

# BATTERY-FREE LOCK OTS®20

## SUSTAINABLE, INNOVATIVE, MAINTENANCE-FREE

### OTS®20 FROM OJMAR

- + **Sustainable material**  
The lock is battery-free and is completely recyclable
- + **Innovative “push power”**  
By pressing the lock knob with the card, the lock generates the necessary power to enable the lock to close to enable locking.
- + **Maintenance-free**  
No additional costs and low operating costs
- + **Security features**  
Encrypted data transmission (Mifare Desfire)
- + **Functionality**  
2 types of configuration:  
Freely assignable mode (FREECODE)  
Permanently assigned mode (FIXCODE)
- + **Service kit**  
consisting of test card, setup card, reset card, user cards and master key for emergency opening

OTS®20 Batteryless  
cards
