

CONNECT.BENCH

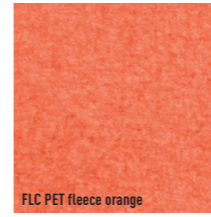

A TABLE SYSTEM FOR COLLABORATION AND FOCUS.

Modular work platform for flexible working methods and clear structures

Modern working environments are changing. Changing tasks, hybrid forms of organisation and different working modes are the norm.

CONNECT.BENCH is a scalable table system that combines flexibility and structure in a clear system logic. Teamwork, project work and concentrated work can be planned, combined and adapted as required within a single system. Variable tabletop formats, defined sitting and standing heights, and integrated functional and technical elements create structured work surfaces that promote communication, provide orientation and support the transition between activities.

COLLABORATION IS ESSENTIAL.

Agile work processes require flexible working environments that can be adapted to changing tasks and team constellations. **CONNECT.BENCH is a shared workspace that fosters exchange, collaboration and short distances.** Its open design, generous work surfaces and modular extensions with seating and standing benches enable a wide range of usage scenarios – from workshops and meetings to spontaneous consultations.

Functional details and optional media integration ensure structure and order and strengthen team dynamics.

Products:
CONNECT.BENCH with plant shelf,
OKAY.III swivel chair

THE INSIDE.30 MOBILE PARTITION becomes an agile work tool in all communication areas.

Products:
CONNECT.BENCH with INSIDE.30 tabletop panel, MOVE.MIX bar stool,
INSIDE.30 partition, NET.WORK.PLACE Wave armchair

A SHARED SPACE FOR PLANNING, EXCHANGE AND IMPLEMENTATION.

INSIDE.30 tabletop panel
For free-standing use with a metal tray and
for individual screening at every workstation.

Cross-team project work thrives on the exchange of different perspectives. **CONNECT.BENCH creates a scalable communication platform for this and at the same time offers structure and orientation.** The work surfaces can be adapted to changing requirements depending on the situation and promote exchange, transparency and joint development – from the concept phase to implementation.

FOCUSED WORK IN AN OPEN SPACE

Concentrated work requires retreat without losing touch with the open space. **CONNECT.BENCH** creates clearly defined focus areas within open working environments. Optional panels made of recycled PET fleece and targeted zoning reduce visual and acoustic disturbances and support tasks that require high concentration.

Products:
CONNECT.BENCH with INSIDE.30 table panel and tabletop panel,
K+N NOOK.SHELL, PERSONALBOX, ACTA.PRO shelf system

Multifunctional storage
The PERSONALBOX in black (made from recycled plastic) or white keeps your work essentials safe, can be mounted on the desk or is available with castors and a seat cushion.

CONNECT.BENCH

DESIGNED TO BE MODULAR. DOWN TO THE LAST DETAIL.

