Josef Zacek

Web Developer

14 Kingshall Apartments, 193 Phibsborough Road, Dublin, Ireland

Summary

I'm an experienced Web Developer with over 4 years work experience with client/server side technologies and web-related software looking to continue my career within web and online applications development.

I have great coding skills, as well as an ability convert client requirements into exciting online applications.

A graduate of the National College of Ireland with a Higher Diploma in Science in Web Technologies (Level 8, 1:1 average in all modules).

I'm eager to learn new web technologies and IT in general.

Education

Higher Diploma in Science in Web Technologies
May 2013
Certification: Higher Diploma level 8

Client Side Project
JawaIreland website created as part fulfilment of the requirements of the client-side module
Mark achieved: 79%
Details may be viewed at http://jawa-ireland.josefzacek.cz

Server Side Project
An e-commerce application developed using the Ruby on Rails framework as part
fulfilment of the server-side module and was graded the highest in the class (79%)
Details may be viewed at https://jawa-moto-ireland.herokuapp.com

Rich Internet Applications
Interactive HTML5, CSS3 game, heavily based on jQuery and JavaScript effects. Users who finish
all levels have opportunity to store their results in a database
Game is available at http://get-the-pigs.josefzacek.cz

Final Project
A (fictional) website for Zetor was developed using the Ruby on Rails framework which
combined both client-side and server-side technologies. It is a content management system that
allows an administrator to create, read, update and delete all content
It also allows registered users to comment on blog posts
Details may be viewed at https://zetor.herokuapp.com
