

CONNECT.BENCH

TEAMWORK OR FOCUS? BOTH!

- + Meeting tables for dynamic team and project work
- + Technology integration, electrification and connectivity
- + Seating and standing heights in many dimensions and shapes
- + Base variants in wood, square and round tubular steel
- + In many decor and frame colours

Team table at sitting height

- + Start, middle and end elements
- + Recessed base tubes
- + Round steel tube bases combined with round table corners
- + Central electrification bay and function rail

Table at sitting height

- + End and middle elements
- + Recessed middle leg tubes
- + Square steel leg tubes
- + Split top with gap for cable management across the entire width of the table

Project table at standing height

- + Single table with split top
- + Round tubular steel legs
- + Function rail for mounting centre panel, storage elements or monitor holder

Standing-height meeting table

- + Single bench with continuous top
- + Conical steel base tube
- + Electrification via central top cut-out

CONNECT.BENCH COLLABORATIVE OR FOCUSED

FUNCTIONAL RAIL
For mounting centre panels, storage elements or monitor holders.

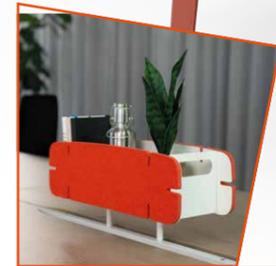

SURFACE
Plastic, veneer or Fenix

TECHNOLOGY INTEGRATION AND ELECTRIFICATION
With integrated access to power and cable management solutions

