

# ACTA.PRO AT LAST THERE'S A SYSTEM FOR CHANGE

Lockable bar cabinet with downward opening flipper door.

Sliding rear panel made from powder-coated expanded metal. Whiteboard also available.

The free-standing shelving combination provides storage, partitioning and structure. It can be supplied with **coloured acrylic glass** or **sustainable PET felt**.

Locker modules are available in various heights: 1 FH, 2 FH, 3 FH and 4 FH.

Our **shelving combination with lockers** provides flexible storage. The melamine-faced carcasses are easy to fit between the ladder frames, and can be removed and repositioned again as required.

With **square or round tube frame** for flexible space zoning.

Whether you need **height transitions, space zoning for a corner configuration, or versatile outfitting options with cupboard modules** – with ACTA.PRO you have unlimited flexible planning and configuration potential.

# ONE SYSTEM – COUNTLESS OPTIONS

**DESIGNER PLANTER**  
In various sizes in an organic design, to improve the indoor climate.

**FLEECE**  
Made from recycled PET in a choice of light grey or dark grey.

**ACRYLIC GLASS**  
Available in transparent white, green and orange.

**SHELF CONNECTION**  
In various designs.

**SLIDING FRONTS**  
Felt made from recycled PET, pinnable and used for visual screening, expanded metal or whiteboard for workshops and agile working scenarios.

