THE FEEL-GOOD WORKSPACE

Go with the Flow - that includes your desk

Good news: according to the Wrike Happiness index 2019, 89 per cent of Germans are happy in their job!*

As well as a sense of meaningfulness, an appreciative ethos at work and an attractive office environment are some of the most highly valued factors.

If an office is tailored to personal requirements and provides dynamic conditions to promote optimum performance, motivation is increased. This includes having the freedom to work equally comfortably either sitting down or standing up. Having the option of focused working at an individual workstation – with a team area next door for brainstorming.

These are some of our furnishing solutions that support these principles: the JET.III swivel chair, LIFE.S table systems, and our versatile all-rounder, the ACTA.PLUS programme.

* For the international survey by the project management software experts around 4000 full-time employees were questioned: 1000 respondents each from the USA, UK, France, and Germany.

SUCCESSFUL TEAMWORK MEANS GROWING TOGETHER

We are social beings. It's great when working environments support our need for interaction and communication. An informal meeting area here, an ergonomic desk solution based on the **ACTIVE.T double bench** over there – and acoustically optimised workstations with flexible **ACTA.PLUS room divider shelving units** for all focused activities. Decide for yourself how you'd like to work.

ACTA.PLUS is multifunctional. Used as flexible storage and an **attractive room divider** (shown here as part of the FLOW style collection), you can structure spaces, make room for plants and create islands in the open space.

Products:
K+N STANDBY.OFFICE 2.0, K+N BALANCE.CHAIR, ACTA.PLUS hinged door cupboard,
NET.WORK.PLACE, QUIET.BOX Duo, BASIC.4 stand-up table, PUBLICA bar stool

MULTITERRITORIAL, MULTIFUNCTIONAL, SIMPLY BRILLIANT!

Whatever your work culture looks like – we make space for it. Turn your visions into reality and design your own creative space just how you like it – agile, purist or revolutionary! Dynamic and focused activities. Zones for quiet time and meetings. Work areas that can be used flexibly. The future of work? It's happening now.

WELCOME TO TOMORROW'S WORKPLACE

The world of work is changing. That's reflected in the office environment too. Open space offices are used in an agile and multifunctional way. The transitions between reception areas, individual co-working areas, lounge zones and the cafeteria have become fluid.

Because movement encourages productivity.

FORM FOLLOWS FLEXIBILITY

We work together with our customers to create working environments that fit in with the company's image – whilst providing the employees with a setting in which they can develop their potential.

Use different locations for different tasks. Switch between various meeting situations and working locations. **Sit, stand, chat or concentrate while you work: to stay comfortable and healthy.** Every workstation can be customised so that it's individual and ergonomic.