ACOUSTIC ELEMENT
Freely positionable

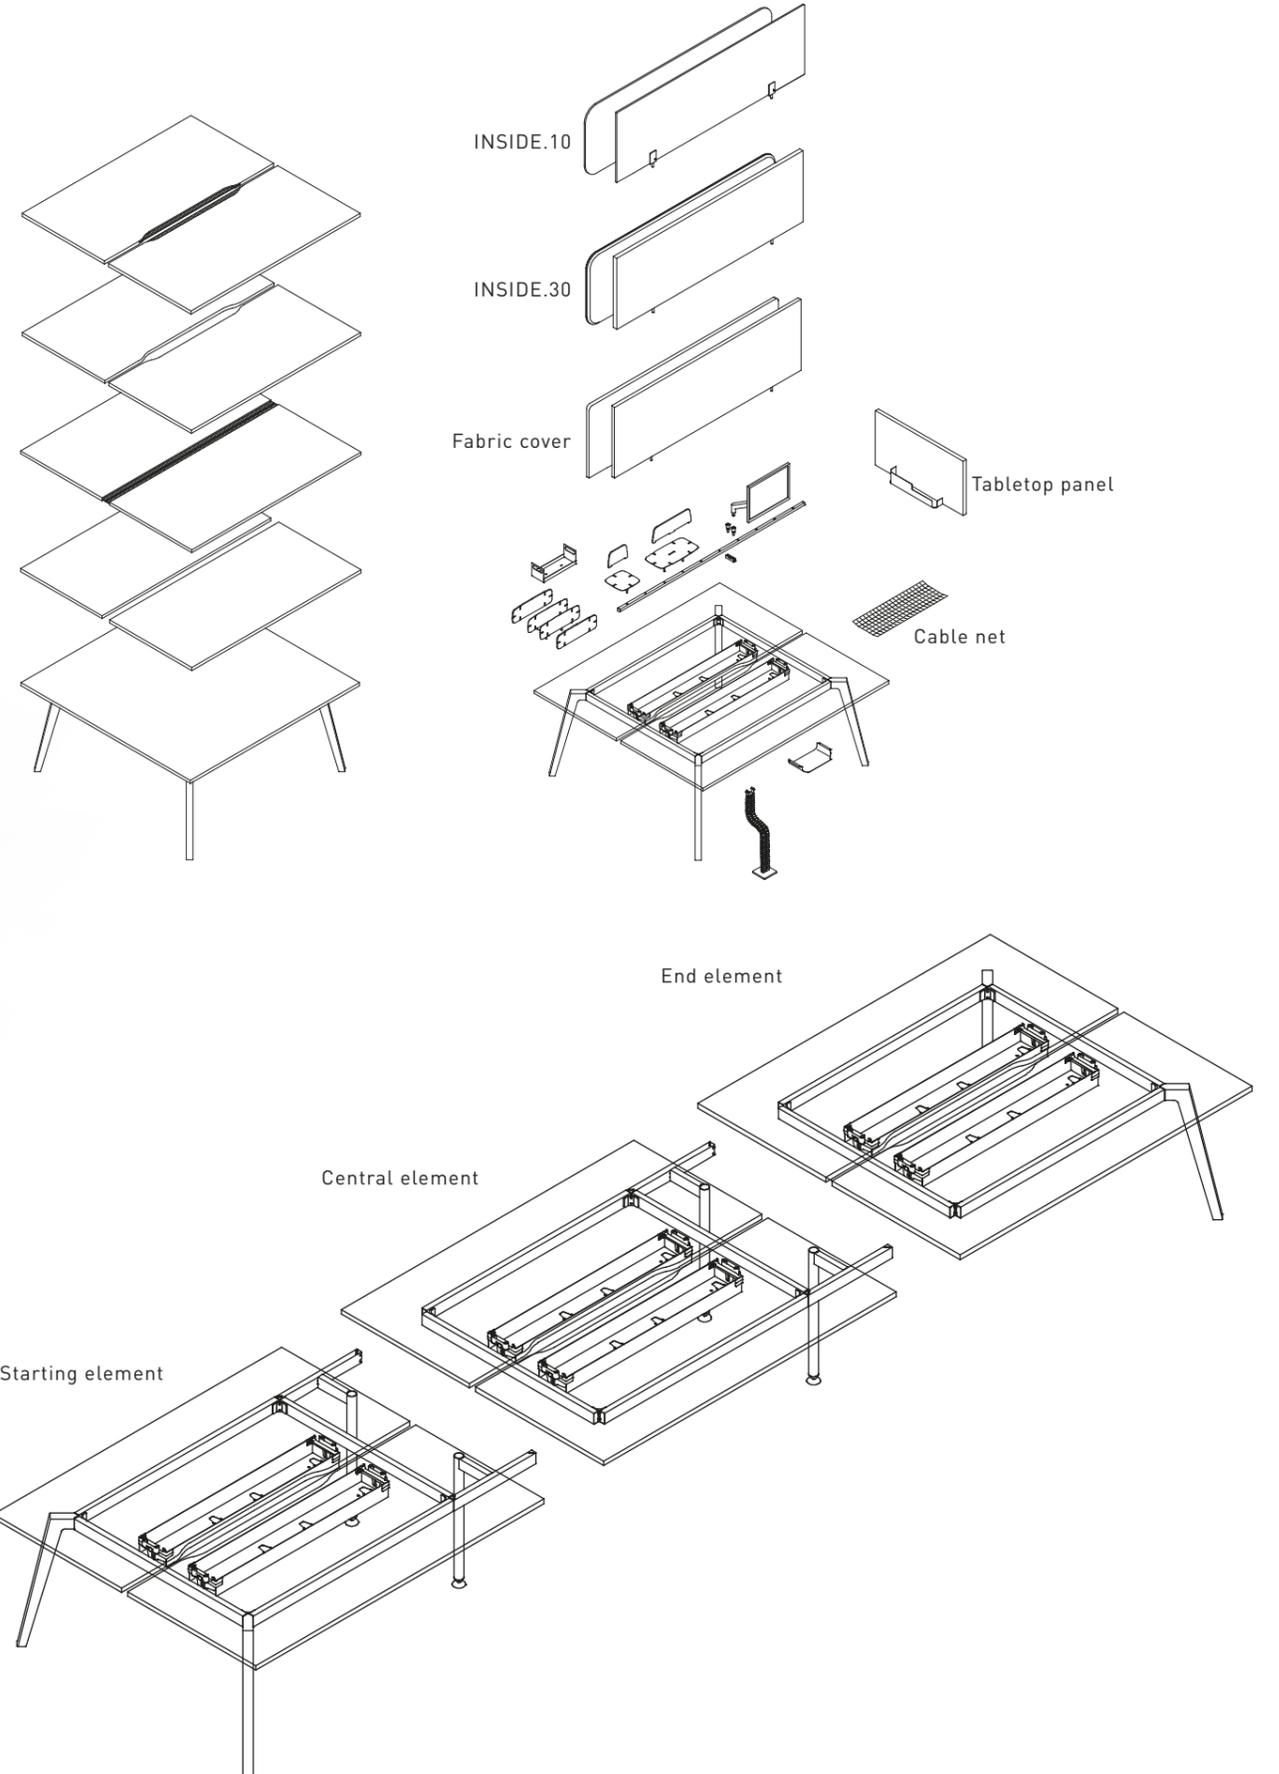

PLANT BOWL
Can be individually attached to the functional rail

CONFIGURATION AND CONNECTIVITY
Single or multi-piece tops with central leg concept for maximum legroom.

FOOT VARIANTS
Wood or steel

SYSTEM OVERVIEW

CONNECT.BENCH INFOCARD

1 | TABLE FLAP WITH ELECTRICAL INSERT
Highly aesthetic appearance. Flap flush with the surface and made of the same material as the tabletop. Practical operation on both sides.

2 | CABLE NET – PRACTICAL ALTERNATIVE TO CABLE TRAY
Flexibly mounted under the tabletop. Cables and sockets are neatly stored away.

5 | FUNCTIONAL RAIL WITH ELECTRIFICATION BAY
Functional rail allows individual storage elements, monitor holders or panels to be attached via holes. Cables can be flexibly routed into the cable tray through the brushes.

6 | FUNCTIONAL RAIL WITH MONITOR HOLDER

3 | STORAGE ELEMENT

Individually rotatable with clip-on divider – everything quickly to hand.

4 | CABLE SOCK

Invisible cable routing on the table leg ensures a tidy impression.

	Seat height 732 mm	Standing height 1,060 mm
Tops		
Continuous top	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Split top	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Split top with electrification bay/functional rail/brush	<input type="checkbox"/>	<input type="checkbox"/>
Can be linked with start/middle and end elements	<input type="checkbox"/>	<input type="checkbox"/>
Base variants		
Wooden base, real oak	<input type="checkbox"/>	<input type="checkbox"/>
