BREVILLE® RECOMMENDS SAFETY FIRST

At Breville® we are very safety conscious.

We design and manufacture consumer products with the safety of you, our valued customer, foremost in mind. In addition, we ask that you exercise a degree of care when using any appliance and adhere to the following precautions.

SAFETY GUIDELINES

Keep clean and store the bottle with the lid off.

WARNING

Never attempt to carbonate an empty bottle.

Never use a bottle that's deformed, discoloured, or scratched.

Never put the bottle in the freezer.

Don't transport the InFizz™ Aqua with the gas Canister installed.

Do not carbonate milk based products.

Do not put ice in the bottle.

Use InFizz™ Aqua compatible carbonating bottles **ONLY**.

Never clean the bottle in the dishwasher.

Do not leave the InFizz™ Aqua and/or the bottle in direct sunlight or too close to a window.

Do not place the InFizz™ Aqua next to a heat source.

Do not place the InFizz™ Aqua close to open flames of any sort.

Do not use the InFizz™ Aqua and/or the bottle in extreme temperatures.

Do not use the bottle after its expiration date.

The symbol shown indicates that this appliance should not be disposed of in normal household waste. It should be taken to a local authority waste collection centre designated for this purpose or to a dealer providing this service. For more information, please contact your local council office.

CARBON DIOXIDE CO₂ Canister

To reduce the risk of a CO₂ leak, personal injury and property damage:

- In the event of a CO₂ leak, ventilate the area, breathe fresh air and if feeling unwell seek immediate medical attention.
- Do not insert a CO₂ Canister into the InFizz™ Aqua when a bottle is installed.

- Do not remove a CO₂ Canister from the InFizz™ Aqua when it is being operated.

- Do not remove bottle during carbonation.

- Do not handle or remove a CO₂ Canister while it is discharging CO₂.

- Do not use if damaged. Inspect the CO₂ Canister and CO₂ Canister valve prior to use for dents, punctures, or other damage. If damaged, contact an authorised service representative.

- Do not tamper with the CO₂ Canister in any way, including puncturing, incinerating or removing the valve.

- Do not expose the CO₂ Canister to heat above 120°F / 50°C. Protect from sunlight. Store in a well-ventilated area.

SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

COMPONENTS

- A. Carbonating lever
- B. Tilt head with ring pull
- C. Gas cylinder compartment
- D. Flat surface safety switch to ensure a flat surface is used.
- E. Removable drip tray cover (hand wash only)
- F. Drip tray

ACCESSORIES

- 1. 1 L bottle (hand wash only)
- 2. Bottle brush

4. TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSES	EASY SOLUTIONS
Small pieces of ice in the bottle.	Small pieces of ice may appear and quickly melt in the bottle while carbonating.	• Shorten each press so the efficiency of carbonation is not affected.
Little or no carbonation.	CO₂ canister may be near empty or empty. NOTE: Cold water also maximises carbonation.	• Replace the canister with a full one. • Check the CO₂ canister is properly screwed into place.