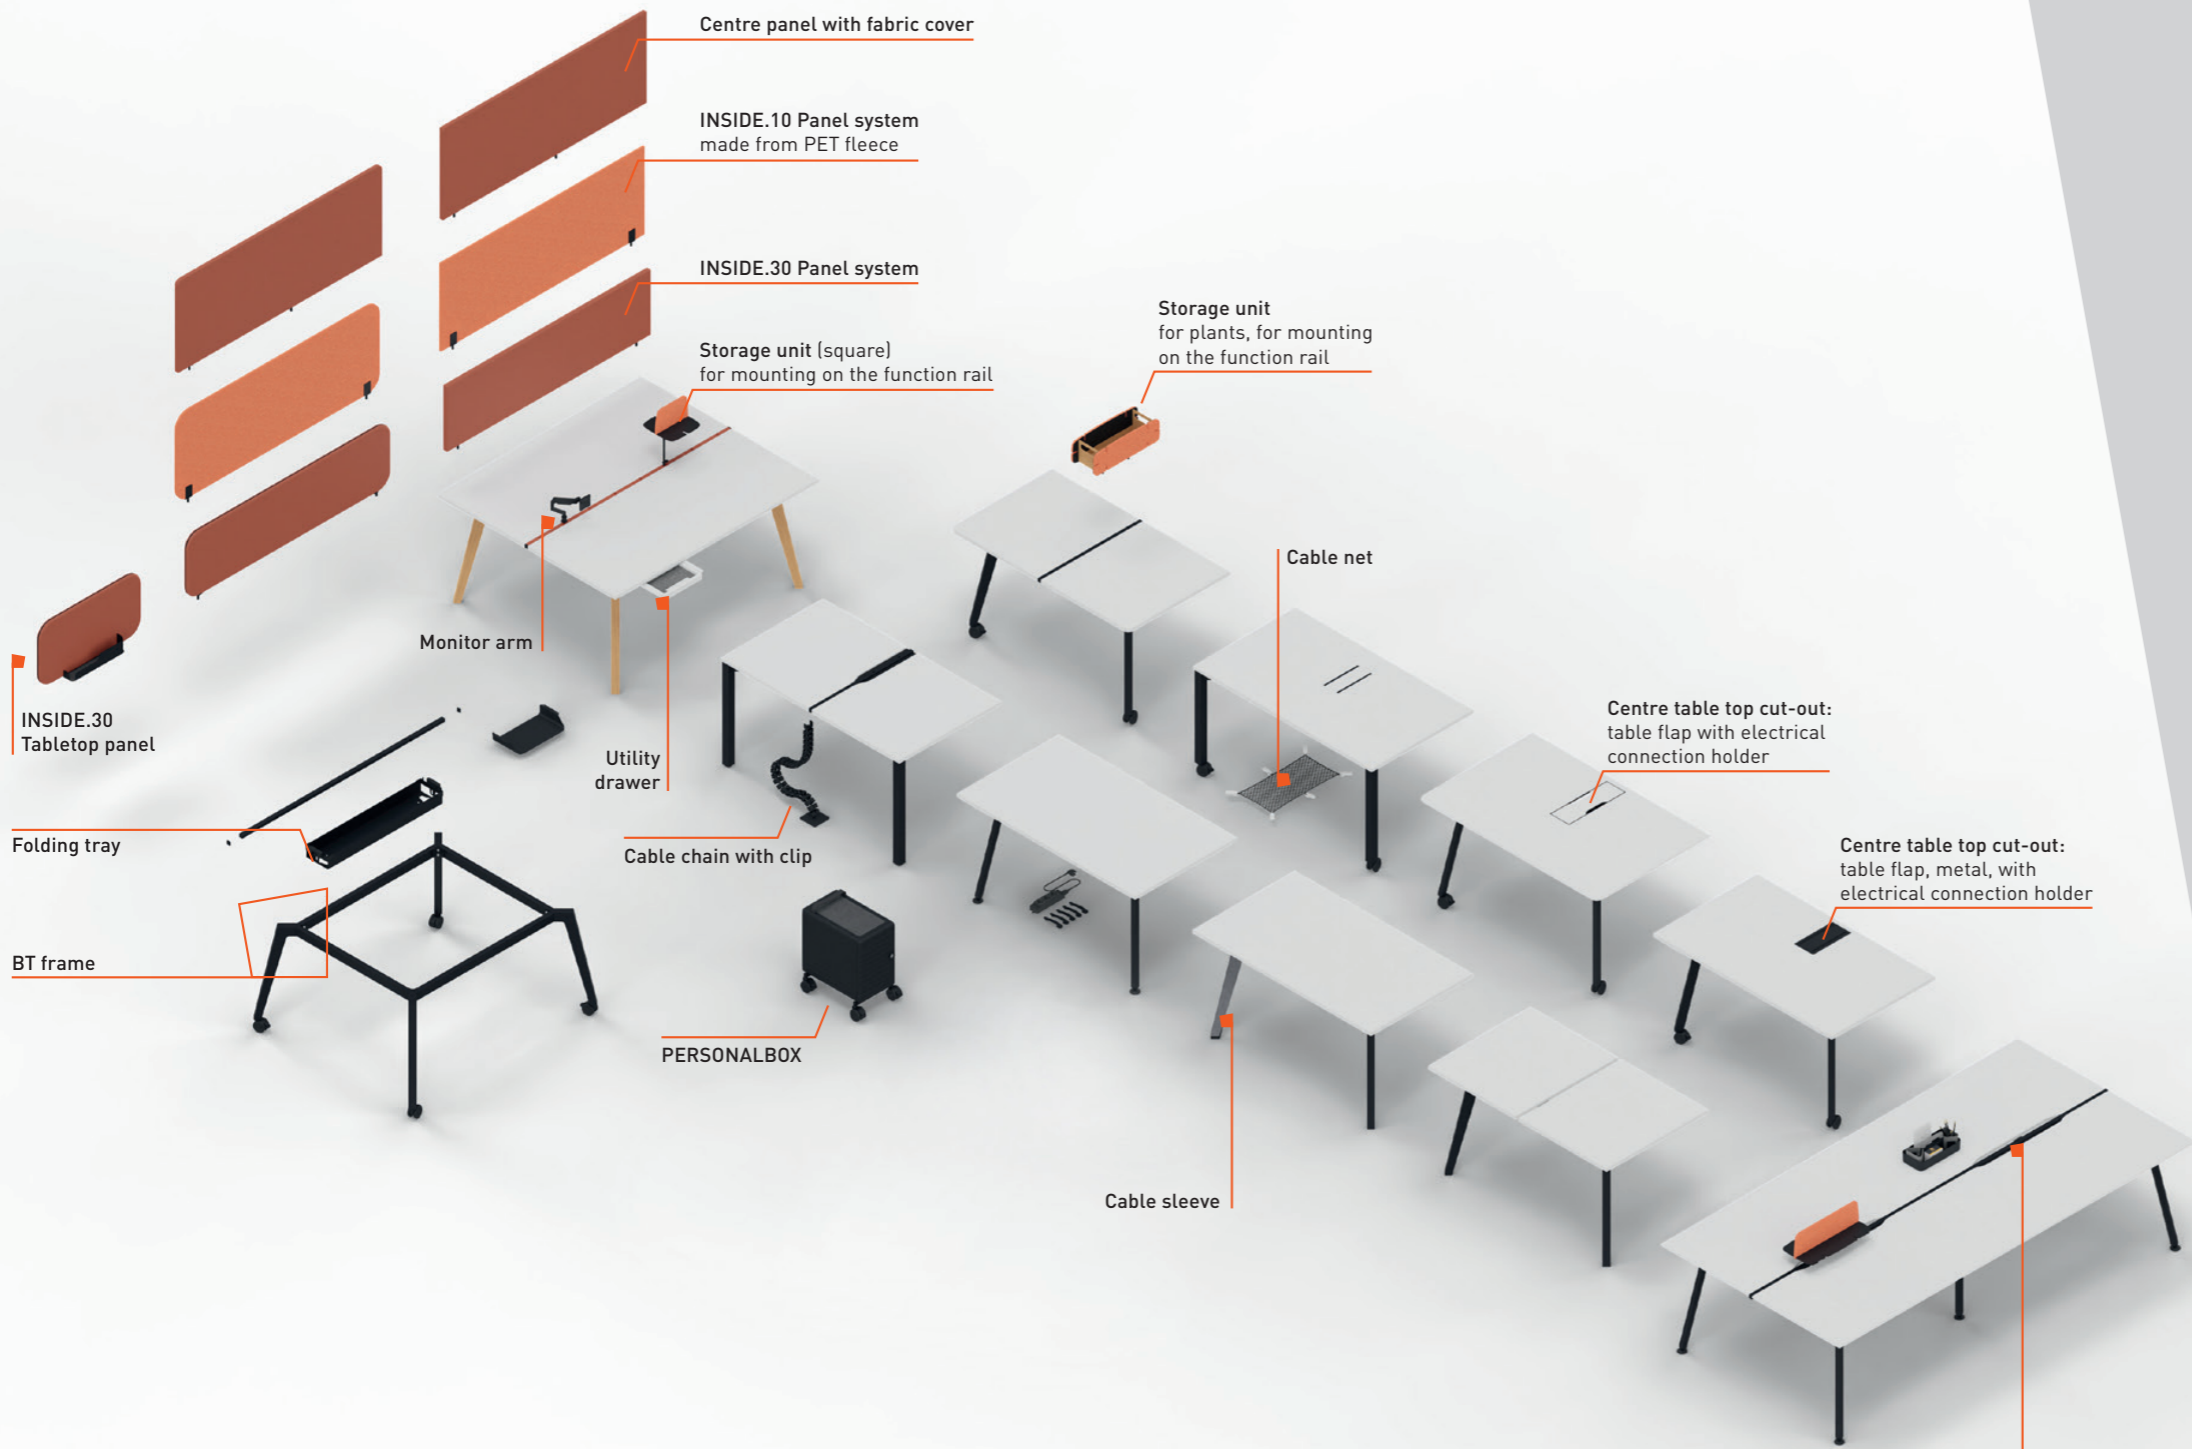

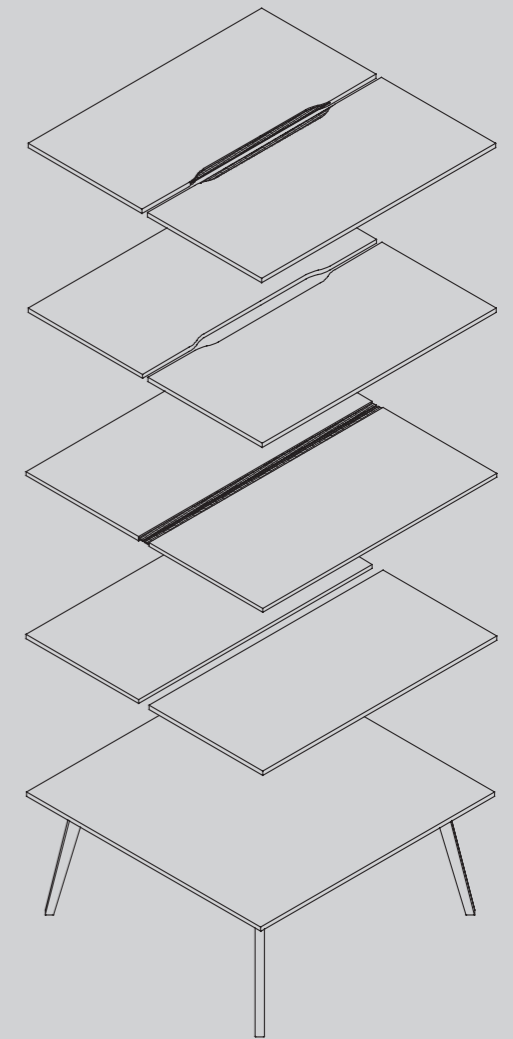

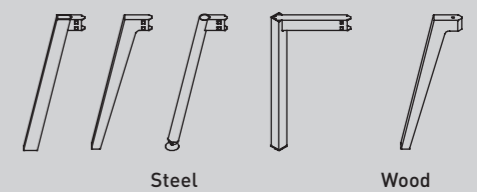

TABLE TOPS

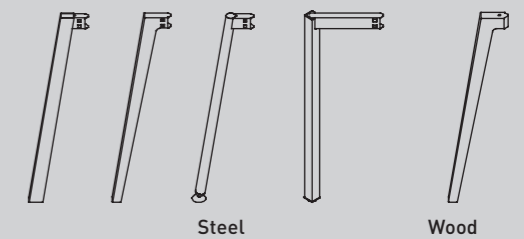

BASE VARIANTS

SEATING HEIGHT

STANDING HEIGHT

www.blaug-ermet.de/1238

MODULAR TABLE SYSTEM WITH EXPANSION OPTIONS.

FUNCTIONAL RAIL
For mounting centre panels, storage elements or monitor holders

SURFACE
Plastic, veneer or Fenix

TECHNOLOGY INTEGRATION AND ELECTRIFICATION
With integrated access to power and cable management solutions

CONFIGURATION AND MODULARITY
Single or multi-section tops with a central leg design for maximum legroom

LEG OPTIONS
Wood or steel

PRACTICAL AND FUNCTIONAL ACCESSORIES

Shelf unit for plants

Square storage unit for utensils

MOV:E Power Unit – portable, high-performance charging station

ONE SYSTEM. ENDLESS POSSIBILITIES.

