

Social Skills Board Game

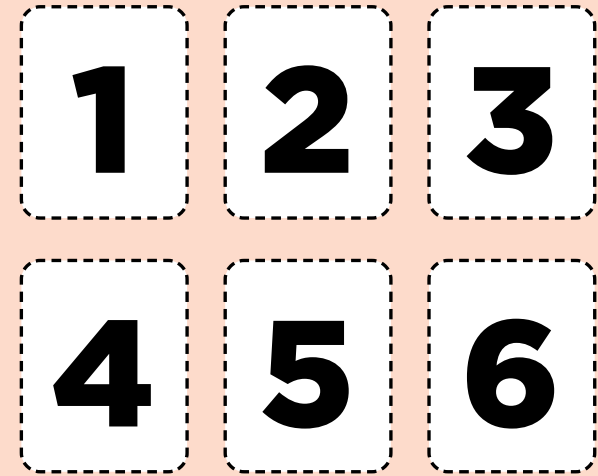

How to Play

Game Rules

- **Who goes first?** Everyone rolls a die. The person with the highest number goes first!
- **Moving along:** Roll the die and move that number of squares along the path from **START** to **FINISH**.
- **Question Cards:** If you land on a **K** square, pick a card and answer the question. If you land on an **emoji** square, talk about what you could say or do if someone was feeling that emotion.
- **Celebrating effort:** Always say "Well done!" at the end of every player's turn or game completion.

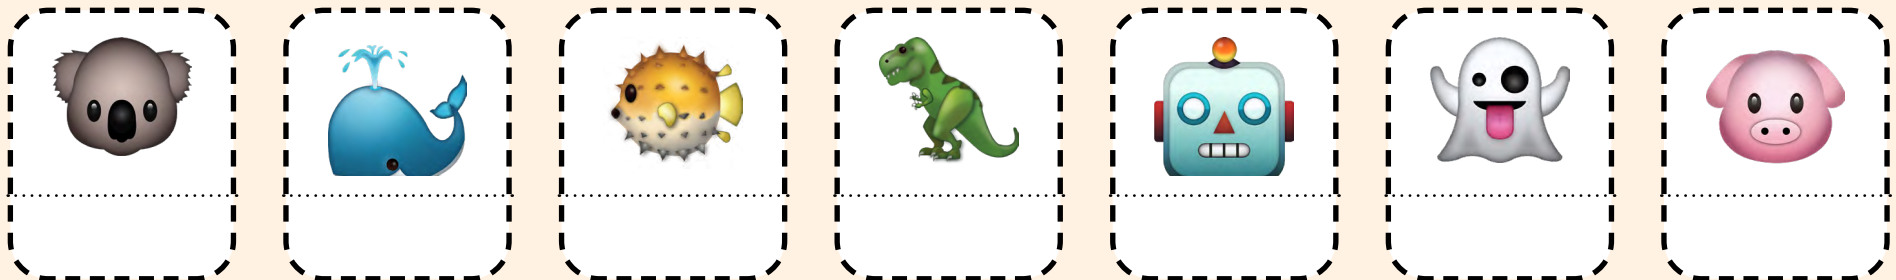

No die? No problem!

Cut out numbers 1-6, put them in a hat, and draw one each turn!

Game pieces

Cut along the dotted lines and fold along the bottom to make your piece stand up.

Question cards
