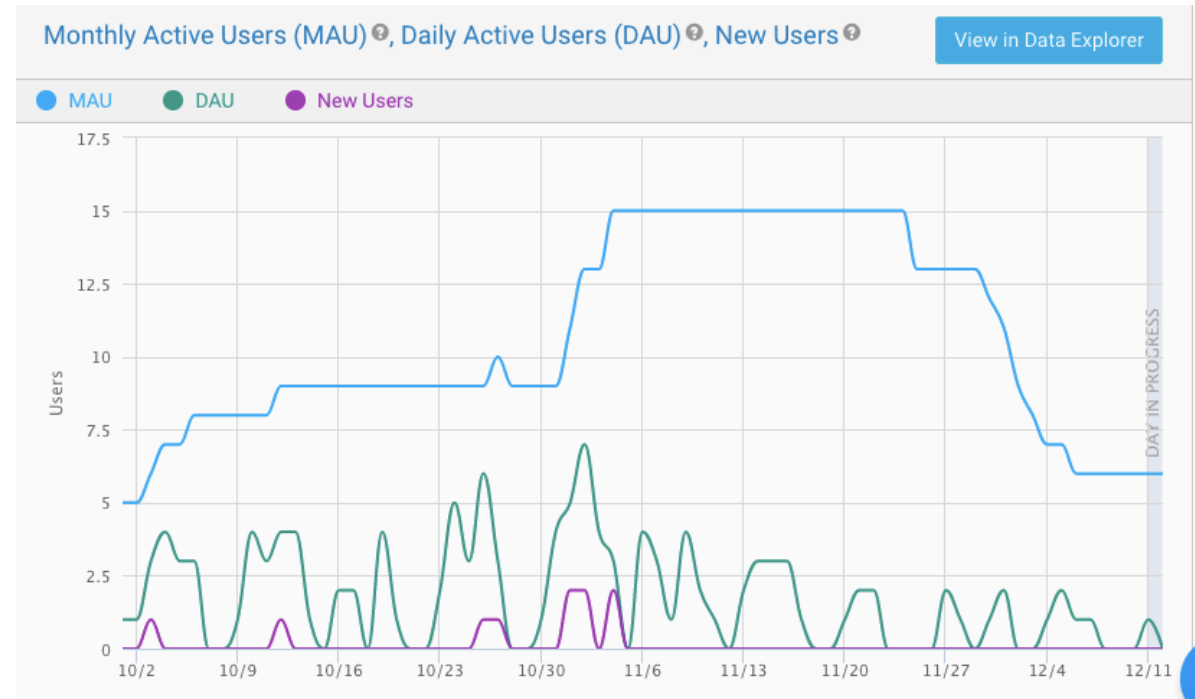

HOVER AND PRESS PLAY TO WATCH OUR INFORMATIONAL VIDEO

MIERON USE

Since starting sales in Sept 2017, MIERON is licensed to 7 facilities across the US in all 4 sectors in the healthcare field:

- Major hospitals
- Franchise Rehab Centers
- Private Practice
- At-Home Rehab + PT

FIRST OF IT'S KIND

MIERON is the world's first Virtual Reality NeuroTherapy program designed for rehabilitation.

MIERON's library of virtual reality experiences and responsive VR games incorporate neurorecovery, locomotive training, PT, OT, lateral movement, and core engagement in an easy to use app.

MIERON comes pre-loaded on the VR hardware kit and functions as a software application.

For Pediatric and Adult use.

& more... our library grows monthly!

MIERON IN ACTION

- A. Functional Quadriplegic user working on upper body movement, OT, and core strength.
- B. Stroke victim suffering paralysis using FES (functional electrical stimulation) with Mieron Cycling Experience
- C. Functional Quadriplegic using Merion Gait Training
- D. Doctors and PTs successfully complete Mieron training

USER TESTIMONIALS

"I FOUND MYSELF PUSHING MY BODY FARTHER THAN I THOUGHT I WOULD BECAUSE I WANTED TO PARTICIPATE IN THE VR EXPERIENCE." - C6 QUADRIPLEGIC

"I DO NOT HAVE GREAT BALANCE AS A C6 QUADRIPLEGIC SCI BUT I WAS NOT THINKING ABOUT MY BALANCE ISSUES WHEN USING MIERON - I WAS JUST ACCOMPLISHING THE GIVEN TASK."