Meeting table with standing height of 1,060 mm
Available with A-leg in solid oak, A-leg in steel, or A-leg in round steel tubing (Ø 45 mm)

Meeting table with fixed height of 732 mm
Available as an A-leg bench, T-leg double bench, and 4-leg bench

- + Meeting and conference
- + Modularity: Multi-section tabletops with central leg frame
- + Optional with integrated technology and electrification
- + Modular elements in combination with function rails

Various tabletop finishes and colors available for legs and frames.

DETAILS

1 | LEG OPTIONS
A-leg and four-leg versions in sitting and standing heights. Available in either square or rounded shapes. A-leg version in solid oak.

2 | FUNCTIONAL RAIL
Features drill holes to accommodate centre panels, shelving units or monitor mounts.

3 | SPLIT TOPS
Optionally available in various configurations, ranging from a gap across the full width of the top with a brush, a functional rail, an E-bay with or without a brush, or an E-bay with a functional rail with or without a brush.

4 | TECHNOLOGY INTEGRATION
Table flap with electrification insert offering a high-quality aesthetic finish. Flap flush with the surface and in the same material as the top – operable from both sides.

5 | MORE LEGROOM
Linear chainability with recessed centre leg and start, middle and end panel logic – only available with straight legs.

6 | CABLE CHAIN ON CABLE TRAY
The cable chain is connected by simply inserting it into the folding tray. The connection is secure and can be released at any time.

7 | CABLE MESH – A PRACTICAL ALTERNATIVE TO THE CABLE TRAY
Flexibly mounted beneath the top. Cables and sockets are neatly accommodated.
