OPERATING INSTRUCTION

Before using your oven for the first time

Be sure to

1. Make sure that the oven is unplugged.
2. Remove all the accessories and wash them in hot soak water or in the dishwasher.
3. Thoroughly dry all the accessories and re-assemble in oven. Plug the power cord into the wall socket and you are ready to use your oven.
4. After re-assembling your oven, we recommend that you run the oven at the max temperature for approximately 15 minutes to eliminate any dirty oil on its surface.
5. Set the temperature control dial to "220°C" and select one of the oven function except the fermentation function to heat the empty oven for about 15 minutes.

There may be some smoke and a burning smell at first use, but this is not a malfunction.

Please feel free to use it after the smoke disappear
