

# K+N STANDBY.OFFICE 2.0

## WELL EQUIPPED ALL AROUND.

### CANOPY

Its acoustic effectiveness significantly dampens sound.

### BACK WALL

The wall is acoustically effective, moves up and down together with the movable tabletop, and can also be adjusted separately using a practical cable pull. Various colors and fabric groups are available.

### TISCHPLATTE

The tabletop can be adjusted without electricity or tools: the lift table can be adjusted continuously to heights from 600 mm to 1,400 mm. Sockets, USB ports, and wireless chargers can be integrated on request.

### FOLDING MECHANISM

The two-piece tabletop can be easily folded up for transport or storage.

### ALUMINUM FRAME

Choose between white and black textured paint.

### EASY HEIGHT ADJUSTMENT

An integrated gas spring allows the tabletop to be easily adjusted by hand without exerting any force.

### STEEL FOOTREST

Alternatively, also available with glides.
