Release 2020

Product integration PCON  
From July 2020

The **QUIET.BOX Duo**, our room-in-room solution for meetings, has been gaining popularity by the day since last year. As a result of increasing demand, we will be offering you some **new planning and design options from July**. You can configure the external shell and profiles in a wide selection of finishes and material qualities. We are also introducing **additional specification variants** for creative working and dialogue situations.

External dimensions	1200 x 2200 x 2226 mm
Internal dimensions	1000 x 2000 x 2120 mm
Design	With a glass or solid rear panel Available in standard or organic design
Sound insulation	Glass 38dB Rw,P / Door 37dB Rw,P / Solid wall 42dB Rw,P
Installation time	3-4 hours
Noise level	Low
Flexibility	Can be fully dismantled with zero-loss reassembly
Floor anchors	Does not need to be anchored to the floor
Lighting	High quality surface-mounted light by Philips, optionally dimmable
Ventilation	Active supply and return air, silenced
Wire management	Connection-ready installation, various specification variants available
Delivery time	4-5 weeks
Door opening direction	Opening outwards, choice of hinges
For installation on site	Available with integral sprinklers and fire alarms

# QUIET.BOX Duo XL

Product integration PCON  
From July 2020

Our **QUIET.BOX Duo XL** is the answer for all those who appreciate big comfort in a small space. Based on the established QUIET.BOX Duo system, the larger **QUIET.BOX Duo XL** variant offers interior space with an additional 30 cm depth. That means the interior size has increased to 1300 x 2000 mm (W/D). **Up to four people** can sit in here comfortably for a meeting. Both the **QUIET.BOX Duo XL** and the QUIET.BOX Duo with a solid or glass rear panel are available as the standard rectangular model (shown right) or in an organic design variant (left).

External dimensions	1500 x 2200 x 2226 mm