**FRAME**  
The shelf frame comes in a square or round tube design, as well as a variety of colours.

**SHELVES AND CARCASSES**  
Choose from standard wood-effect designs and colours to match the frame.

**WORK-TOP**

**SEAT PAD**

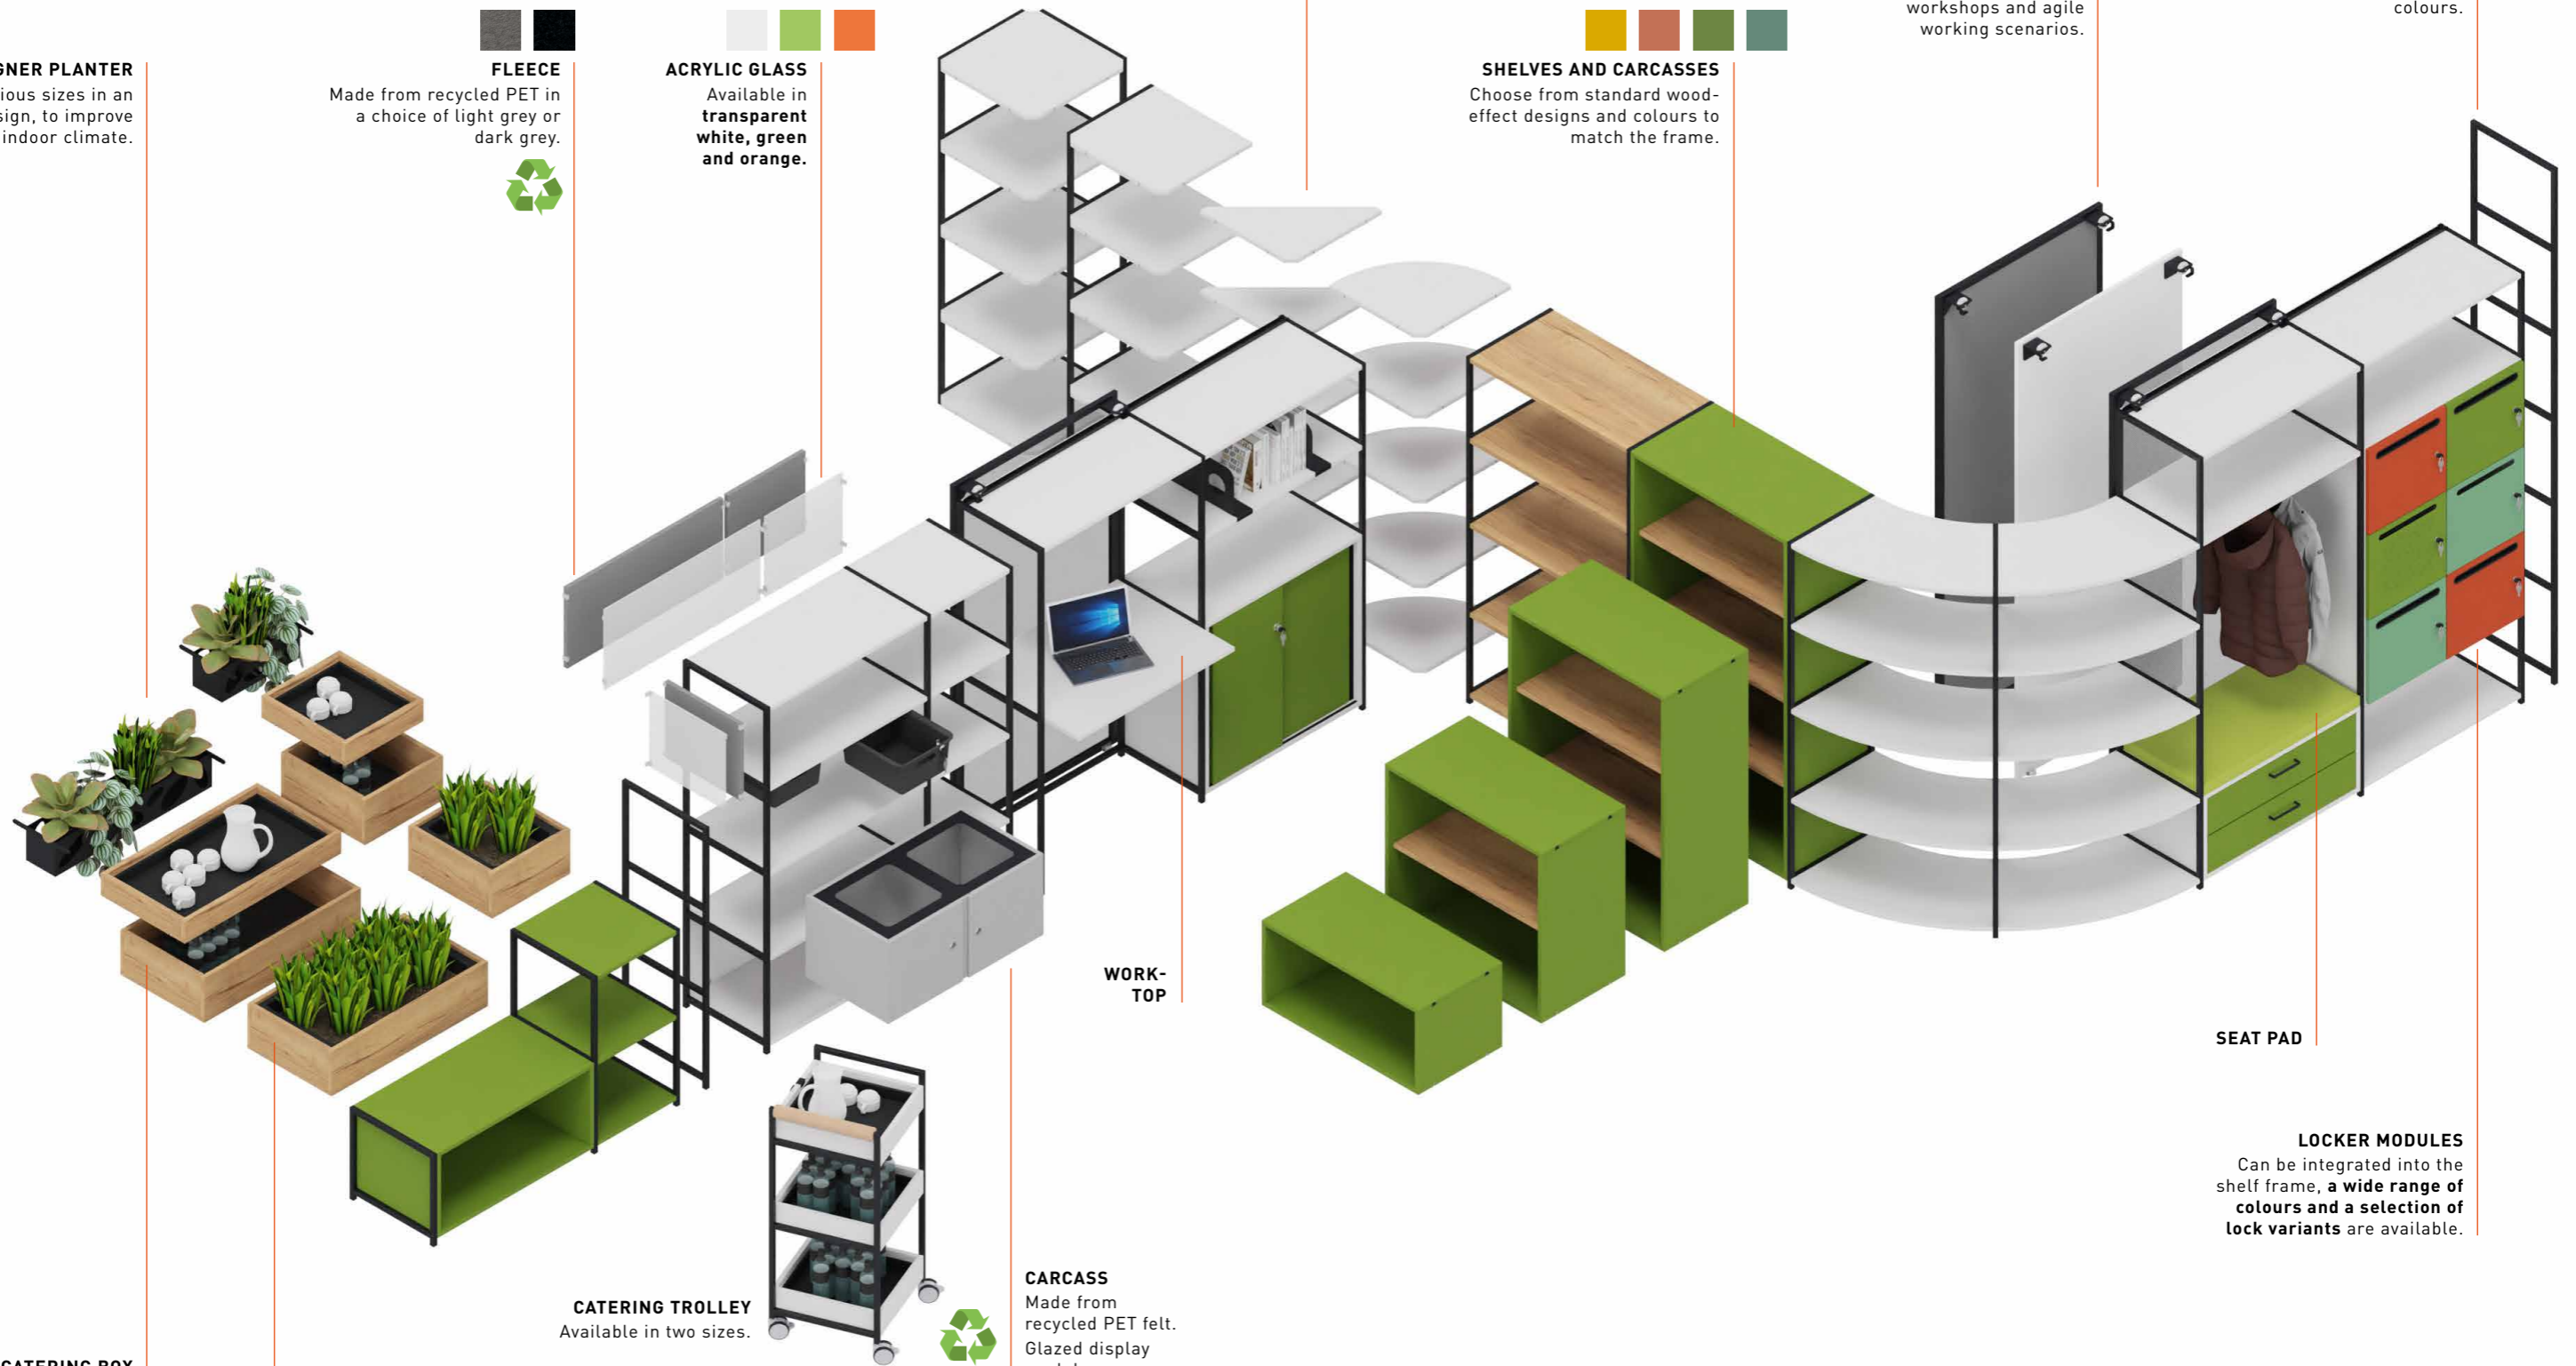

**LOCKER MODULES**  
Can be integrated into the shelf frame, a wide range of colours and a selection of lock variants are available.

**CATERING BOX**  
With felt insert or watertight ABS plastic tray.

**PLANTER TOP BOX**

**CATERING TROLLEY**  
Available in two sizes.

**CARCASS**  
Made from recycled PET felt. Glazed display modules are optionally available too.

1

**1 | CLICK-CONNECTION TECHNOLOGY**  
To connect ladders and crosspieces.

**THE SYSTEM THAT CLICKS TOGETHER**  
The straightforward click system makes assembly and dismantling quick and easy. Shelves and cupboard carcasses are simply bolted onto the crosspieces.

2

2

## 2 | INFILLS

Made from recycled PET felt or coloured acrylic glass, tool-free clip-in fitting in variable configurations. Mix and match materials according to preference.

3

## 3 | CLOSED HINGED DOOR ELEMENT

Made from PET felt, practical single-part design that can be fitted between two ladders. Openings facilitate handling.

4

## 4 | STORAGE BOX

Made from PET felt, with variable positioning options, can either be fitted under a shelf or alternatively placed directly on the shelf. Optionally lockable.

5

## 5 | PLANTER

With integral plastic tray.