A-base, conical steel	<input type="checkbox"/>	<input type="checkbox"/>
A-base, steel 50 x 40 mm	<input type="checkbox"/>	<input type="checkbox"/>
Round steel tube, Ø 45 mm	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Square steel tube, 50 x 50 mm	<input type="checkbox"/>	<input type="checkbox"/>
On castors (not with wooden base)	<input type="checkbox"/>	<input type="checkbox"/>
Tabletop designs / surfaces		
Plastic, plain/decorative	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Fenix	<input type="checkbox"/>	<input type="checkbox"/>
Trend collection	<input type="checkbox"/>	<input type="checkbox"/>
Veneer	<input type="checkbox"/>	<input type="checkbox"/>
Electrification		
Folding tray, metal – folds down on both sides	<input type="checkbox"/>	<input type="checkbox"/>
Cable net	<input type="checkbox"/>	<input type="checkbox"/>
Socket elements, power supply cable, coupling cable	<input type="checkbox"/>	<input type="checkbox"/>
Cable chain or cable sleeve	<input type="checkbox"/>	<input type="checkbox"/>
Metal/wooden table flap	<input type="checkbox"/>	<input type="checkbox"/>
Cable passage box	<input type="checkbox"/>	<input type="checkbox"/>
Wireless charging, NETBOX Point	<input type="checkbox"/>	<input type="checkbox"/>
Assembly elements for functional rail		
Square or rectangular storage element	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Storage element for plants	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Storage element under the table top		
DIN A4 storage element	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Standard Option
