

Product information No. 6/2023

Product optimisation:

TALO.YOU nesting tables

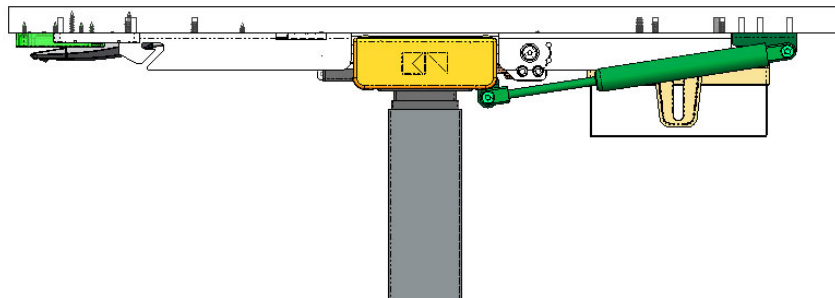

- Soft-close table top dampers
- Depth expansion
- Table top thickness 19 mm

Scheduling:

Ready to order from week
39/2023

Optimisation:

1. TALO.YOU nesting tables are available with a soft-close table top damper as a comfort option. There is a maintenance-free gas lift mechanism integrated underneath the table top for lowering the top. This ensures that the top can be lowered slowly and gently. The option can be selected using code PDF1 and is subject to an additional charge of 143 €.

2. Nesting tables are now also available in depths 700 mm and 900 mm. This provides extended application potential to meet the needs of agile work structures.
3. As well as the 25 mm top thickness, nesting tables are now also available with 19 mm tops.

These additional features will be included in the OFML data as of Week 39.
