
SKYE

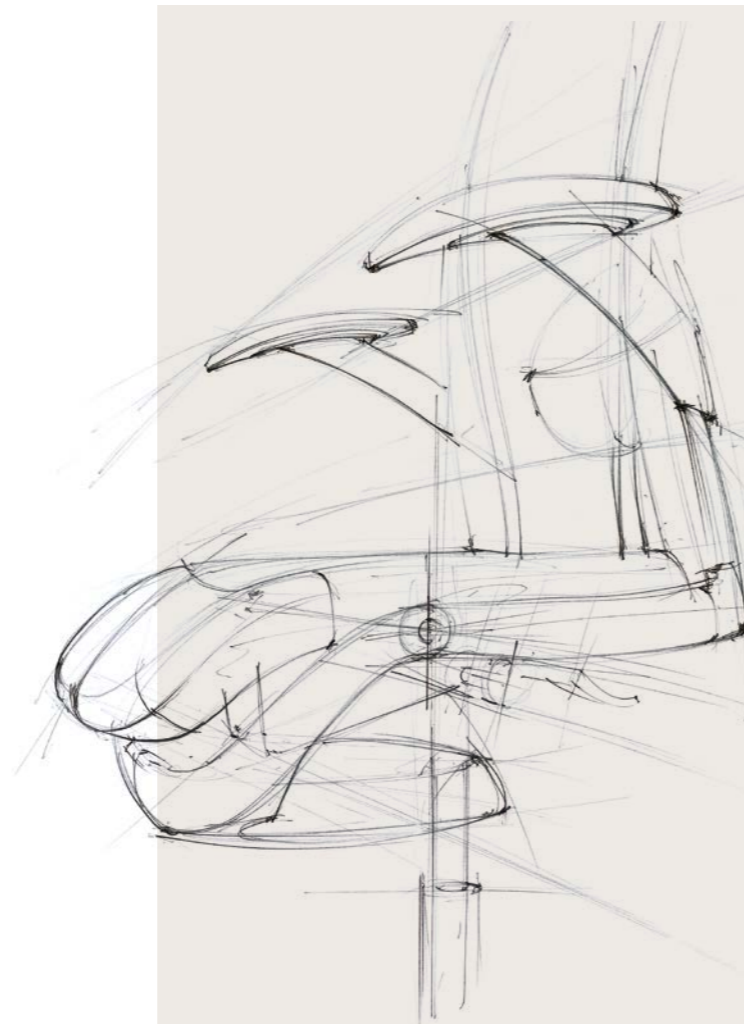

DESIGNED FOR
INDIVIDUALISTS

For a first-class sitting and working experience

The classic SKYE task chair by König + Neurath meets and exceeds all requirements in terms of contemporary design, aesthetics and chair ergonomics. The patented GPM mechanism with its unique 47° opening angle means you can both work and relax in almost any sitting position imaginable – you can even set it so that you are almost horizontal. The base and seat flow into each other creating a homogeneous unit. The striking backrest support follows the natural curvature of the spine, and is topped by a proactive adjustable headrest to take the strain the shoulder and neck muscles. The adjustable lumbar support echoes the shape of the headrest. Enjoy a unique sitting experience with the award-winning SKYE chair.

NEW STRATEGIES AND IDEAS NEED SPACE TO DEVELOP. DECISIONS NEED TO COME TO FRUITION. THE SKYE MANAGEMENT CHAIR GIVES YOU THE SCOPE TO LIE BACK AND RELAX, STOP FOR A FEW MOMENTS AND LET YOUR THOUGHTS ROAM – SO THAT YOU CAN SEE THE BIG PICTURE AND MAKE THE RIGHT DECISIONS AS A RESULT. TREAT YOURSELF TO THIS EXCLUSIVE SITTING COMFORT TO TAKE YOU RIGHT THROUGH A LONG DAY. WITH SKYE YOU CAN DEMONSTRATE YOUR PRESENCE, SENSE OF AESTHETICS AND INTRINSIC VALUE – PERFECT FOR THE CLEAR STYLE OF LEADERSHIP ASSOCIATED WITH A SUCCESSFUL MANAGER.

AS UNIQUE AS YOU ARE: THE NEW MODELS

RICH IN CONTRAST FOR TRENDSETTERS

Opposites attract: The combination of black and white results in a powerful double-act that won't go out of fashion. Seams in a contrasting colour finish off the luxury leather upholstery. Create an elegant monochrome look for a striking appearance. The starbase and seat support can be supplied with a textured lacquer finish in white or black.

A STUNNING PERFORMANCE

SKYE stands out thanks to its stunning starbase and seat support in contemporary black. The textured fabric backrest offers comfort and sporty style.

SPORTY ELEGANCE

The matt black textured paintwork on the starbase and seat support accentuates the design quality of the SKYE chair. The breathable mesh backrest gives an impression of lightness.

