## WEB DEVELOPMENT & DESIGN

**Frontend Web Developer** | *Boeing* | [boeing.com](http://boeing.com)

*Seattle, WA – 2019*

Responsible for maintaining Boeing's international web presence (15 sites), as well as internal projects, both custom coded and built in WordPress.

### ❖ International Websites

Maintained communications with Boeing partners in 15 different countries, and kept their websites up to date with product updates, custom features and news releases across 10 different languages.

**Web Developer** | *United Way of King County* | [uwkc.org](http://uwkc.org)

*Seattle, WA – 2018*

Core developer for customer-facing WordPress site. Also responsible for creating web pages for signature events and coding email newsletters.

### ❖ Website Refresh

Spearheaded the design and implementation for United Way of King County's web refresh, encompassing all primary and secondary pages as well as blog posts.

### ❖ Brand Guidelines [\[link\]](#)

Built out a set of branding guidelines (color palette, fonts, written voice) for the organization. Mainly geared towards freelancers and agency partners.

**WordPress Developer** | *Jackson-Hertogs* | [jackson-hertogs.com](http://jackson-hertogs.com)

*San Francisco, CA – 2017 - 2018*

Maintaining and updating functionality for main WordPress site.

**Web Developer** | *Freelance*

*2016 - Present*

### ❖ MIDI Gloves [\[link\]](#)

Designed and built a pair of Arduino-powered MIDI controller gloves, allowing the user to map gestures to control lights and sound.

### ❖ VR Music App [\[link\]](#)

Web-based virtual reality app where the user can play back sounds and audio clips by interacting with objects in space.

## OTHER WORK

**Technical & Strategic Lead** | *The Dance Thing* | [thedancething.com](http://thedancething.com)

*Seattle, WA – 2018 - 2019*

Managing the technical side of a small non-profit dance organization.

**Diagnostic Technician & Support Specialist** | *Hampshire College*

*Amherst, MA – 2011 - 2015*

Responsible for diagnosis and repair of various personal computer issues, both hardware and software level. This was a client-facing role, as I took care of intake and keeping customers updated on the progress of repairs.
