

Changes to clip-down cable trays for ACTIVE.T motorised desks

Changeover / scheduling

from Week 13 / 2021

Change:

The redesigned clip-down cable trays used with TALO.YOU have been incorporated into the ACTIVE.T range. These cable trays are still hinged on both sides like before, but they have an optimised user-friendly mechanism.

The lower height option of 72 mm will be discontinued when this change is implemented.

ACTIVE.T can now also be fitted with a clip-down cable tray in plastic. The cable tray measurements are width 700 mm x height 100 mm x depth 200 mm and is available in black or white.

The desk tops have pre-drilled holes for both cable trays (5 mm). They will now be attached with euro screws. This means they can be retrofitted easily.