IN PERFECT HARMONY

THE SKYE TASK CHAIR COMES IN TWO DIFFERENT WEIGHT BANDS: 45-110 KG AND 65-150 KG.

THIS ALLOWS EVEN THE VERY LIGHT OR THE VERY HEAVY TO ENJOY THE FULL POTENTIAL – ESPECIALLY IN THE RECLINED WORKING POSITION. THE SPECTRUM OF THE 4-STEP QUICK-ADJUSTMENT MECHANISM CAN BE SET EVEN MORE PRECISELY TO THE WEIGHT OF EACH USER.

USPs FOR THE ULTIMATE IN SITTING COMFORT

UNIQUE OPENING ANGLE

The maximum opening angle of 47° is unique, making it possible to work when almost fully reclined.

OPTIMUM SYNCHRONISED SEQUENCE

SKYE does not have a “shirt-pulling effect” because the movement of the seat and backrest is designed around the natural pivot points of the sitter.

ACTIVELY SHIFTING THE CENTRE OF GRAVITY

Dynamically shifting the centre of gravity forwards when you lean back not only guarantees that you feel safe – it also ensures absolute stability.

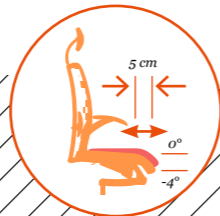

SEAT LOWERING FUNCTION

The seat is lowered as the user reclines to allow the feet to rest flat on the floor. This allows the blood to circulate freely in the legs.

4-STEP QUICK-SET ADJUSTMENT

The 4-step weight setting feature ensures that the seating mechanism provides the correct counter-pressure for each person. Choose from two different weight bands depending on how much you weigh.

ADJUSTABLE SEAT TILT AND DEPTH ADJUSTMENT

The seat tilts forward by 4° to prevent pressure points on the thighs, and the seat depth can be increased by 5 cm (freely variable).

THE HIGHLIGHTS – AN OVERVIEW

PROACTIVE HEADREST

Height and tilt can be adjusted in a single step. Leaning back relieves the strain on the neck and shoulder muscles.

COMFORTABLE ARMRESTS

Armrests are adjustable in height and width as well as swivelling, to take the strain off the shoulders and neck.

INDIVIDUAL SETTINGS

Weight setting within 4 ranges and backrest locking in any position. Seat depth and tilt can be customised to the preferred position for relaxed working.

ADJUSTABLE LUMBAR SUPPORT

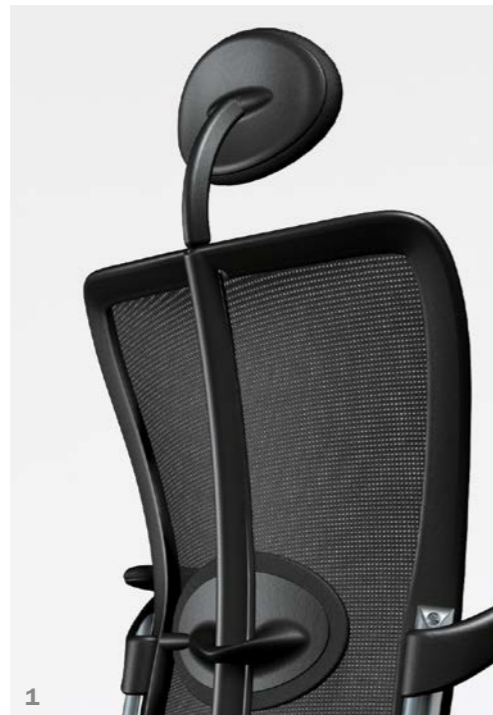

The lumbar support is adjustable in height and depth for optimum support in the lumbar region.

UNIQUE GLOBAL POSITIONING MECHANISM (GPM)

GPM is oriented to the sitter's natural pivot points, keeping the body in the ideal sitting position – with a unique opening angle of up to 47°.

Premium sitting culture

1 | FIRM SUPPORT

The headrest is adjustable in height and inclination to take the strain off the shoulder and neck muscles, as well as providing maximum relaxation in an almost fully-reclined position.

2 | ADJUSTABLE ARMRESTS

Multifunctional armrests, adjustable in height and width, with swivelling top and comfortable synthetic pad.

3 | STRIKING FRAME

The die-cast aluminium frame makes a style statement – it comes in chrome or a matt finish in black or white.

4 | COMFORTABLE QUICK-SET ADJUSTMENT

The 4-step quick-set adjustment allows you to set the backrest individually to support a body weight of up to 150 kg.

5 | STURDY

Different starbase variants are available: powder-coated aluminium, black, aluminium-coloured, textured black or white matt and chrome. They come with soft or hard castors and transport protection.

Product overview