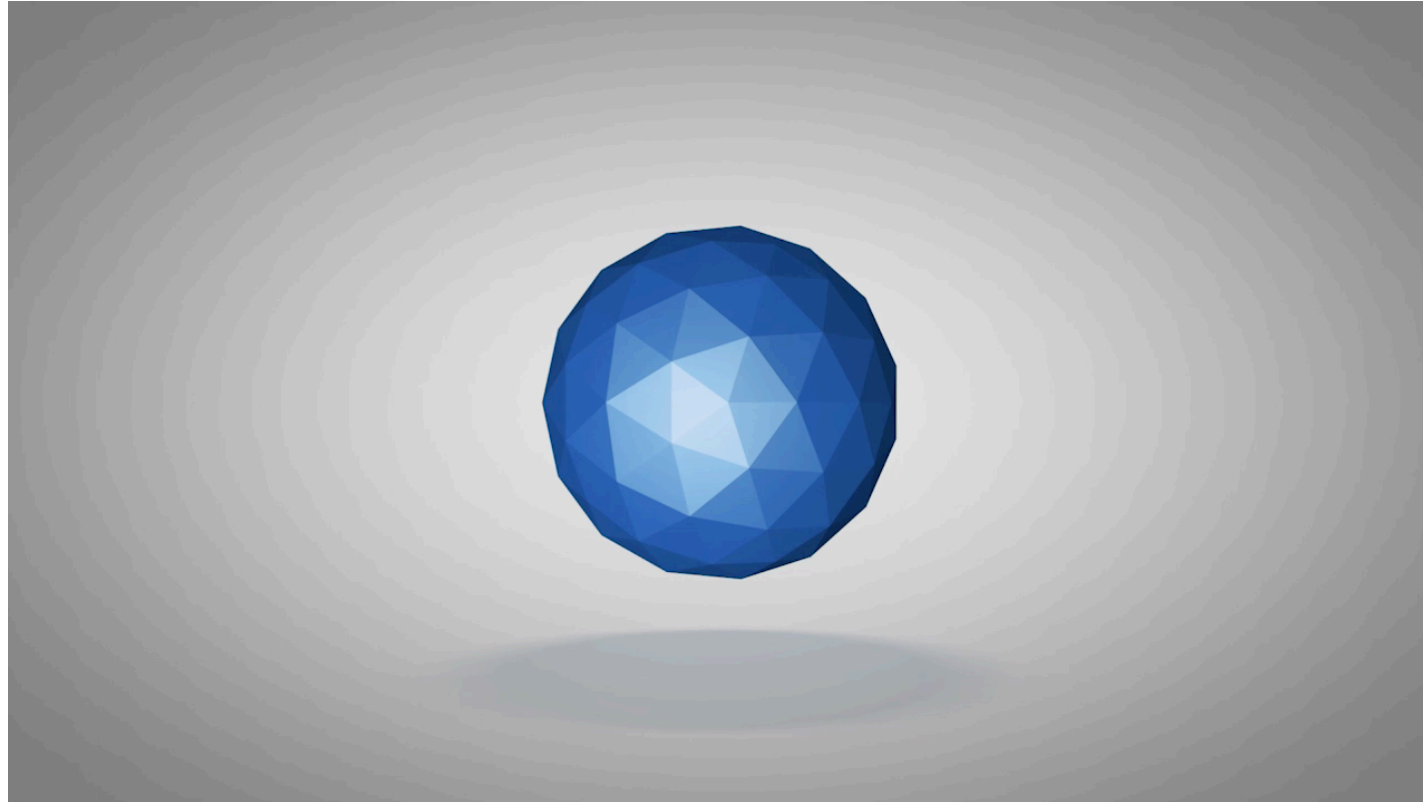

-BRENT POPPEN, TWO TIME PARALYMPIC MEDALIST

PRACTITIONER TESTIMONIALS

*“We like having the MieronVR system because of its **ease of use, and versatility**. The flood of sensory input that Virtual Reality provides our clients during their sessions **encourages them to focus, internally, more on what their muscles are doing during any given activity**. We have had several clients explain to us that **they feel more sensation in affected areas** during FES sessions with the RT300, from Restorative Therapies while using Mieron, and **we notice a more natural reciprocal arm motion during our gait training sessions**. The VR system has been used on-cycle, off-cycle, and with vibration training. It is even a great compliment to a number of arm activities that we use on our nes Xcite FES system, from Restorative Therapies. Mieron Virtual Reality has become a great tool for us and we look forward to the possibilities it will afford our clients, and facility!”*

– Chris Smith, Executive Director of Next Step Kansas City

THE MIERON TEAM

Josh Dubon
co-founder /
CEO

Josh and Josh are media & marketing experts, VR pioneers and entrepreneurs; having founded 3 companies together and serving as a growth and systems advisors on various start-ups.

Jessica Maslin
co-founder /
President

Bennett Werner
Developer +
equity holder

Bennett is our lead mobile developer, a VR specialist & game developer.

Joe is a full stack developer, web and e-commerce developer and cyber security expert.

Joseph Dubon
developer +
equity holder

Mike Jones
advisor +
partner

Mike Jones is a successful entrepreneur and CEO of incubator, Science.

ASKS

We are looking for entry into a military contract to serve both active duty and veterans.

With this, we are looking to expand our program to include more comprehensive programming for PTSD & custom combat and deployment training in VR, and mental wellness programming.

Looking to expand our network of healthcare, insurance & hospital executives.
